Purpose of Report

Executive Decision

Legislative Requirement

Background

Each year every local government is required to carry out a compliance audit in relation to the period 1 January to 31 December against the requirements of the Compliance Audit Return (CAR).

After the CAR has been reviewed by the Audit Committee and presented to Council, a copy certified by the President and CEO, along with the relevant section of the minutes and any additional information explaining or qualifying the CAR, is to be submitted to the Department of Local Government and Communities (DLGC) by 31 March.

Comment

The CAR is one of the tools available to Council in its governance monitoring role. The CAR also forms part of the DLGC's monitoring program. The 2016 CAR once again places emphasis on the need for Council to be aware of and acknowledge instances of non-compliance or where full compliance was not achieved. In addition, the CAR requires Council to endorse details of remedial action either taken or proposed to prevent future like occurrences.

For the 2015 CAR an external consultant was appointed to complete it. It should be noted that the consultant's report on the 2015 CAR contained a number of recommendations, all of which have been implemented and completed.

The 2016 CAR has been completed in-house and has identified 1 area of non-compliance being:

Disposal of Property

Q1 - Was local public notice given prior to disposal for any property not disposed of by public auction or tender (except where excluded by Section 3.58(5))?

The Local Government Act 1995 defines disposal as including "to sell, lease or otherwise dispose of, whether absolutely or not" and property as "the whole or any part of the interest of a local government in property, but does not include money".

There are currently 4 Council houses provided to doctors or other health professionals working in Merredin under rental agreements in accordance with the *Residential Tenancies Act 1987*. The agreements commenced in 2011, 2014, 2015 and 2016 respectively. While technically a "lease", the intention to "dispose" of these properties was not advertised via local public notice prior to the time of the rental agreements commencing. This was simply an oversight by staff at the time.

The DLGC were contacted to discuss the implications of the oversight and they advised there may well be many local governments, particularly in the Wheatbelt region, providing housing to medical personnel and that the proposal(s) to provide that housing were not likely advertised via the required local public notice. The DLGC also suggested that it could be argued that providing such housing was in the community interest as it enabled doctors and other health professionals to work and stay in the community, providing essential services and economic benefit to the town.

As staff are now aware that in consideration of Section 3.58 of the *Local Government Act 1995* these residential tenancy agreements constitute a lease and therefore a disposal of property, a "lease" procedure will be developed ensuring any similar future proposals to provide Council housing to any persons other than employees will be advertised in compliance with the *Local Government Act 1995*.

The 2016 CAR demonstrates the Shire's ongoing commitment to statutory compliance and adequate response to non-compliance throughout the organisation.

Risk Implications

Council would be contravening the *Local Government Act 1995* and *Local Government (Audit) Regulations* 1996 if this item was not presented to the Audit Committee for recommendation to Council.

The whole process of the CAR is about identifying risks to the organisation where non-compliant activities may have taken place enabling processes and procedures to be developed or reviewed and amended, if required.
