

SHIRE OF MERREDIN
OBJECTIVES AND REASONS FOR PROPOSED DIFFERENTIAL RATES FOR THE YEAR
ENDING 30 JUNE 2020

The Shire of Merredin provides services to a diverse region consisting of residential, commercial, industrial and rural properties. Council has adopted a differential rating approach for the 2019/20 year in an attempt to ensure that rate revenue is collected on an equitable basis.

Council will implement the following differential rating categories:

UV1 – Rural

UV2 – Urban Rural

UV3 – Mining

UV4 - Special Zone Power Generation

UV5 – Special Use Airstrip

Valuations

Landgate is the statutory authority responsible for the valuation process in accordance with the provisions of the *Local Government Act 1995* (LGA) and the *Valuation of Land Act 1978* (VLA). The VLA empowers the Valuer General (VG) to conduct general valuations based on the Gross Rental Value (GRV) within WA at such times and frequency as he considers necessary and for Unimproved Value (UV) annually.

The date of the valuation is fixed by the VG. Values are determined relative to sales and rentals which are set at 1 August of the preceding year.

Unimproved Value

The definition of UV:

“Means the capital amount that an estate of fee simple in the land might reasonably be expected to realize upon sale, assuming that any improvements to the land had not been made”.

UV properties are reviewed on an annual basis, with the last review assessed as at 1 May 2019 effective 1 July 2019.

Information on the Valuer General’s Guide to Rating and Taxing values can be viewed by visiting their website at www.landgate.wa.gov.au.

Factors Affecting Valuations

- Landgate – UV Revaluation Roll
The VLA empowers the VG to conduct general valuations on the GRV basis within WA at such times and frequency as he considers necessary and for UV annually.
- Local Planning Scheme (LPS6)
LPS6 was gazetted by the Minister on 22 June 2011. The purposes of the scheme are to:
 - a) Set out the local government's planning aims and intentions for the Scheme area;
 - b) Set aside land for public purposes;
 - c) Zone land within the Scheme area for the purposes defined in the Scheme;
 - d) Control and guide land use and development;
 - e) Set out procedures for the assessment and determination of planning applications;
 - f) Make provisions for the administration and enforcement of the Scheme; and
 - g) Address other matters set out in the first Schedule of the *Planning and Development Act 2005*;

LPS6 can be viewed by visiting the Shire's website www.merredin.wa.gov.au.

Objections to Valuations

Under the VLA there are provisions for ratepayers to lodge an objection to the valuation with the Office of Landgate. The objection must be lodged within 60 days of the issue of the rate notice. It is important that any objection to a valuation should be on the grounds that the valuation is unjust or incorrect and not simply based on the quantum of rates payable.

Further information, brochures and objection forms are available from Landgate and can be viewed by visiting their website at www.landgate.wa.gov.au. We encourage ratepayers to telephone Landgate's Midland Office on 9273 7373 to discuss their valuation concerns prior to lodging any formal objections.

Rating Yield Objective

In setting the rate in the dollar for each category, Council has taken into consideration the following factors:

- **Long Term Strategic Financial Plan and Corporate Business Plan**
These financial strategic plans ensure the continued commitment to sound financial management and debt management programs. Council continues to benchmark its activities and programs to ensure competitiveness and value for money is being obtained for our residents and ratepayers. The setting of the 2018/2019 differential rates are based on the assumptions of a rates growth 3.0%.
- **Growth of Rated Properties**
The number of UV rated properties in the Shire has remained static over the past five years.

Differential Rates

The Shire is to apply a differential rating system based on the zoning and land use of a property in accordance with State Planning Legislation and the Local Planning Scheme.

UV Tiered

Council supports the introduction of the tiered scale as providing the most equitable option of differential rating for rural properties.

UV1 – Rural

UV1 sets the base rate for which the UV Tiered differential rating categories are applied. The differential rate applies to properties Rural Uses as listed under the LPS6 Zoning Table.

Rate in the dollar is 0.0193 cents, with a minimum of \$1,110.00

The rate in the dollar has increased to maintain a rates revenue increase of 3.0%.

(4) If during a financial year, the characteristics of any land which form the basis for the imposition of a differential general rate have changed, the local government is not to, on account of that change, amend the assessment of rates payable on that land in respect of that financial year but this subsection does not apply in any case where section 6.40(1)(a) applies.

(5) A differential general rate that a local government purported to impose under this Act before the *Local Government Amendment Act 2009* section 39(1)(a) came into operation 1 is to be taken to have been as valid as if the amendment made by that paragraph had been made before the purported imposition of that rate.

[Section 6.33 amended by No. 38 of 2005 s. 15; No. 17 of 2009 s. 39.]
