- BOLTED CONNECTION NOTES:**
1. All bolts to be fitted with nut and flat washer.
 2. All bolts are to be fitted with a minimum of 2-threads protruding past the nut.
 3. All slotted holes to be fitted with flat washers on both sides of bolted ply.
 4. All bolts to be snug tightened to AS4100 bolting category 4.6/S or 8.8/S.
 5. Bolts designated with the notation "XS" shall have bolt thread excluded from intersecting any internal ply shear plane. XS bolt length is critical.
 6. A second nut, or lock-nut, shall be fitted whenever two or more ply cannot be bolted together without eliminating a gap between them.

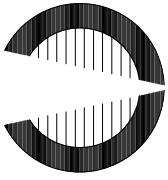

Design Criteria:

AS1170.2-2011	Loading code- wind actions Wind region A1 Terrain category 3.5 Topographic multiplier Mt=1.0 500-year return period
AS1170.1	Loading code- Permanent, imposed and other actions
AS1170.0	General principles
AS4100	Steel structures
AS3600	Concrete structures
