**Apologies:**

**Approved Leave of Absence:** Cr P Van Der Merwe

**3. Public Question Time**

The following question was submitted prior to the commencement of the Ordinary Council Meeting:

**Ms Kat White of Merredin**

The gardeners of Merredin wondered why the green waste tip fees have increased by 5 times since we were notified of the charges? We wondered if there was a plan to freight green waste out of town or do something else with it other than burn it to justify these charges?

Is the Shire prepared to clean up the dumped green waste that will inevitably be left around town in bushland because of these charges? Does the Shire understand that most of our client base is elderly people who don't have the ability to dump or remove their own green waste?

We appreciate your time in answering these questions.

We feel these charges are a massive mistake and will affect some gardeners ability to continue in this line of work.

*A: Uncontaminated green waste fees have only increased by a total of 90c over the course of the last 4 years, currently being \$12.90 per cubic metre.*

*Contaminated green waste materials are charged significantly higher to promote separation and segregation of waste streams to enable certain materials to be recovered and recycled, rather than taking up airspace in the landfill.*

*The Administration is willing to meet with the gardening businesses to discuss their concerns with a view to developing a path forward for their customers who are seniors or pensioners. We do not at this time intend to defer costs for business and other customers.*

*All members of the public left the Chambers at 4:09pm and did not return.*

## 6. GENERAL BUSINESS

### 6.1 *The reallocation of the following surplus funds 2023-24*

The Shires need to request the reallocation, provide an explanation for the underspend, advise which project the funds are to go to and what they will be used for. Alternately, they can request that the funds be returned to the holding account for redistribution.

#### **Shire of Merredin:**

Reallocating the sum of \$144,600 from Goldfields Rd to Chandler Merredin Rd to facilitate seal widening 9 km on Chandler Merredin Rd from 6 m to 7 m.

#### **Shire of Dowerin:**

Reallocating the sum of \$154,587 from Koombekine North Road to Cunderdin Minnivale Road to facilitate the extension of the project by 730 m.

#### **Shire of Kellerberrin**

A carry over funds for the Kellerberrin-Yelbini Road (Clearing Permit) works due to the hold up from the Department in issuing the clearing permit.

#### **Recommendation**

*That the Subgroup endorses:*

- a) The Shire of Merredin surplus funding from RRG – 23-24 Goldfield Rd of \$144,600 to be allocated towards Chandler – Merredin Rd seal widening SLK 12.27 – 15.47 & 17.74 – 23.54.*
- b) The Shire of Dowerin surplus funding from RRG – 23-24 Koombekine North Rd to be allocated towards Cunderdin Minnivale Rd.*
- c) The Shire of Kellerberrin to carry over the unspent fund of \$28,244 for Kellerberrin – Yelbeni Rd.*

**Moved** Cr Brown

**Seconded** Cr Smith

**Carried - Yes**

### 6.2 *Modification of Funding Allocation for the Shire of Cunderdin 2024 - 25*

Southern Brooke Rd project length to be delivered in current financial year will need to be reduced to allow for the replacement of dilapidated culverts; all the culverts along the project length started to fail, and require replacement, this was not accounted for in the initial budget. The project will be split over to FY years to provide sufficient funding and time to address this issue.

#### **Recommendation**

*That the Subgroup receives the request from the Shire of Cunderdin to reduce the SLK on Southern Brooke Rd and deliver the project over two financial years.*

**Moved** Cr Smith

**Seconded** Cr Leslie

**Carried - Yes**

### 6.3 Level 1 (L1) Bridge Inspections.

2024-25 L1 Bridge Inspections received (Due by 30/04/2025):

Wheatbelt	Total Bridges	Received	% Complete
Cunderdin	6		
Dowerin	1		
Kellerberrin	4		
Merredin	5		
Tammin			
<b>TOTAL</b>	<b>16</b>		

#### Recommendation

*That the L1 Bridge Inspections be completed and submitted to MRWA before the due date of 30 April 24.*

**Moved** Cr Leslie

**Seconded** Cr Smith

**Carried** - Yes

## **9.3. CONSULTATION OPPORTUNITIES**

---

### **Draft Regional Education Strategy**

On 22 July, the Department of Education released a [draft Regional Education Strategy](#). The Strategy aims to provide a framework to guide more effective delivery of regional education, focusing on improved educational and wellbeing opportunities across four pillars:

Pillar 1: Build the capability of our regional workforce

Pillar 2: Expand curriculum delivery

Pillar 3: Strengthen support for student wellbeing  
Pillar 4: Develop partnerships to create opportunity

Country Zones and Local Governments are strongly encouraged to provide feedback on the strategy, particularly given the relevance of the Strategy to matters raised by the Great Southern Zone with support from other country zones.

The consultation period closes on Friday, 20 September 2024.

[More information is available here.](#)

In addition WALGA is currently working with the Department of Education to facilitate direct engagement with regional sector and will advise on the details shortly.

### **Western Australia's Waste Avoidance and Resource Recovery Strategy 2030**

The Waste Authority is leading a review of the Western Australia's Waste Avoidance and Resource Recovery Strategy 2030 (waste strategy). The review provides an opportunity to reflect on how we are performing, what is working, and what we could do differently.

In 2023, the Waste Authority sought feedback on the [Directions paper](#), which set out key areas it proposed to focus on in the review. Consultation feedback was provided through surveys and written submissions, and informed development of the revised waste strategy, which is now open for 12 weeks of public consultation.

The revised [waste strategy](#) and 1-page priority summaries can be accessed at the bottom of this page.

The updated waste strategy is available to review and provide feedback until 5:00pm on Wednesday, 21 August.

## **9.4. WALGA STATE BUDGET SUBMISSION – EMERGENCY MANAGEMENT**

---

WALGA advocates on behalf of the Local Government sector to secure ongoing funding through budget allocations at a State and Federal level.

This involves providing Government with a submission of initiatives that will deliver significant benefits to communities across Western Australia.

When Federal and State Budgets are handed down, WALGA provides analysis, focusing on what the announcements and funding initiatives mean for Local Governments in Western Australia.

WALGA's Budget Submission 2024-25 sought funding for a range of initiatives to bolster the resilience of our communities to natural disasters, including increased funding for the Local Government Grant Scheme, Community Emergency Services Managers, bushfire mitigation activities, emergency planning and preparedness, building back better and improving road access in bushfire prone areas.

Despite strong advocacy by WALGA and Local Governments, the State Government has again not allocated any additional funding in the Budget for Community Emergency Services Managers (CESMs) in this year's Budget. WALGA's Budget Submission called for increased Emergency Services Levy funding to be provided to fully fund existing and additional CESMs. WALGA will continue to advocate that all interested Local Governments should have access to the CESM Program.

The full copy of the WALGA State Budget Submission 2024-25 and the WALGA analysis, please visit the [State Budget 2024-25 page on the WALGA website](#). Information on the [Federal Budget 2024-25](#) is also available.

## 9.7. LOCAL GOVERNMENT CONVENTION 2024 AND WALGA AGM

---

### **Local Government Convention**

The Local Government Convention is being held at the Perth Convention and Exhibition Centre from Tuesday, 8 October to Thursday, 10 October.

The Convention brings together Elected Members, suppliers, Council officers and key stakeholders as part of a unique program of professional development, networking and business opportunities.

The theme of this year's Convention is Innovation Ecosystem. Innovation Ecosystem speaks to the ability of WALGA and the sector to foster dynamic change within the fabric of WA through collaboration, promotion and daring to think big.

It will evoke new ideas, heightened passion for communities and facilitate connections for ongoing skills and ideas sharing within the Local Government sector.

It serves the purpose of highlighting the rich expertise base within WALGA available as a resource to members and the benefits that can be leveraged for all of WA when we work as a collective.

To register for the Convention use the following link: [LGC24 Registration](#).

### **WALGA AGM and Member Motions**

WALGA's 2024 Annual General Meeting (AGM) will be held during with the Local Government Convention, at 2:30pm on Wednesday, 9 October. An important feature of the AGM is the opportunity provided for member Local Governments to submit a Member Motion, and to seek the support of the sector in important matters of policy. Guidelines for submitting Member Motions can be found [here](#). The deadline for the submission of Member Motions is 5:00pm on 23 August.

CEOs have been provided with information to register Voting Delegates and Proxies. Registrations should be completed by 5:00pm on 27 September.

## **10. ZONE REPORTS**

---

### **10.1. CHAIR REPORT**

---

*President Cr Tony Sachse*

The Zone Executive met on Wednesday, 7 August. The minutes of the meeting were attached with the Agenda.

The Executive discussed upcoming speakers.

Since the meeting, the Office of the Auditor General has confirmed their attendance.

The Executive requested a representative from WALGA to attend to speak on updates regarding Agricultural Land Use and Emergency Management State Budgeting with regards to DFES and Community Emergency Service Managers (CESM's).

A written update regarding the roll out of Mobile Telephone Base Automatic Transfer Units (ATU's) for generator back up will be provided by the Wheatbelt Development Commission.

The Zone has received correspondence from the Pilbara Country Zone regarding the Live Sheep Export by Sea Bill/Act. This correspondence was attached to the Agenda.

Thank you to our visiting politicians and all the Agency representatives for presenting today.

And a reminder to all, the Avon-Midland Country Zone have invited the Zone to their Wheatbelt Zone Forum (see item 9.7).

Thanks also to the Shire of Kellerberrin for hosting us today.

## 10.2. WHEATBELT DISTRICT EMERGENCY MANAGEMENT COMMITTEE (DEMC)

---

*President Cr Tony Sachse*

The last meeting of the Wheatbelt DEMC was on 12 June. At the time of writing the minutes are not yet available.

The 2024 [Regional Telecommunications Review](#) closed on 31 July.

The Regional Telecommunications Review takes place every 3 years. This year, the Independent Review Committee is interested in hearing about:

- the suitability of telecommunications during emergency situations
- how emerging technologies could improve connectivity
- ways telecommunications can support regional development.

A report on the findings and recommendations of the Review will be presented to the Government by December 2024.

The Wheatbelt Operational Area Support Group (OASG)/ISG is now meeting on an as needed basis, and has not met over recent months.

### **11.3. STATE COUNCIL AGENDA ITEMS – 4 SEPTEMBER 2024**

#### **Background**

WALGA State Council meets five times each year and as part of the consultation process with Member Councils circulates the State Council Agenda for input through the Zone structure.

Zone delegates to consider the Matters for Decision contained in the WA Local Government Association State Council Agenda and put forward resolutions to Zone Representatives on State Council

The full State Council Agenda was provided as an attachment to the Agenda and can be found on the [WALGA website](#).

### 11.3.1. State Council Matters for Decision

## 8.1 LOCAL GOVERNMENT ELECTIONS ANALYSIS 2015-2023

*By Emma Heys, Governance Specialist*

#### WALGA RECOMMENDATION

That WALGA advocate to the State Government:

1. *For an independent Local Government election audit, focusing on the Western Australia Electoral Commission's (WAEC) cost allocation methods and costing applications used, to confirm that marginal cost recovery principles are applied and that the costing program is being effectively managed.*
2. *For the requirement for the WAEC to develop and implement Service Level Agreements with Local Governments, similar to those agreements currently used in New South Wales and Victorian Local Government elections and that includes:*
  - a. *transparency of costing methodology,*
  - b. *direct engagement with Local Governments pre and post elections, and*
  - c. *the roles and responsibilities of the WAEC and Local Governments in the conduct of elections.*
3. *For the introduction of a provision for private service providers to enter the market for the conduct of Local Government elections.*
4. *For a mandated WAEC Report to Parliament specific to Local Government elections post each election cycle, outlining costs, results, voter turnout and matters for improvement both in the conduct of elections and the legislation, if relevant.*

#### EXECUTIVE SUMMARY

- This report presents the findings of a comprehensive review and analysis of five election cycles up to and including the 2023 Local Government election against the backdrop of legislative reforms to the Local Government electoral process in Western Australia.
- With a focus on postal elections conducted exclusively by the Western Australian Electoral Commission (WAEC), the analysis has found evidence of the rising cost of conducting Local Government elections in Western Australia.
- Elected Member feedback, costs vs service comparisons and engagement by the sector with WALGA's governance services over the 2023 Local Government election period, are the basis for the recommendations as outlined above.
- The Governance Policy Team considered this item at its meeting of 7 August and endorsed the position for consideration by State Council

## 8.2 ENERGY TRANSITION ENGAGEMENT AND COMMUNITY BENEFIT FRAMEWORK ADVOCACY POSITION

*By Daniel Thomson, Manager Economics*

### WALGA RECOMMENDATION

That State Council endorse a new Energy Transition Engagement and Community Benefit Framework Advocacy Position as follows:

*It is essential that the energy transition currently underway delivers economic opportunities, ensures reliable and affordable electricity, and the greatest possible benefits for the community.*

*WALGA calls on the State Government to develop a comprehensive framework to manage the impact of the energy transition that includes local engagement and the realisation of community benefits from energy transition projects as a priority.*

### EXECUTIVE SUMMARY

- Western Australia's energy industry is transforming to achieve the goal of net zero emissions by 2050.
- In Western Australia there is no framework that provides a consistent approach to how proponents of major energy projects consult with local communities and how they can share in the benefits.
- WALGA will advocate for the State Government to develop a framework to guide consultation and benefit sharing with local communities during the energy transition.
- A joint meeting of the Environment Policy Team and Infrastructure Policy Team held on 10 July endorsed the position for consideration by State Council.
- This draft advocacy position should be considered in conjunction with the accompanying draft WALGA advocacy positions Renewable Energy Facilities (Item 8.3) and Priority Agriculture (Item 8.4).

## 8.3 RENEWABLE ENERGY FACILITIES ADVOCACY POSITION

*By Kieran McGovern, Policy Officer Planning*

### WALGA RECOMMENDATION

That State Council endorse a new Renewable Energy Facilities Advocacy Position as follows:

*The growth in the number, size, and complexity of renewable energy facilities across Western Australia is expected to continue as energy generation and other traditional industries de-carbonise their facilities and operations. The renewable energy state planning framework requires changes to ensure it is fit for purpose to guide the ongoing development of this sector.*

*WALGA calls on the State Government to:*

- 1. Adopt a new State Planning Policy for renewable energy facilities, to replace the existing Position Statement: Renewable energy facilities, that:*
  - a. Facilitates the orderly development of renewable energy facilities across Western Australia;*
  - b. Outlines the key planning and environmental considerations, for the location, siting, design and operation of renewable energy facilities and their associated infrastructure;*
  - c. Provides a framework that clearly stipulates the minimum required documentation and technical reports that need to be submitted with proposals for renewable energy facilities;*
  - d. Supports the development of Local Planning Policies by Local Governments to further guide locally appropriate planning consideration of renewable energy facilities;*
  - e. Provides a clear relationship with:*
    - i. State Planning Policy 2.5 - Rural planning and Development Control Policy 3.4 - Subdivision of rural land, to ensure planning decisions adequately balance the need to protect and preserve rural land for rural purposes;*
    - ii. State Planning Policy 2.4 - Planning for Basic Raw Materials to ensure proposals for renewable energy facilities consider their impact on basic raw material supply at the earliest stage of the planning process; and*
    - iii. State Planning Policy 2.9 - Planning for Water to ensure water resources impacted by renewable energy facilities are identified and adequately managed.*
  - f. Includes policy measures to address:*
    - i. concerns relating to the location of these facilities and their associated infrastructure on agricultural land, their proximity to lot boundaries, town sites and sensitive land uses, and potential impact on airport operations and rural activities;*
    - ii. planning for renewable energy facilities in industrial areas in relation to the coordination of these facilities, their appropriateness in the 'General Industry' zone and impacts and suitable location on heavy industry sites;*
    - iii. the need for local engagement and the realisation of community benefits from the development of renewable energy facilities.*
- 2. Review the definition of 'renewable energy facility' considering the increasing size and scope of facilities and consider creating definitions based on the scale of the facility (Utility-scale and other), and the form of facility (solar energy and wind energy).*
- 3. Provide guidance to Local Governments on the consideration of green hydrogen production facilities on rural land where it is an incidental use to a renewable energy facility.*

## EXECUTIVE SUMMARY

- A 2023 WALGA Annual General Meeting resolution and subsequent resolution by the Great Eastern Country Zone requested *WALGA establish and promote policies to protect and prioritise the preservation of agricultural land against its displacement by non-agricultural activities that lead to a net reduction of the State's productive agricultural land.*
- The Central Country Zone resolved to request WALGA to advocate to the State Government *to develop a more comprehensive and effective approach to guide the management and placement of renewable energy facilities; including but not limited to wind, solar, battery renewable diesel and associated infrastructure.*
- The existing State Government *Position Statement: Renewable energy facilities* does not adequately address these concerns, leading to inconsistent application and approvals of renewable energy facilities across the State.
- WALGA will advocate for the existing *Position Statement: Renewable energy facilities* to be amended and elevated to a State Planning Policy, including more nuanced provisions which provide greater guidance to Local Governments and applicants, and allow for renewable energy land uses to be classified as either small or large facilities.
- A joint meeting of the Environment Policy Team and Infrastructure Policy Team on 10 July endorsed the position for consideration by State Council.
- This draft advocacy position should be considered in conjunction with accompanying draft WALGA advocacy positions Energy Transition Engagement and Community Benefit Framework (Item 8.2) and Priority Agriculture (Item 8.4).

## 8.4 PRIORITY AGRICULTURE ADVOCACY POSITION

*By Kieran McGovern, Policy Officer Planning*

### WALGA RECOMMENDATION

That State Council endorse a new Priority Agriculture Advocacy Position as follows:

*The state planning framework should provide sufficient statutory protections for areas identified as high quality agricultural land.*

*WALGA calls on the State Government to:*

1. *Amend the Planning and Development (Local Planning Schemes) Regulations 2015 to:*
  - a. *Create a new model zone under Schedule 1, Part 3, Clause 16 for land identified as high quality agricultural land known as the 'Priority Agriculture' zone, with the following objectives:*
    - i. *to retain priority agricultural land for agricultural purposes; and*
    - ii. *limit the introduction of sensitive land uses which may compromise existing, future and potential agricultural production.*
  - b. *Define 'Priority Agriculture' zone under Schedule 2, Part 1, Clause 1 to align with the definition provided in State Planning Policy 2.5 - Rural planning.*

2. *Review the areas which have been identified by the Department of Primary Industries and Regional Development as high quality agricultural land and expand the extent of mapping to address the whole of Western Australia.*
3. *Undertake a 'health check' of State Planning Policy 2.5 - Rural planning and Development Control Policy 3.4 - Subdivision of rural land, in consultation with relevant stakeholders.*

## EXECUTIVE SUMMARY

- A 2023 WALGA Annual General Meeting resolution and subsequent resolution by the Great Eastern Country Zone have requested *that WALGA establish and promote policies to protect and prioritise the preservation of agricultural land against its displacement by non-agricultural activities that lead to a net reduction of the State's productive agricultural land.*
- WALGA prepared a *Research Paper: Protection of Productive Agricultural Land* that provides policy context, previous WALGA advocacy and analysis of State and Local Government approaches to agricultural land use protections.
- This work identified that a lack of consistency between the sub-regional planning strategies across the different regions of WA has impeded the implementation of best practice planning controls into local planning frameworks, and thus inconsistent application across the State.
- This advocacy position recommends statutory protections of areas that have been identified as high quality agricultural land, through amending the *Planning and Development (Local Planning Schemes) Regulations 2015* to include a model zone for 'Priority Agriculture'. This will provide the ability for Local Governments to adopt the model zone into their local planning schemes.
- A joint meeting of the Environment Policy Team and Infrastructure Policy Team endorsed the position for consideration by State Council on 10 July 2024.
- This draft advocacy position should be considered in conjunction with accompanying draft WALGA advocacy positions Energy Transition Engagement and Community Benefit Framework (Item 8.2) and Renewable Energy Facilities (Item 8.3).

## 8.5 PLANNING PRINCIPLES AND REFORM ADVOCACY POSITION

*By Coralie Claudio, Senior Policy Advisor Planning*

### WALGA RECOMMENDATION

That State Council:

1. Retire Advocacy Position 6.2 Planning Reform; and
2. Replace Advocacy Position 6.1 Planning Principles with the following:

#### *6.1 Planning Principles and Reform*

1. *The Local Government sector supports an efficient and effective planning system guided by legislation, policy, and processes that:*
  - a. *facilitates the creation of sustainable and liveable communities and places;*

- b. has a focus on strategic planning that delivers on long-term objectives and outcomes that balance social, environmental, cultural, and economic interests;*
  - c. is easy to understand, accessible and transparent;*
  - d. recognises the diversity of Western Australia and ensures that local environment, context, communities and character are appropriately reflected in planning frameworks and decision making;*
  - e. ensures decisions are made by the level of government closest to and most impacted by a planning proposal; and*
  - f. establishes consistent planning frameworks and streamlines planning processes where there is a demonstrated benefit in doing so.*
- 2. Reforms to the planning system should:*
- a. be guided by the above principles;*
  - b. deliver community benefit;*
  - c. promote system efficiency, including through the use of technology;*
  - d. be evidence-based and informed by robust, transparent data;*
  - e. proceed at an appropriate pace to enable effective implementation;*
  - f. be informed by engagement with the community; and*
  - g. be amended only with WALGA involvement and/or consultation/involvement with Local Government.*

## EXECUTIVE SUMMARY

- It is proposed that the Advocacy Positions 6.1 Planning Principles and 6.2 Planning Reform be replaced with a new contemporary combined position that reflects the current planning system and planning reform agenda.
- The updated position identifies key elements that would create an effective and efficient planning system and how planning reform can be developed, prioritised, and implemented to achieve this.
- The updated position has been informed by feedback from Local Government officers, including WALGA's Planning Advisory Group and previous WALGA submissions on State Government planning reform initiatives.
- The Environment Policy Team endorsed the advocacy position at their meeting on 29 July.

## 8.6 PRODUCT STEWARDSHIP POLICY STATEMENT AND ADVOCACY POSITION

*By Rebecca Brown, Policy Manager, Environment and Waste*

### WALGA RECOMMENDATION

That State Council:

1. Rescind the existing Extended Producer Responsibility Policy Statement and Advocacy Position 7.5 Extended Producer Responsibility.
2. Endorse a new Product Stewardship Advocacy Position as follows:

1. *Industry should take responsibility (physical and/or financial) for the waste that it generates through the entire life cycle of the products it produces through the implementation of effective product stewardship. Without effective Product Stewardship, there will be increasing costs for the community, resource recovery targets will be difficult to reach and a transition to a circular economy is unlikely.*
2. *Effective Product Stewardship is characterised by:*
  - a. *Producers and importers taking responsibility for post consumption product impacts.*
  - b. *Schemes covering the entire cost of product recycling or recovery, including transport.*
  - c. *Leveraging existing Schemes and collection locations.*
  - d. *Being easy and convenient for the community to access.*
  - e. *Having equitable national coverage and access for all, including regional and remote locations.*
  - f. *Being evidence based.*
  - g. *Consistent regulation and implementation across Australia using national Product Stewardship legislation.*
  - h. *Timely action and industry cooperation during Scheme development and implementation.*
  - i. *Being demand based and aiming to recover the maximum amount of material, rather than being limited by targets.*
  - j. *No additional cost to consumers when the product is disposed of post consumption.*
3. *Local Government calls on the Commonwealth Government to implement effective Product Stewardship schemes for all products that drive environmentally and socially sustainable outcomes through the design, manufacture and distribution of products that can be more easily reused, repaired, recovered or recycled.*
4. *If national action is not progressed within a reasonable timeframe, or in a way that meets the needs of the Western Australian community, then Local Government supports a State based approach to Product Stewardship.*

## EXECUTIVE SUMMARY

- The [Extended Producer Responsibility \(EPR\) Policy Statement](#) was first endorsed in 2004 and reviewed and amended in 2008.
- The Statement outlines the rationale for Local Government support for EPR, as a way of ensuring producers take responsibility for their products at the end of life, and some of the key elements of successful Schemes.
- WALGA's [Local Government Principles for Product Stewardship](#) was endorsed in 2022. The Principles provided more detail on key design elements for Schemes and have been used to inform advocacy.
- Following discussion at the April Municipal Waste Advisory Council (MWAC) and Officers Advisory Group meetings it was agreed to review the EPR Policy Statement and incorporate the Local Government Principles into a new Product Stewardship Policy Statement and Advocacy Position.

- The Product Stewardship Policy Statement and Advocacy Position has been updated to:
  - Include a greater focus on the potential for Product Stewardship to influence the design of products, as well as their post consumption disposal.
  - Identifying the increasing cost burden on Local Government and the community of increasing complex products.
  - Focus on ensuring all products have a clear and funded end of life pathway.
- The MWAC endorsed the new Policy Statement and Advocacy Position in June.

## 8.7 SUBMISSION ON THE DRAFT STATE WASTE STRATEGY

*By Rebecca Brown, Policy Manager, Environment and Waste*

### WALGA RECOMMENDATION

That State Council endorse the Draft State Waste Strategy Submission.

### EXECUTIVE SUMMARY

- The [Draft State Waste Strategy](#) (Draft Strategy) and [State Waste Infrastructure Plan](#) were released on 29 May. This follows the release of the [Strategy Directions Paper](#) in May 2023. WALGA provided a comprehensive [Submission](#) on the Directions Paper.
- Given the significant impact of the Strategy on Local Government, WALGA was granted an extension to the deadline to allow the draft submission to be considered by WALGA Zones and State Council.
- The focus of the Draft Strategy is:
  - Better outcomes for regional and Aboriginal communities
  - Increasing our focus on waste avoidance
  - Better management of priority materials
  - Realising the economic potential of recycling
  - Contingency planning and climate resilience.
- New Targets are also proposed for each of the Avoid, Recover and Protect areas.
- WALGA's draft submission on the Draft Strategy was informed by Local Government written feedback and feedback received at a webinar held on 19 July.
- This Municipal Waste Advisory Council (MWAC) endorsed the draft submission on 31 July 2024.

### 12.1 Application for Subdivision (WAPC 200641) Lot 23306 Hines Hill Road Korbel

<div>Development Services</div> <div>SHIRE OF MERREDIN INNOVATING THE WHEATBELT</div>

Legislation:	<i>Planning and Development Act 2005</i> Shire of Merredin Local Planning Scheme No.6
File Reference:	A7219
Disclosure of Interest:	Nil
Attachments:	Attachment 12.1A – WAPC Referral Documentation

#### Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider the proposed advice to the Western Australian Planning Commission (WAPC) that it has no objection to the proposed subdivision of Lot 23306 Hines Hill Road, Korbel (WAPC Application No: 200641) resulting in the creation of two new lots, proposed Lot 110 (4.67ha) and proposed Lot 111 (60.0797ha).

#### Background

An application for subdivision of land located approximately 10 kilometres south of the Hines Hill townsite, has been lodged with the Western Australian Planning Commission for approval. The WAPC is seeking comments from Council prior to issuing a determination on the application.

The proposed subdivision will divide existing Lot 23306 Hines Hill Road, Korbel into 2 new Lots. Lot 110 (4.67ha) which will contain all existing building and structures (homestead Lot) and Lot 111 (60.0797ha) which will contain the balance of the rural land.

#### Comment

#### Planning Considerations

The land in question is zoned General Farming (Rural) in the Shire of Merredin Local Planning Scheme No.6 (the Scheme). All existing buildings incorporating the farmhouse and sheds will be located on the proposed Lot 110. There are currently no buildings located on the proposed Lot 111.

The WAPC Development Control Policy 3.4 – Subdivision of Rural Land as well as provisions of the Scheme highlight the need to maintain the viability and rural character of the land in question.

With respect to the creation of a homestead lot, Development Control Policy 3.4 – Subdivision of Rural Land, states as follows:

*The creation of homestead lots is intended to allow primary producers to continue to occupy their dwelling when they cease to farm, and provide settlement opportunities in areas where land fragmentation is limited and unlikely to increase. Homestead lots are to be created in a manner that is consistent with the rural character of the landscape of a locality. Homestead lots may be facilitated through boundary rationalisation or the creation of a new lot”*

*Homestead lots may therefore be created to enable an approved existing house on a rural lot to continue to be occupied provided that;*

- a) The land is in the DC 3.4 Homestead lot policy area;*
- b) The homestead lot has an area between one and four hectares, or up to 20 hectares to respond to the landform and include features such as existing outbuildings, services or water courses;*
- c) There is an adequate water supply for domestic land management and fire management purposes;*
- d) The dwelling is connected to a reticulated electricity supply or an acceptable alternative demonstrated;*
- e) The homestead lot has access to a constructed public road;*
- f) The homestead lot contains an existing residence that can achieve an appropriate buffer from adjoining rural land uses;*
- g) a homestead lot has not been excised from the farm in the past;*
- h) the balance lot is suitable for the continuation of the rural land use, and generally consistent with the prevailing lot sizes, where it can be shown that this is consistent with the current farming practices at the property; and*
- i) the dwelling on a homestead lot must be of a habitable standard and may be required to be certified as habitable by the local government.*

In this case, given the Lot sizes in question, their location and existing infrastructure on the Lots, it is believed that the proposed subdivision meets the required criteria in that the viability of the rural land is not jeopardised and at the same time the creation of the homestead Lot will not generate any undue additional need for government and community services.

### **Bush Fire Management**

The supporting documentation forwarded to the Shire of Merredin (the Shire) by the WAPC incorporates correspondence from RM Surveys – Licensed Surveyors, requesting an exemption from requirements to supply a Bush Fire Attack Level (BAL) assessment on the basis that:

- the proposed subdivision will not result in intensification or development of land use; and
- the proposed subdivision will not result in increased occupancy by employees, or increased bushfire risk as the land use will continue as broadacre farming.

WAPC State Planning Policy 3.7 - Planning in Bushfire Prone Areas states that in cases of an application for a subdivision in a bush fire prone area where the BAL is identified as higher than BAL-12.5, a Bushfire Management Plan is required.

On 28 August 2024, the Shire's Executive Manager Development Services (EMDS) spoke with the Planning Officer at Department of Planning, Lands and Heritage who is processing this application on behalf of the WAPC, and discussed the fact that the DFES bush fire prone mapping website identifies the vegetation located on the Hines Hill road verge adjacent to the property as being the only bush fire prone area, with the vast majority of the existing Lot 23306 Hines Hill Road, Korbek not being identified as bush fire prone.

Accordingly, the indication from the WAPC is that they will grant an exemption in this case and not require a BAL assessment to be undertaken. This makes sense given the very limited extent of the area identified as being bush fire prone and the routine requirement for a BAL assessment to be undertaken as part of any future development application processes.

### Site Soil Evaluation

The correspondence from RM Surveys – Licensed Surveyors, also refers to the onsite effluent disposal system servicing the existing dwelling, querying the need for a Site Soil Evaluation (SSE) which would routinely be required as part of a subdivisional application process associated with the creation of new lots. In this case the existing septic system has been in the ground for some time and is functioning well. In addition, there is ample space for the provision of a replacement, or an additional onsite effluent disposal system should the need arise. As such the EMDS concurs that a formal SSE is not warranted in this case.

### Road Access

Lot 23306 Hines Hill Road, Korbek currently has road access from Hines Hill Road. Following the proposed subdivision, both Lots 110 and 111 will have potential road access from Hines Hill Road.

That Council ADVISES the Western Australian Planning Commission (WAPC) that it has no objection to the proposed subdivision of Lot 23306 Hines Hill Road, Korbel (WAPC Application No: 200641) resulting in the creation of two new Lots, proposed Lot 110 (4.67ha) and proposed Lot 111 (60.0797ha), Hines Hill Road, Korbel, as identified in Attachment 12.1A, subject to;

1. The proposed boundaries not encroaching upon any existing structures or onsite effluent disposal facilities; and
2. All new Lots being connected to a constructed road via crossovers to the satisfaction of the Shire of Merredin.

**Application No: 200641 - Lot 23306 Hines Hill Road, Korbel**

The Western Australian Planning Commission has received an application for planning approval as detailed below. Plans and documentation relating to the proposal are attached. The Commission intends to determine this application within 90 days from the date of lodgement.

Please provide any information, comment or recommended conditions pertinent to this application by 20 September 2024 being 42 days from the date of this letter. The Commission will not determine the application until the expiry of this time unless all responses have been received from referral agencies. If your response cannot be provided within that period, please provide an interim reply advising of the reasons for the delay and the date by which a completed response will be made or if you have no comments to offer.

Referral agencies are to use the Model Subdivision Conditions Schedule (1 January 2024) in providing a recommendation to the Commission. Non-standard conditions are discouraged, however, if a non-standard condition is recommended additional information will need to be provided to justify the condition. The condition will need to be assessed for consistency against the validity test for conditions. A copy of the Model Subdivision Conditions Schedule can be accessed: <http://www.dplh.wa.gov.au>

Dear Sir/Madam,

**PROPOSED HOMESTEAD LOT SUBDIVISION of:  
1686 Hines Hill Road, Korb, being Lot 23306 on Deposited Plan 225397**

This application is for a Homestead Lot Subdivision per Development Control Policy 3.4 section 6.6.

**RE: Fire assessment**

I would like to apply for exemption from the requirement to supply a Bush Fire Attack Level (BAL) assessment as per State Planning Policy 3.7.

In accordance with the criteria for exemption under Planning Bulletin 111/2016 s.5, the proposed subdivision:

- Will not result in intensification or development of land use
- Will not result in increased occupancy by employees, or increased bushfire risk as the land use will continue as broadacre farming

**RE: Site-and-soil evaluation (SSE)**

The established dwelling is occupied and has an existing septic tank system, I understand the SSE is primarily intended for new/proposed septic facilities – please correct me if I am mistaken.

I would like to request this proposal to be classified as 'low risk', per section 2.1 (page 2) of attached POL-Government\_Sewerage\_Policy\_2019\_FAQ\_1, therefore removing the requirement (if reclassified) for an SSE at application stage.

*low risk proposals where the WAPC, in consultation with the local government and relevant referral agencies, is satisfied that the minimum site requirements for on-site sewage (refer to section 5.2 of the policy) will be met.*

The site conditions/location meets the conditions set out in Section 5 and Schedule 2 of: POL-Government\_Sewerage\_Policy\_2019\_September:

- Site is zoned rural
- Site is surrounded by farmland, higher density development is excluded per the homestead lot policy (*no future dwellings*)
- Dwelling's location is not subject to flooding, and over 100m and 180m clear of nearest watercourses; minor creeks with intermittent winter flow
- Site is not within a Sewage sensitive areas, per the PlanWA database
- No water bores exist in the dwelling's vicinity – the house is serviced by scheme water

Should the Shire or any other agency require an SSE, we would be pleased to provide it as a subdivision condition.

I understand that this classification is applied at the discretion of the decision maker. Thank you for your assistance, and please contact me if you require any further information.

Yours sincerely,

### Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider the proposed advice to the Western Australian Planning Commission (WAPC) that it has no objection to the proposed subdivision of Lot 49 Robartson Road, Nangeenan (WAPC Application No: 200671) resulting in the creation of two new Lots, proposed Lot 1 (4.53ha) and proposed Lot 2 (96.68ha).

### Background

An application for subdivision of land located approximately 5 kilometres southwest of the Merredin townsite, has been lodged with the WAPC for approval. The WAPC is seeking comments from Council prior to issuing a determination on the application.

The proposed subdivision will divide existing Lot 49 Robartson Road, Nangeenan into 2 new Lots. Lot 1 (4.53ha) which will contain all existing buildings and structures (homestead Lot) and Lot 2 (96.68ha) which will contain the balance of the rural land.

### Comment

The land in question is zoned General Farming (Rural) in the Shire of Merredin Local Planning Scheme No 6 (the Scheme). All existing buildings incorporating the farmhouses and sheds will be located on the proposed Lot 1. There are currently no buildings located on the proposed Lot 2.

The WAPC Development Control Policy 3.4 – Subdivision of Rural Land, as well as provisions of the Scheme highlight the need to maintain the viability and rural character of the land in question.

With respect to the creation of a homestead Lot, Development Control Policy 3.4 – Subdivision of Rural Land, states as follows;

*The creation of homestead lots is intended to allow primary producers to continue to occupy their dwelling when they cease to farm, and provide settlement opportunities in areas where land fragmentation is limited and unlikely to increase. Homestead lots are to be created in a manner that is consistent with the rural character of the landscape of a locality. Homestead lots may be facilitated through boundary rationalisation or the creation of a new lot"*

*Homestead lots may therefore be created to enable an approved existing house on a rural lot to continue to be occupied provided that;*

- a) The land is in the DC 3.4 Homestead lot policy area;*
- b) The homestead lot has an area between one and four hectares, or up to 20 hectares to respond to the landform and include features such as existing outbuildings, services or water courses;*
- c) There is an adequate water supply for domestic land management and fire management purposes;*
- d) The dwelling is connected to a reticulated electricity supply or an acceptable alternative demonstrated;*
- e) The homestead lot has access to a constructed public road;*
- f) The homestead lot contains an existing residence that can achieve an appropriate buffer from adjoining rural land uses;*
- g) a homestead lot has not been excised from the farm in the past;*
- h) the balance lot is suitable for the continuation of the rural land use, and generally consistent with the prevailing lot sizes, where it can be shown that this is consistent with the current farming practices at the property; and*
- i) the dwelling on a homestead lot must be of a habitable standard and may be required to be certified as habitable by the local government.*

Normally, given the Lot sizes in question, their location and existing infrastructure on the Lots, the proposed subdivision would meet the required criteria in that the viability of the rural land is not jeopardised. In this case there are additional considerations relating to the recent placement of grouped dwelling onto Lot 49 Robartson Road, Nangeenan.

### **Statutory Planning Considerations**

Lot 49 (No 549) Robartson Road, Nangeenan is zoned 'General Farming' under the Scheme.

Until fairly recently the placement of a second (grouped) dwelling on a single lot in a general farming zoned area was not permitted under the Scheme.

This changed with the gazettal of Amendment No. 4 to the Scheme which occurred on 6 April 2018, and which had the following effect:

*Modified Table One – Zoning Table by deleting the 'X' against 'grouped dwelling' in a General farming zone and inserting a 'D<sup>1</sup>', and adding a footnote to Table as follows;*

*<sup>1</sup> Subject to clause 4.13'.*

*Clause 4.13- deleted paragraph 2 and replaced it with the following-*

- a) the total number of dwellings on the lot will not exceed three(3) dwellings;*

- b) the additional dwelling complies with the setback requirements not less than those specified for the residential Design Code R2;*
- c) the lot has an area of not less than 40 hectares;*
- d) it can be demonstrated that the additional dwelling is for workers or family members employed for primary production activities on the lot;*
- e) adequate provision of potable water for, and disposal of sewerage from, the additional dwelling can be demonstrated;*
- f) the additional dwelling will not adversely detract from the rural character and amenity of the area or conflict with primary production on the subject lot or adjoining land;*
- g) access to the existing road network is to be provided for any additional dwelling and shared with any existing dwelling where practicable;*
- h) the existence of more than one dwelling on a lot in the 'General Farming' zone shall not be considered by itself to be sufficient grounds for subdivision.*

In April 2023, the Shire of Merredin (the Shire) received an application for development approval for a transportable dwelling to be located on Lot 49 Robartson Road, Nangeenan. As this was the second dwelling on the Lot, the Shire considered the application in line with provisions of the Scheme and resolved the following at the April Ordinary Council Meeting held 18 April 2023 (CMRef 83137):

*That Council:*

- 1. GRANTS development (planning) approval for a second (grouped) dwelling on Lot 49 (No 549) Robartson Road, Nangeenan as outlined in attachment 12.1A, subject to;*
  - 1. The ongoing use of the dwelling being limited to workers or family members who will be engaged in the operation of the farm for primary production purposes;*
  - 2. Provision of potable water to the dwelling via mains water supply or suitable onsite rainwater tank storage; and*
  - 3. The connection of the dwelling to an onsite effluent disposal system in accordance with requirements of the Health (Miscellaneous Provisions) Act 1911; and*
- 2. ADVISES the applicant that;*
  - a) The granting of planning approval does not constitute a building permit and that an application for a building permit must be submitted to the Shire of Merredin and be approved before any building work can commence on site.*
  - b) An application for an on-site effluent disposal system must be submitted to the Shire of Merredin and be approved before any work on the installation of the effluent disposal system can commence on site.*

Subsequently the Shire received applications and issued the required building and health approvals for the placement of the transportable dwelling onsite and the installation of the septic system.

The transportable dwelling has now been placed onsite and the septic system installed in accordance with Shire approvals.

The current application for subdivision which will result in the creation of the two proposed new Lots, and specifically proposed Lot 1 (4.53ha) which will contain the 2 grouped dwellings is contrary to Clause 4.13 c of the Scheme, which states that:

*In the 'General Farming' zone, the erection of more than one (1) single house per lot will generally not be supported. The local government may, at its discretion, approve the erection of one (1) additional dwelling on a rural lot, provided that;*

*c) the lot has an area of not less than 40 hectares;*

There is a further complication arising from the existing development approval and specifically the condition stipulated therein that:

*The ongoing use of the dwelling being limited to workers or family members who will be engaged in the operation of the farm for primary production purposes*

The creation of the new Lots will allow for the sale of the remaining portion of the original Lot 49 Robartson Road, Nangeenan, proposed Lot 2 (96.68ha) to another party.

### **Council Discretion**

Clause 4.5 of the Scheme specifically allows for discretion by Council, which states as follows:

#### **4.5 VARIATIONS TO SITE AND DEVELOPMENT STANDARDS AND REQUIREMENTS**

*4.5.1 Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for development approval and does not comply with a standard or requirement prescribed under the Scheme, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.*

*4.5.2 In considering an application for development approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the local government is to —*

*a) consult the affected parties by following one or more of the provisions for advertising uses under clause 64 of the deemed provisions; and*

*b) have regard to any expressed views prior to making its determination to grant the variation.*

*4.5.3 The power conferred by this clause may only be exercised if the local government is satisfied that —*

*a) approval of the proposed development would be appropriate having regard to the criteria set out in clause 67 of the deemed provisions; and*

*b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality*

The property in question is not subject to R Code provisions (except the R2 setback provisions). In this case, the matter being considered by Council is as a result of a subdivision application referral process and is not in response to an application for development approval that has been lodged by an applicant with Council.

Whilst the above Clause of the Scheme does not strictly apply in this case, it does show that Council in principle does possess the ability to vary Scheme requirements with respect to development on a case-by-case basis.

Council prior to responding to the WAPC should be aware of setting precedents that could be used by other proponents with respect to future development.

This concern should be weighed against the potential impacts of Council's decision not to support the application for subdivision on the applicant, the current housing crisis being experienced in the wheatbelt generally, and the Shire's role in trying to arrest the movement of community members away from Merredin to other areas.

With respect to an application for subdivision, the WAPC is the deciding authority and is guided in its decision by Development Control Policy 3.4 – Subdivision of Rural Land.

The Shire's Executive Manager of Development Services (EMDS) has discussed this matter with the Director of the Regional South Planning Team as well as the Case Officer, who has provided the following response:

*Thank you for your time this morning. Following on from our conversation, I have discussed further with the team and provide the following advice.*

*The general consensus is that the proposal generally meets the provisions of clause 6.6 of DC 3.4 for the creation of homestead lots. Given the location of the second dwelling on the lot, it is evident that the occupants are utilising it to support the existing farming activities that are occurring within the balance lot. The applicant, surveyor Duncan Wilson has also confirmed that the second dwelling is being occupied by persons whom are currently involved in the farming of the balance lot, consistent with the objectives of clause 4.13 of the Shire of Merredin Local Planning Scheme No.6 (Scheme).*

*As a result of the proposed homestead, it is noted that the two existing dwellings will not be located on a lot greater than 40ha however, the purpose of the additional dwelling remains unchanged and therefore in this sense is consistent with the overarching objectives of the General Farming zone, and with the provisions for grouped dwellings under clause 4.13 of the Scheme.*

*It should also be noted that clause 6.6 of DC 3.4 allows the WAPC (as one-off applications) to consider the creation of multiple homestead lots where there are a number of existing approved dwellings on a rural lot. As the two existing dwellings are to be located within the proposed homestead lot, this will reduce fragmentation of rural land and result in a better planning outcome creating one additional homestead lot, instead of two. Homestead lots can only be created once at a specific location, and as such the creation of further homestead lots, at this location in the future will not be supported.*

*As this is a somewhat unique situation it is unlikely that precedent will be established. However, as grouped dwellings are discretionary land uses, the Shire has the ability to scrutinize future applications for grouped dwellings more closely and apply appropriate conditions where necessary.*

### **Bush Fire Management**

The DFES website which identifies bush fire prone areas reveals that the proposed Lot 1 which contains all the structures is not located within a bush fire prone area, with a small portion of proposed Lot 2, currently vacant and used for cropping purposes falling within the bushfire prone area.

### **Road Access**

Lot 49 Robartson Road, Nangeenan, currently has road access from Robartson Road. Following the proposed subdivision, both Lots 1 and 2 will have potential road access from Robartson Road.

That Council ADVISES the Western Australian Planning Commission (WAPC) that it has no objection to the proposed subdivision of Lot 49 Robartson Road, Nangeenan (WAPC Application No: 200671) resulting in the creation of two new Lots, proposed Lot 1 (4.53ha) and proposed Lot 2 (96.68ha) Robartson Road, Nangeenan, as identified in Attachment 12.2A, subject to;

1. the proposed boundaries not encroaching upon any existing structures or onsite effluent disposal facilities; and
2. all new Lots being connected to a constructed road via crossovers to the satisfaction of the Shire of Merredin.

**Application No: 200671 - Lot 49 Robartson Rd, Nangeenan**

The Western Australian Planning Commission has received an application for planning approval as detailed below. Plans and documentation relating to the proposal are attached. The Commission intends to determine this application within 90 days from the date of lodgement.

Please provide any information, comment or recommended conditions pertinent to this application by 30 September 2024 being 42 days from the date of this letter. The Commission will not determine the application until the expiry of this time unless all responses have been received from referral agencies. If your response cannot be provided within that period, please provide an interim reply advising of the reasons for the delay and the date by which a completed response will be made or if you have no comments to offer.

Referral agencies are to use the Model Subdivision Conditions Schedule (1 January 2024) in providing a recommendation to the Commission. Non-standard conditions are discouraged, however, if a non-standard condition is recommended additional information will need to be provided to justify the condition. The condition will need to be assessed for consistency against the validity test for conditions. A copy of the Model Subdivision Conditions Schedule can be accessed: <http://www.dplh.wa.gov.au>

Please send responses via Planning Online Portal here:

OFFICIAL

Hi Peter,

Thank you for your time this morning. Following on from our conversation, I have discussed further with the team and provide the following advice.

The general consensus is that the proposal generally meets the provisions of clause 6.6 of DC 3.4 for the creation of homestead lots. Given the location of the second dwelling on the lot, it is evident that the occupants are utilising it to support the existing farming activities that are occurring within the balance lot. The applicant, surveyor Duncan Wilson has also confirmed that the second dwelling is being occupied by persons whom are currently involved in the farming of the balance lot, consistent with the objectives of clause 4.13 of the Shire of Merredin Local Planning Scheme No.6 (Scheme).

As a result of the proposed homestead, it is noted that the two existing dwellings will not be located on a lot greater than 40ha however, the purpose of the additional dwelling remains unchanged and therefore in this sense is consistent with the overarching objectives of the General Farming zone, and with the provisions for grouped dwellings under clause 4.13 of the Scheme.

It should also be noted that clause 6.6 of DC 3.4 allows the WAPC (as one-off applications) to consider the creation of multiple homestead lots where there are a number of existing approved dwellings on a rural lot. As the two existing dwellings are to be located within the proposed homestead lot, this will reduce fragmentation of rural land and result in a better planning outcome creating one additional homestead lot, instead of two. Homestead lots can only be created once at a specific location, and as such the creation of further homestead lots, at this location in the future will not be supported.

As this is a somewhat unique situation it is unlikely that precedent will be established. However, as grouped dwellings are discretionary land uses, the Shire has the ability to scrutinize future applications for grouped dwellings more closely and apply appropriate conditions where necessary.

I true the above assists. Please contact me should you wish to discuss further.

Kind regards,  
Rowena

### 13. Officer's Reports – Engineering Services

#### 13.1 Date Palm Removal

*Cr Billing declared a Proximity Interest in this Item and left the Chambers at 4:16pm.*

Attachments:	Attachment 13.1A – Location Map

#### Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider the removal of the date palm located on the southern side of Barrack Street, Merredin (opposite IGA) listed on the current Shire of Merredin Municipal Heritage Inventory.

#### Background

The current Shire of Merredin Municipal Heritage Inventory lists a number of trees located within the Merredin town site. This includes several date palms located on Barrack and Mitchell Streets (LGA Reference Number 78/36).

Palm trees were commonly used in the Australian landscape to contrast with indigenous flora and signify a focus of activity such as a farmhouse or public park. The date palms located on Barrack and Mitchell Streets have therefore been deemed to have social and historical significance. A date palm located in this area has grown into power lines causing arcing and a small fire, with the tree subsequently trimmed to minimise the immediate risk.

#### Comment

As the existing date palms located near the current Central Wheatbelt Visitor Centre (CWVC) are listed within the Shire's Municipal Heritage Inventory, their protection is encouraged through the Shire's current Town Planning Scheme. However, it is within Council's power to allow the removal of any or all of the trees should it be deemed the best interest of the community.

The date palm located opposite the IGA supermarket is located adjacent to power lines and has been trimmed to ensure the fronds do not impact on the transmission lines. Prior to trimming, this tree had impacted on the power lines leading to a small fire caused by electrical arcing. Concerns have been raised in relation to the severity of the trimming works, and the continued risk it presents when the fronds again grow to make contact with power lines, presenting a danger to the public.

The date palm will require further works to maintain the safe, uninterrupted operation of the power network. To ensure that power utility services are uninterrupted, and to ensure that the tree does not become a danger to the public, removal of the tree is sought.

To expedite any necessary works to maintain public safety and infrastructure, authorisation to remove the tree from the municipal heritage inventory and lop the tree is sought. Prior to its removal, the date palm would be photographically documented which is in line with the recommendations of the Municipal Inventory.

It should be noted that the date palms on Barrack Street are not listed on the State Register of Heritage Places and have not been included in the new Draft Shire of Merredin Local Heritage Survey 2022, which was adopted by Council in draft pending consultation, at the June 2022 Ordinary Council Meeting CMRef 82928. Additionally, as the date palm is not native, a clearing permit is not required the removal.

The Administration recommends that Council authorise the photographic documentation and removal of the identified date palm located within Barrack Street, identified with Attachment 13.1A – Location Map.

#### Policy Implications

Nil

#### Statutory Implications

Nil. As the date palm is not listed on the State Register of Heritage Places and their removal does not require a clearing permit under the *Environmental Protection Act 1986*.

#### Strategic Implications

##### Ø Strategic Community Plan

Theme:	5. Places and Spaces
Service Area Objective:	5.1 Streetscapes 5.1.1 The Merredin CBD has been significantly upgraded and is well maintained and representative of the regional status that it holds
Priorities and Strategies for Change:	Nil

##### Ø Corporate Business Plan

Objectives	5.1 Streetscapes

5.1.1 The Merredin CBD has been significantly upgraded and is well maintained and representative of the regional status that it holds

#### Sustainability Implications

Ø Strategic Resource Plan

Nil

#### Risk Implications

Items listed in the Municipal Heritage Inventory are subject to Council review. If endorsed by Council the removal of one date palm does not present any compliance risks.

There is a reputational risk associated with this item as its growth will continue to affect power lines and present a fire risk. The risk rating is considered to be moderate (8) which is determined by a likelihood of possible (4) and a consequence of minor (2).

This risk will be eliminated by the adoption of the Officer's Recommendation.

#### Financial Implications

The removal of the one date palm will be completed as part of the operational maintenance within the Merredin town centre.

## 14.2 Treatment of Reserve Bank Account Interest

### Purpose of Report

☐

Executive Decision

☒

Legislative Requirement

For Council to consider the treatment of interest received on the Shire of Merredin's (the Shire's) Reserve Bank Account moving forward and a proposed budget amendment related to interest repayments on the Shire's liquidity loan.

### Background

#### Liquidity Loan Interest

In January 2024 an item was brought to Council in relation to the tender for the Apex Park and Town Centre redevelopments. As part of this, funding options were presented and the need for a liquidity loan to be applied for as a contingency measure was discussed. The item stated:

- *Authorisation for the CEO to advertise the intent to take out a Liquidity Loan, and subsequently apply for the loan, as part of, to address forecast cashflow needs.*
- *Amendment of the 2023/23 Annual Budget to allow the interest earned across the Shire's reserves to be used to offset the cost of the interest accrued from the proposed liquidity loan.*

Council resolved (CMRef 83285):

*That Council;*

*10. APPROVES the amendment to the 2023/24 Annual Budget as per the below table:*

Account	Description	Current Budget	Amendment	Revised Budget
---------	-------------	----------------	-----------	----------------

<i>NEW</i>	<i>Liquidity Loan - Interest</i>	<i>\$0</i>	<i>\$80,000</i>	<i>\$80,000</i>
<i>3030245</i>	<i>GEN PUR – Interest Earned – Reserve Funds</i>	<i>-\$110,000</i>	<i>-\$80,000</i>	<i>-\$190,000</i>

As the \$80,000 was not expended in the 2023/24 financial year, due to draw down on the liquidity loan not being required, the funds were rolled into the 2024/25 budget and are currently sitting in GL 2110401 – REC – Liquidity Loan – Interest Mun.

### **General Interest on Reserve Bank Account**

Currently, the calculations for how the monthly account interest is divided amongst the reserve accounts is completed based on the total dollar amount in each reserve. The higher the balance of the reserve, the greater percentage (%) of interest that reserve account attracts. What this means is that accounts with larger balance gain significantly more of the interest each month and grow exponentially bigger than all the other reserve accounts with lower balances.

Reserve figures as at 30 June 2024 are:

- Employee Entitlement = \$385,891.26.
- Apex Park Redevelopment = \$311,600.46 (total will be drawn down on completion of annual financials).
- Information and Communication Technology (ICT) = \$268,809.50.
- Declared Disaster = \$257,404.98.
- Cummings Street Units = \$48,035.86 (up to \$7k to be drawn down for repairs to units – remainder will be transferred to Dept of Communities).
- Recreation Development = \$948,352.06.
- Waste Management = \$389,948.95.
- Unspent Grants = \$383,659.50.
- Road Construction Merredin – Narembreen Rd = \$811,151.72.
- Plant Replacement = \$556,813.48.
- Building Reserve = \$1,078,682.14.
- Land and Development = \$1,638,173.29.

It should be noted that some 2023/24 reserve transfers have yet to be completed. These will be done in the coming month as part of the completion of the annuals once grant income and expenditure has been finalised.

Currently the Shire receives around \$20,000 in interest on the reserve account per month. In July 2024 this was divided across the accounts as per the current arrangement and saw funds shared out as per the below:

- Employee Entitlement = \$1,189.39.
- Apex Park Redevelopment = \$960.41.
- Information and Communication Technology (ICT) = \$828.52.
- Declared Disaster = \$793.37.

- Cummings Street Units = \$148.06.
- Recreation Development = \$2,923.00.
- Waste Management = \$1,202.01.
- Unspent Grants = \$1,182.51.
- Road Construction Merredin – Narembreen Rd = \$2,500.13.
- Plant Replacement = \$1,716.21.
- Building Reserve = \$3,324.71.
- Land and Development = \$5,049.16.

The actual interest received for July 2024 and August 2024 was higher than the budgeted figure and revised budgets listed in the proposed resolution have taken these actual figures into account for the reserve accounts that will not receive interest from September 2024.

Within the next 12 to 18 months there are three reserves that the Shire envisage drawing funds down from. These are:

- Information and Communication Technology (ICT) Reserve – for a new whole of organisation Enterprise Resource Planning (ERP) system (IT system).
- Recreation Development Reserve – for resurfacing and other required actions at the MRCLC.
- Building Reserve – For major maintenance and capital works required on Shire building assets.

It is likely that the replacement of the Shires ERP will cost between \$500,000 and \$750,000 and will need to occur as soon as possible. The current system is receiving less support and causing a number of issues for the organisation. There is currently only \$268,809.50 in this reserve – leaving a significant shortfall to be found to allow the project to progress.

### Liquidity Loan Interest

As the majority of the Apex Park and Town Centre works have now been completed and invoiced, it is the belief of the Administration that the liquidity loan will not need to be drawn down, and therefore no interest repayments will be required to be made. This means that the \$80,000 allocated at 'GL 2110401 – REC – Liquidity Loan – Interest Mun' is no longer required and the funds can be reallocated back to the reserve accounts.

Options for Transfer of Funds:

1. Return to all reserve accounts on the same basis split as is currently practiced, based on the balance of each reserve.
2. Direct the funds into the reserve accounts that will be used in the coming periods. These would be the ICT, Building and Recreation Reserves. This could be done with a 1/3, 1/3, 1/3 approach.
3. Direct the funds into the ICT Reserve in preparation for the replacement of the Shire's ERP.
4. Direct 50% of the funds to the ICT Reserve and 25% to each of the Building and Recreation Reserves.

The Administration preference is Option 3 - that the total of the \$80,000 no longer required to make interest payments be moved to the ICT Reserve in readiness for the transition of the Shire's ERP system.

### General Interest on Reserve Bank Account

As described in the background, currently the reserve accounts with higher balances attract larger portions of the monthly interest received. A number of these accounts are not planned to be utilised in the immediate future.

Options Moving Forward:

1. Continue as is with interest split based on balances of each reserve.
2. Direct the interest received into the reserve accounts that will be used in the coming periods. These would be the ICT, Building and Recreation Reserves. This could be done with a 1/3, 1/3, 1/3 approach.
3. Direct all the interest into the ICT Reserve in preparation for the replacement of the Shire's ERP.
4. Direct 50% of the interest to the ICT reserve and 25% to each of the building and recreation reserves.

The Administration recommend that either Option 3 or 4 would be preferable.

It should be noted that interest allocated to the Cummings Street Units Reserve will need to stay as budgeted until settlement occurs to ensure compliance with the current agreement. However, as the balance of this reserve is minimal, little interest will be attracted.

#### Risk Implications

There is a compliance risk associated with this Item as the Shire would be contravening the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* if this Item was not presented to Council. The risk rating is considered to be low (4), which is determined by a likelihood of unlikely (2) and a consequence of minor (2). This risk will be eliminated by the adoption of the Officer's Recommendation.

#### Financial Implications

#### Liquidity Loan Interest

As described above, the \$80,000 is no longer required to pay interest expenses on the liquidity loan, due to the loan not being drawn down. This money was originally sourced by quarantining interest funds from the reserve account over a period of months at the start of 2024 and therefore should be returned to the reserve bank account if not required for the purpose that was put forward in the Council resolution.

#### General Interest on Reserve Bank Account

As there is no expense associated with this portion of the Item, there is no financial implication on the Shire. However, as the allocation of interest funds is proposed to be different to that presented in the 2024/25 Annual Budget, the change should be facilitated by a Council resolution.

### 14.3 Policy 4.7 Use of Shire and DFES fire appliances

Attachments:	Attachment 14.3A - Policy 4.7 – Use of Shire and DFES fire appliances Attachment 14.3B - DFES SOP 3.3.1 Respond Under Emergency Conditions

#### Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider the adoption of a policy to set minimum standard and expectations in relation to Shire of Merredin (the Shire) fire appliances which may not previously have been explicitly stated.

#### Background

It has been identified that the Shire does not have a policy in relation to expectations for operation and maintenance of Department of Fire & Emergency Services (DFES) supplied appliances allocated to Shire Bush Fire Brigades.

#### Comment

The purpose of Policy 4.7 is to provide clear guidelines for the use of Shire Fire Appliances by Bush Fire Brigade volunteers. DFES terms a vehicle being used for firefighting purposes as an appliance.

This Policy aims to rectify issues that have been identified during the recent annual service of the fire appliances. It was identified that not all of the appliances were being maintained to an appropriate standard. One (1) appliance required significant repairs to bring it back up to an operational standard, including the replacement of a number of essential firefighting items which had been removed from that appliance. The Shire has never explicitly set out its

expectations regarding the care, maintenance and use of firefighting appliances by the brigades.

There have also been instances where Shire appliances have been used or taken outside of the district by Bush Fire Volunteers without the knowledge of or authorisation of the Chief Bush Fire Control Officer, the Emergency Services Officer or the Chief Executive Officer.

### Policy Implications

Proposed new Policy 4.7 – Use of Shire and DFES fire appliances as shown in Attachment 14.3A.

### Statutory Implications

As outlined in the *Local Government Act 1995* and *Local Government (Functions and General Regulations 1996)*. The *Bush Fires Act 1954* designates that a local government may establish a bush fire brigade as part of its organisation and equip each brigade with appliances, equipment and apparatus. Although supplied by DFES under the Local Government Grant Scheme, the fire appliances are vehicles registered to and owned by the Shire.

### Strategic Implications

#### Ø Strategic Community Plan

### Risk Implications

There is a compliance risk associated with this Item, if this Policy is not adopted. The risk rating is considered to be moderate (8) which is determined by a likelihood of likely (4) and a consequence of minor (2).

This risk will be eliminated by the adoption of the Officer's Recommendation. It has been proposed to make it clearer and more comprehensive to Bush Fire Brigade members.

#### Financial Implications

This Policy does not have any financial implications associated with it, though if it is not adopted by Council there is a financial risk. The Local Government Grant Scheme allocates funding from the State to Local Government for bush fire expenses. The Bush Fire Brigades may not understand the minimum standards expected by Council on the use of DFES appliances and therefore can impose financial implications to Council if the appliances are not maintained or items require replacement/repair which may not be recoverable via the scheme.

## 4.7 Use of Shire and DFES Fire Appliances

### 1. POLICY PURPOSE

To provide guidelines and conditions for the use of Shire and Department of Fire & Emergency (DFES) fire appliances by volunteers.

### 2. POLICY SCOPE

The policy applies to volunteer bush firefighters registered with a Shire of Merredin Bush Fire Brigade.

### 3. LEGISLATIVE REQUIREMENTS

*Bush Fires Act 1954*

### 4. POLICY STATEMENT

#### 4.1 Appliance Storage

- Brigades that have a brigade station or shed are to store brigade appliances inside the station/shed.
- Brigades that do not have a brigade station or shed are permitted to securely store the brigade appliance at the property of the brigade Captain, or another registered brigade volunteer nominated by the Captain, subject to the approval of the Chief Bush Fire Control Officer or CEO.
- Appliance keys are to be stored outside the vehicle in a lock box.
- Appliances are to be easily and freely accessible to all brigade members, irrespective of whether they are stored on a brigade member's private property.

#### 4.2 Usage

- The appliance should be kept "incident-ready" (clean, fully equipped and in good repair) at all times.
- Volunteers may not use the appliances, or any tools or equipment contained therein, for private purposes. Tools and equipment may not be removed from the appliance unless required for use at an incident, for training purposes, or to carry out servicing, care or maintenance procedures on the equipment.
- Appliances may only be driven or used by a registered member of a DFES brigade, group or unit, or personnel employed by DFES or the Shire of Merredin.
- Appliances may be driven for the following purposes:
  - In response to a request via DFES Communications Centre (ComCen);
  - In response to an incident reported or encountered where DFES involvement is appropriate, and the brigade's response has been recorded with DFES ComCen;
  - To carry out authorised training activities;
  - To carry out authorised hazard mitigation activities;
  - To attend or participate in a community activity or event, subject to the approval of the Chief Bush Fire Control Officer or Chief Executive Officer;
  - To facilitate servicing or repairs to the appliance or to the firefighting equipment; or

- Other purposes as approved by the Chief Bush Fire Control Officer or Chief Executive Officer.
- Personnel driving or operating fire appliances are expected to adhere to DFES **SOP 3.3.1 Respond Under Emergency Conditions**.
- Appliances are not to be taken outside of the Shire of Merredin municipal boundary without the prior approval of the Chief Bush Fire Control Officer or Chief Executive Officer. Requests relating to attendance at an incident will not unreasonably be withheld but requests must be initiated by DFES ComCen or the Officer in Charge (OIC) of the relevant incident.

#### 4.3 Servicing, Maintenance, Repairs and Replacement

- The Emergency Services Officer will arrange for appliances to be serviced annually.
- Any tools or equipment that are damaged or misplaced at an incident are to be reported to the Emergency Services Officer, who will organise for their replacement.
- Any damage sustained to the vehicle must be reported to the Emergency Services Officer, who will arrange for any necessary repairs.
- Truck wash and other supplies required to maintain the condition of appliances can be sourced through the Emergency Services Officer and funded by the Local Government Grants Scheme.
- If there is unreasonable damage or loss sustained to tools, equipment or the appliance in contravention of this policy, the volunteer or driver responsible may be required to pay the cost of associated repairs or replacement, at the discretion of the Chief Executive Officer.

#### 5. KEY POLICY DEFINITIONS

**Appliance:** A vehicle whose primary function is for emergency response purposes. In the context of this policy “appliance” and “brigade appliance” may be used interchangeably and refers specifically to firefighting vehicles funded by DFES and allocated to a Shire of Merredin bushfire brigade. It does not refer to privately owned farm response units.

**Chief Bush Fire Control Officer:** That person appointed by the Shire of Merredin to perform that role, or the person acting in that position as authorised.

**Emergency Services Officer:** That person appointed by the Shire of Merredin to perform that role, or the person acting in that position as authorised.

**Officer in Charge:** The officer for the time being in command of a firefighting crew for a given incident.

**Volunteer Firefighter:** Any person not employed as a paid firefighter, who is a registered fire service volunteer with the Department of Fire & Emergency Services who is contributing to firefighting operations on an active fireground.

#### 6. ROLES AND RESPONSIBILITIES

The custodian of this Policy is the Executive Manager Strategy and Community.

#### 7. MONITOR AND REVIEW

This policy will be reviewed by the Shire’s Executive Manager Strategy and Community and Emergency Services Officer every two years.

## Standard Operating Procedure 3.3.1 Respond Under Emergency Conditions

### References

Road Traffic Act 1974  
 Road Traffic Code 2000

### Definitions

**Emergency vehicle:** A vehicle of a fire brigade on official duty in consequence of a fire or an alarm of fire or of an emergency or rescue operation where human life is reasonably considered to be in danger, as defined in the *Road Traffic Code 2000* (RTC). This includes vehicles operated by an SES or VFES Unit under the Fire and Emergency Services Act.

### Introduction

Emergency vehicles are used to respond to an urgent situation. If a vehicle is approved as an emergency vehicle (refer to SAP 4.1.B – Emergency Vehicle Status Applications), and the driver is trained to the required standards, then that person is exempt from certain road laws within the RTC when responding to an emergency.

#### [SAP 4.1.B – Emergency Vehicle Status Applications](#)

The *Road Traffic Act 1974* (RTA) and RTC provide drivers of emergency vehicles, responding under emergency conditions with a defence (exemption) against certain driving offences. Whilst the RTA and RTC may provide 'lawful authority', DFES places additional controls (Departmental Authority) on drivers when responding under emergency conditions.

[Annex A](#) provides excerpts from legislation which relate directly to drivers of emergency vehicles.

Where Local Governments do not have a Policy for responding under emergency conditions, DFES recommends that Bush Fire Brigades adopt these procedures.

### 1. Qualification Requirements

Drivers of emergency vehicles responding under emergency conditions (red and/or blue emergency beacons and/or sirens) must:

- hold a current driver's license indicating qualification to drive the equivalent class of vehicle;
- have undertaken a DFES approved driving course; and
- have successfully completed the relevant driver/operator assessment for the particular vehicle, if applicable.

## Procedures

### 2. Departmental Authority to Respond Under Emergency Conditions

Section 61B of the RTA and 281 of the RTC defines the legal requirements and associated exceptions to drive under emergency conditions. DFES places additional conditions on these. DFES personnel are authorised to respond under emergency conditions in the following circumstances;

- request for response has come via DFES Communications Centre (ComCen); or
- an incident is reported/encountered where DFES involvement is appropriate regardless of Hazard Management Agency responsibilities;

IN ADDITION, the incident is of a nature that;

- it is reasonable to assume human life is likely to be in danger; or
- requires an urgent response.

The officer in charge (OIC)/crew leader (CL) of the appliance is to decide if a response under emergency conditions, based on the previous criteria, and any other factors, is appropriate. When deciding if a response under emergency conditions is appropriate the OIC/CL should consider (but not limited to);

- Information from ComCen or Incident Controller
- Available (or lack of) incident intelligence
- Potential for incident escalation/complexity
- Role the appliance/crew/resource will contribute to the incident, and the urgency for the appliance/crew/resource
- Phase of the incident (escalation, consolidation, recovery)

The OIC/CL shall re-evaluate all factors as information becomes available and adjust the requirement to respond under emergency conditions accordingly.

**NOTE:** Personnel must not drive under emergency conditions for any reason unless Departmental Authority is met. Where authority has not been met, personnel may face disciplinary proceedings. The driver **must** take care when responding to an incident under emergency conditions to ensure the safety of other road users and occupants of the vehicle. No risk is justified if it is likely to jeopardise the safe arrival of vehicle and crews at an incident or the safety of others within the community.

The 1<sup>st</sup> arriving OIC/CL/Incident Controller shall advise if further appliances are to respond under emergency conditions. This must be continually re-evaluated.

### 3. DFES Emergency Driving Standards

The following standards apply to all DFES drivers when driving under emergency conditions:

<b>Blood Alcohol Concentration (BAC)</b>	All DFES personnel must have a BAC of 0.00% when driving under emergency conditions. Where this standard is unachievable, personnel may respond to an incident with a BAC of less than 0.05% and drive normal road conditions, where the class of vehicle allows drivers to have a BAC of less than 0.05%. <a href="#">Alcohol and Other Drugs Management Policy</a>
--	---

<b>Private Vehicles</b>	Under no circumstances is a private vehicle (that is not a recognised emergency vehicle) permitted to be driven under emergency conditions.
<b>Towing Trailers</b>	Under no circumstances shall a trailer be towed at a speed greater than 100km/h.
<b>Provisional (P plate) Driver's Licence Holders</b>	Under no circumstances are P plate drivers to drive under emergency conditions.
<b>OIC/CL Driving Emergency Conditions</b>	The OIC/CL should refrain from driving under emergency conditions when a suitably qualified alternative driver is available. This enables the OIC/CL to oversee a driver's actions.
<b>Railway Crossings</b>	Under no circumstance shall drivers proceed through flashing lights, stop signs, gates, booms or barriers, or past a person controlling railway level crossings.
<b>Restrictions on traffic in pedestrian mall</b>	Drivers shall not drive through a pedestrian or shopping mall, unless proceeding to an incident within the mall, or there is no other way to access the incident. Drivers shall not drive at a speed excessive to the conditions and volume of pedestrian traffic.
<b>Road Works</b>	Drivers are not to exceed posted speed limits through roadworks. In addition, drivers must make every endeavour to comply with the direction given by authorised personnel where: <ul style="list-style-type: none"> <li>a) a portion of the road is subjected to work being done, over or under it; or</li> <li>b) a survey is being conducted at any point on a road, by a competent authority.</li> </ul>
<b>One Way Streets</b>	Drivers are to avoid proceeding against the traffic in a one-way street unless the incident location cannot be otherwise approached without undue delay.

#### 4. Lights and Sirens

Drivers responding under emergency conditions are to display emergency beacons and sirens as follows:

<b>CIRCUMSTANCE</b>	<b>BEACONS/SIRENS</b>
<b>Driving to an Emergency</b>	Both emergency beacons and sirens.  Where there is light or non-existent traffic, beacons only are acceptable at the discretion of the OIC/CL.  <b>Note.</b> During long-range deployments sirens are to be engaged when traffic is encountered.
<b>Final Approach to an Incident</b>	It is accepted practice to turn sirens off and make final approach to an incident displaying emergency beacons only.
<b>Parked at an Incident</b>	Emergency beacons only.
<b>Operating on a Fire ground</b>	Emergency beacons only.

Consideration must be given to pedestrians, residents and other road users when using lights and sirens. This includes air horns, where limited use is the preferred option.

## 5. Speed

Section 61B of the RTA and Regulation 281 of the RTC gives drivers of emergency vehicles certain exemptions when proceeding to an incident if the driver is demonstrating reasonable care<sup>1</sup> and the emergency vehicle is identified by activated emergency beacons and/or sirens.

The OIC/CL will provide oversight of their driver's decision-making regarding speed; however, the driver is ultimately responsible for her/his actions. DFES places additional controls for driving under emergency conditions over and above the defence provided by the RTA (Section 61B) and RTC (Regulation 281), as follows:

<b>Standard</b>	Drivers of emergency vehicles are not to exceed the posted speed limit by more than 20km/h when proceeding to an incident under emergency conditions.
<b>Exceptions</b>	<p>However, where it is reasonable to assume that human life is likely to be in danger and the driver demonstrates reasonable care, the driver may exceed the posted speed limit by more than 20km/h in the following circumstances:</p> <ul style="list-style-type: none"> <li>the driver is not the OIC*; and</li> <li>the driver obtains approval from the OIC*; and</li> <li>the OIC* has completed a risk assessment prior to providing approval; and</li> <li>the OIC* continually re-evaluates the conditions following approval.</li> </ul> <p>* Drivers of vehicles which do not have an OIC present are not permitted to exceed the posted speed limit by more than 20km/h. The OIC must be a Station Officer or above (career) or a brigade/unit operational officer (volunteer).</p>
<b>Exclusions</b>	<p><b>DFES drivers must not</b> exceed the posted speed limit:</p> <ul style="list-style-type: none"> <li>When operating on private property</li> <li>Where directed by a member of the Western Australia Police Force</li> <li>Where it is not safe to do so e.g. school zones and road works</li> </ul> <p>While Section 61B provides a defence, subject to certain conditions, for contravening Section 60A (Reckless Speed), <b>it is a DFES requirement that DFES drivers must not</b> contravene Section 60A of the Road Traffic Act, which states;</p> <ol style="list-style-type: none"> <li>1) A person commits an offence if the person drives a motor vehicle at a speed of 155 km/h or more on any other length of road.</li> <li>2) A person commits an offence if the person drives a motor vehicle at 45 km/h or more above the speed limit – <ol style="list-style-type: none"> <li>a) In a confiscation zone; or</li> <li>b) On any other length of road.</li> </ol> </li> </ol> <p><b>The RTA does not provide ANY defence (exception) for drivers with regards to S61 RTA Dangerous Driving or S62 RTA Careless Driving.</b></p>

## 6. Moving Through Controlled Intersections

Intersections controlled by traffic lights and signage pose a greater hazard to emergency responders as members of the public moving in accordance with traffic signals may be inattentive to peripheral

<sup>1</sup> Reasonable care is the degree of caution and concern for the safety himself/herself and others an ordinarily prudent and rational person would use in the circumstances. It is a subjective test to determine if a person is negligent, meaning he/she did not exercise reasonable care.

The People's Law Dictionary by Gerald and Kathleen Hill.

threats. When moving through controlled intersections contrary to the flow of traffic, drivers are to undertake the following:

- Approach controlled intersections with activated emergency beacons **and** sirens sounding.
- Approach controlled intersections at a speed which will enable you to bring the vehicle to a complete stop if necessary prior to entering the intersecting carriageway. The driver shall not continue their course unless they are satisfied that it is safe to do so.
- When travelling in convoy, individually slow and check safety before proceeding as above.
- Air horns (where fitted) may be used to supplement emergency beacons and sirens as required to ensure other road users are aware of the vehicle and intention to proceed. The driver should use discretion when using the air horn. Air horns are to be used sparingly when responding to a DBA where there has not been confirmation of a fire.
- Drivers must never force road users through controlled intersections.

## **7. Contra Travel**

Travel against the flow of traffic poses increased risks to responders and other road users. This is primarily based on public vehicles not expecting a vehicle driving contra flow.

Where the OIC/CL has considered all alternate routes, and deemed that the most effective route of travel is against the flow of traffic, the procedure to follow is:

- The driver and OIC/CL must agree in audible conversation that this is the most effective route;
- All vehicles must proceed with activated emergency beacons and sirens sounding;
- The driver must not proceed unless they deem road conditions are safe to do so;
  - o taking extreme care
  - o at a speed that enables immediate stopping when required
  - o judicious use of air horns; and
  - o ensuring wherever possible, by their actions they do not force other road users to contravene the Road Traffic Code.
- The risk assessment that supports the decision to proceed contra flow has considered:
  - o Life involvement
  - o Classification of emergency
  - o Emergency information available
  - o Weather conditions
  - o Road surface conditions
  - o Traffic conditions
  - o Driver experience; and
  - o Visibility

### **7.1 Contra Travel on FREEWAYS**

Where the OIC/CL has considered all alternate routes and deemed that the most effective route of travel is against the flow of traffic on the Freeway, in addition to the procedure for general contra flow (above), the procedure to follow is:

- Contact ComCen to notify of intentions to travel contra flow.

ComCen may have access to the Main Roads camera feeds for Perth freeways and may be able to provide clarification of incident details and advice.

ComCen is to contact Main Roads, Road Network Operation Centre to provide detail in relation to emergency contra-travel.

## **8. Consequences**

Drivers may be liable for driving an emergency vehicle under emergency conditions without following DFES Policy or procedures, or for gross errors of judgement if deemed not to be demonstrating reasonable care. Annex A – Legislation Excerpt from RTA Section 60, 60A, 61 & 62 defines “Reckless, Dangerous and Careless Driving”.

Drivers who are in breach of the above procedures may be subject to disciplinary proceedings as detailed in DFES Conduct and Discipline Policy.

A Legislation Excerpts

## ANNEX A – Legislation Excerpts

### Road Traffic Act 1974

Section 60	<b>Driving in reckless manner</b> (1) For the purposes of this section, a motor vehicle is driven in a reckless manner if it is driven in a manner (which expression includes speed) that is inherently dangerous or that is, having regard to all the circumstances of the case, dangerous to the public or to any person.
Section 60A	<b>Driving at reckless speed</b> (1) A person commits an offence if the person drives a motor vehicle at a speed of 155 km/h or more on any other length of road. (2) A person commits an offence if the person drives a motor vehicle at 45 km/h or more above the speed limit – (a) In a confiscation zone; or (b) On any other length of road.
Section 61 (no exemptions)	<b>Dangerous driving</b> (1) Every person who drives a motor vehicle in a manner (which expression includes speed) that is, having regard to all circumstances of the case, dangerous to the public or to any person commits an offence.
Section 61B	<b>Defence for certain officers driving at reckless speed</b> The driver of a motor vehicle is not guilty of an offence under section 60A if – (a) either – (i) the driver is on official duty as a police officer and the driving is substantially in accordance with the Commissioner’s policies and guidelines relating to driving, applicable at the time of the driving, and any direction given under such a policy or guideline; or (ii) the driver is on official duty responding to a fire or fire alarm; or (iii) the driver is on official duty responding to an emergency or rescue operation where it is reasonable to assume that human life is likely to be in danger; or (iv) the motor vehicle is an ambulance and is being used to answer an urgent call or to convey a person to a place for the provision of urgent medical treatment; <b>AND</b> (b) the driver is taking reasonable care; and (c) the vehicle is displaying a blue or red flashing light or sounding an alarm unless, in the circumstances, it is reasonable for a light not to be displayed or an alarm not to be sounded.
Section 62 (no exemptions)	<b>Careless driving</b> Every person who drives a motor vehicle without due care and attention commits an offence.

### Road Traffic Code 2000

Regulation 281	<b>Exemption for drivers of emergency vehicles (other)</b> A provision of this regulation does not apply to the driver of an emergency vehicle that is not being used for official duties by a police officer if – (a) in the circumstances – (i) the driver is taking reasonable care; and (ii) it is reasonable that the provision should not apply; <b>AND</b> (b) the vehicle is a motor vehicle that is moving and the vehicle is displaying a blue or red flashing light or sounding an alarm.

## 15. Officer's Reports – Administration

### 15.1 Shire of Merredin Christmas / New Year's Opening Hours

<div>Corporate Services</div> <div></div>

Author:	As above
Legislation:	<i>Local Government Act 1995</i> <i>Local Government (Financial Management) Regulations 1996</i>

#### Purpose of Report

Executive Decision

Legislative Requirement

For Council to note the proposed Shire of Merredin (the Shire) Christmas / New Year's opening hours.

#### Background

For a number of years, the majority of the Shire venues have closed during the Christmas / New Year period as it is usually an extremely quiet time with minimal public visitations and phone enquires.

It is also common for many residents of the Shire to travel elsewhere at this time of year, with many other businesses in town also closing.

#### Comment

The Christmas Day public holiday will be observed on Wednesday, 25 December 2024 with the Boxing Day public holiday being observed on Thursday, 26 December 2024, meaning Shire offices and most facilities will be closed on both of these days.

Similarly, the New Year's Day public holiday will be observed on Wednesday, 1 January 2024 meaning Shire offices and most facilities will also be closed on that day.

Council is advised that the Administration intends for Shire venues to close from Monday, 23 December 2024 to Monday 1 January 2023 inclusive. The venues will reopen as usual on

Thursday, 2 January 2025. There will be some exceptions to this, such as the Landfill and Swimming Pool, with Council to be informed closer to the period.

The opening times for all venues and facilities over the Christmas / New Year period will be extensively advertised and circulated in advance.

As per previous years, on-call arrangements will be put in place prior to the proposed Christmas closure to ensure emergencies can be responded to. Senior staff will be available on mobile phones and emergency contact details will also be distributed where required.

#### Risk Implications

Senior staff will be available via mobile phone during the closure period, and if required for any major emergencies, relevant staff will be contacted. On-call arrangements will be made for essential staff.

There is a reputational risk associated with this Item due to the closure of various Shire facilities reducing services to the community. The risk rating is considered to be low (3), which is determined by a likelihood of possible (3) and a consequence of insignificant (1).

#### Financial Implications

Staff will be required to take time off in lieu, annual leave or accrued rostered days off during the period. These costs are contained within the 2024/25 Annual Budget.

### Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider the 2024/25 Regional Christmas trading hours.

### Background

Local Governments were advised on 11 September 2024, the Department of Mines, Industry Regulation and Safety – Consumer Protection (DMIRS) has extended the opportunity for regional extended trading hours for local businesses over the Christmas/New Year period during 2024.

On 27 August 2024, the Minister for Commerce, approved trading extensions for the Perth metropolitan area over the 2024 Christmas period and for public holidays in 2025.

The package approved by the Minister will enable general retail shops in the Perth metropolitan area to trade from 8am to 6pm on Saturdays, Sundays and on public holidays between 7 December 2024 and 29 December 2024, with Christmas Day being the only day of closure, and from 7am to 9pm on weekdays from 14 December 2024 to 24 December 2024.

The Minister has also granted approval for general retail shops in the metropolitan area to trade from 8am to 6pm on the New Year's Day (1 January 2025), Australia Day (27 January 2025), Labour Day (3 March 2025), Easter Monday (21 April 2025), Western Australia Day (2 June 2025) and King's Birthday (29 September 2025) public holidays.

In addition to the decision taken by the Minister in respect to the metropolitan area, the Minister has also agreed to an extended trading package being offered to regional Local Government Authorities, that is based on the standard metropolitan area trading hours.

Acceptance of this proposal will not require any further action on the Shire of Merredin's (the Shire) part.

Should the Shire accept this offer, general retail shops within Merredin will be able to trade from 8am to 6pm on Saturdays, Sundays and public holidays, other than on Christmas day which will be a closed day, between 7 December and 29 December 2024, from 8am to 9pm from Monday 9 December 2024 to Friday 13 December 2024, from 7am to 9pm on weekdays from Monday 16 December to Tuesday 24 December 2024 and from 8am to 6pm on each of the public holidays outlined above. The attached '2024-25 Regional Extended Trading Package' document details the specific times and dates of the extensions.

As is the case with all extended trading variations, the decision to open or not during the additional hours provided will be at the discretion of individual retailers.

Local Government Authorities that choose to accept this package are requested to notify the Department of Mines, Industry Regulation and Safety – Consumer Protection of their decision by no later than Wednesday, 27 September 2024. Acceptance of this offer can be made by return email.

	Comment
--	---------

Extended Trading hours were considered by Council in 2023, were Council resolved the below (CMRef 83237):

*That Council;*

- 1. ADVISE the Department of Mines, Industry Regulation and Safety – Consumer Protection that the Shire of Merredin will not be varying its previously approved standard retail trading hours for the 2023/24 Christmas/New Year period; and*
- 2. NOTES the Shire of Merredin will consult with retailers in the current year to confirm current general trading hours remain suitable for the locality.*

Previously, related decisions have been as follows:

- At the June 2016 Ordinary Council Meeting, Council considered a request to extend the general retail trading hours for Merredin to Monday, Tuesday, Wednesday, Friday and Saturday 7am-8pm, Thursday 7am-9pm, and Sunday and Public Holidays 9am–6pm (CMRef 81794). The request was approved by the Minister for Commerce on 8 December 2016 and was Gazetted shortly thereafter.
- As a result of the new trading hours applicable for all retail outlets in Merredin, it was suggested that no further extension to the hours was required for the 2017/18 Christmas/New Year period, with Council resolving as such at its October 2017 meeting (CMRef 82063).
- This was then decided again at the October 2018 Ordinary Council Meeting to advise the Department of Commerce that the Shire of Merredin will not be varying its previously approved standard retail trading hours for the 2018/19 Christmas/New Year period (CMRef 82274).

In previous discussions with the Department of Commerce, and as the trading hours for Merredin are already quite broad, and it only offers a difference of a few hours, it was suggested that no further extension to the trading hours was required. It should be noted that retail outlets are not permitted to open on Christmas Day.

Therefore, the Officer's Recommendation is the same as that adopted by Council at its September 2023 meeting. As in previous year's, the decision to open or not during the trading hours is entirely at the discretion of the individual retailer.

As there is limited opportunity for consultation with retailers for this, it is suggested that retailers are advised of the trading hours and asked that if there are any issues or feedback on the hours to make the Shire Administration aware.

#### Risk Implications

There is a reputational risk associated with this Item, as it may be perceived that the Shire is restricting commercial trade if it does not support the extended trading hours. The risk rating is considered to be low (1), which is determined by a likelihood of rare (1) and a consequence of insignificant (1). This risk will be eliminated by the adoption of the Officer's Recommendation.
