REF: Application of Amendment

Dear Peter,

As you are aware, we have been working with a Fire Engineer to complete the DFES Application for our build at Lot 900 Mackenzie Crescent. During this process, it was brought to our attention that the water main is not big enough, resulting in us having to install fire water storage tanks.

After discussions with DEFS, they stated two conditions in regards to the tanks and these are outlined below:

- The tanks are to be a certain distance from the furthest point of the building
- In the event of a fire, the Fire Brigade are not allowed to drive past the building to access the tanks

Due to these requirements, we are limited to where we can place the tanks. We have explored various scenarios, however, the only feasible location for the tanks is to put them towards the eastern end of the front of the block, adjacent to the neighboring southern fence (please see attached site plan.)

We are aware that the Merredin Shire has a setback of 7.5 metres from the front fence and the location of the tanks will be within this setback, therefore, we are writing to apply for an amendment so that we can have the tanks in this location to make our build possible. As

previously mentioned, we have been unsuccessful in finding another location for the tanks to satisfy the DEFS requirements.

We hope the Merredin Shire will take this letter into consideration and assist us with this amendment so that we can progress with our build. If you have any further questions in relation to this, please do not hesitate to contact me.

Kind Regards,

A handwritten signature in blue ink, appearing to read 'Josh Herbert', with a stylized flourish at the end.
