Purpose of Report

Executive Decision

Legislative Requirement

For Council to advise the Department of Planning, Lands and Heritage (DPLH) of any objection to the proposed ten (10) year lease with a further 10-year option to renew or granting of freehold title to the Applicants as per Attachment 10.1A for Lot 46 (on Deposited Plan 189461) Hooper Road, Muntadgin, subject to ongoing compliance with the Shire of Merredin Local Planning Scheme No. 6.

Background

The Shire of Merredin (the Shire) has received correspondence from the DPLH advising that the existing 10-year lease and further 10-year option relating to the property located at Lot 46 (on Deposited Plan 189461) Hooper Road, Muntadgin, expired on 31 March 2020.

DPLH is now considering a new 10-year lease with a further 10-year option to renew as well as the possibility of freehold title and has requested comment from the Shire with respect to this proposal.

Comment

The property in question is owned by the State of Western Australia with the existing lease having expired on 31 March 2020.

DPLH is now considering a new 10-year lease with a further 10-year option to renew as well as the possibility of freehold title and requesting comment from the Shire with respect to this proposal.

DPLH correspondence suggests that the proposed new lease or freehold title would be offered to the current lessee and his son, but since the receipt of the DPLH correspondence the Shire has received subsequent advice that the current lessee has since passed away and the lease/freehold title will now be offered to his son for “residential” purposes.

Development (Planning) Considerations

Lot 46 (on Deposited Plan 189461) Hooper Road, Muntadgin is zoned ‘General Farming’ under the Shire of Merredin Local Planning Scheme No.6. (LPS) An inspection of Shire records relating to the property indicates that the existing house on the property received the relevant building approvals from the Shire.

The Shire’s Executive Manager Development Services (EMDS) has spoken with both officers from DPLH as well as the occupier of the premises, and advised them that whilst the existing house can be used for residential purposes, restrictions forming part of the LPS relating to grouped dwellings on “General Farming” zoned land would preclude any additional dwellings being located on the lot in question.

11. Officers' Report – Engineering Services

11.1 Local Roads and Community Infrastructure (LRCI) Program - Phase 4

Purpose of Report

Executive Decision

Legislative Requirement

To recommend Council authorises the formal execution of Local Roads and Community Infrastructure (LRCI) Program Grant Agreement for the Shire of Merredin's (the Shire) Phase 4 funding allocation.

Background

The Australian Government has committed to a fourth Phase of the LRCI Program to boost Australia's economic recovery from COVID-19.

The purpose of the LRCI Program is to support local councils to deliver priority local road and community infrastructure projects across Australia, supporting jobs and the resilience of local economies to help communities bounce back from the COVID-19 pandemic.

The Shire of Merredin has been offered an allocation of \$573,735 ex GST for Phase 4A and \$330,943 ex GST for Phase 4B for a total allocation of \$904,678 ex GST in this round of funding. A grant agreement has been forwarded with an invitation to nominate projects to the Federal Government for approval.

Project construction can commence after 1 July 2023, once project nominations are approved by the Department of Infrastructure, Transport, Regional Development, Communications and the Arts (the Department) with a full works schedule required to be submitted by 31 December 2024. Nominated projects are required to be physically completed by 30 June

2025. Should these timeframes not be met, the Australian Government may withdraw funding.

Under Phase 4, and consistent with previous LRCI funding phases, Eligible Funding Recipients are required to maintain their overall capital spending on roads and community infrastructure, funded by their own revenue, and proof of maintaining capital expenditure may be a requirement for an Eligible Funding Recipient to receive their full Phase 4 funding allocation.

Projects are required to be publicly accessible, and examples provided for nominations are parks, playgrounds, footpaths and roads. It should be noted that LRCI funding is unable to be used for design documentation or project support. It can only be used for capital expenditure. It is unknown if there will be any further funding rounds.

Comment

Phase 4 is broken up into two parts, Part A and Part B, for which the requirements for eligible grant activity have been defined differently. Funding received under Part A can be spent on any eligible local road or community infrastructure projects. Whereas funding received under Part B should be spent on eligible local rural, regional or outer-urban road projects.

It should be noted however, that in exceptional circumstances, Part B funding may be used for Eligible Community Infrastructure Projects at the discretion of the Department.

Phase 4A has been allocated towards the revitalisation of Apex Park in the 2023/24 Annual Budget. However, the Administration is still investigating and scoping potential projects to be nominated for funding as part of Phase 4B.

While the Administration is considering a number of unfunded projects for nomination, the eligibility criteria of the funding limit which projects which can be considered and delivered in the timeframe.

Once the Administration has completed the evaluation it will recommend a suitable project(s) that meet the eligibility criteria as well as addressing the community needs while being able to be delivered within the available timeframe. This recommendation will then be presented to Council for final endorsement before a formal Works Schedule is presented to the Department for approval.

However, to ensure the Shire is able to secure its funding allocation under LRCI Phase 4 it is recommended that Council authorise the execution of the LRCI Program Grant Agreement – Phase 4 between the Federal Government represented by the Department and the Shire.

11.2 Letter of Intent – NRMA EV Charging Station

<h3>Engineering Services</h3> 	
Responsible Officer:	Amer Tawfik, EMES
Author:	Daniel Hay-Hendry, MP
Legislation:	<i>Local Government Act 1995</i> <i>Land Administration Act 1997</i>
File Reference:	Nil
Disclosure of Interest:	Nil
Attachments:	Attachment 11.2A – NRMA Letter of Intent Attachment 11.2B – Shire of Merredin Lease Plan

Purpose of Report

- Executive Decision Legislative Requirement

For Council to consider a request for in principle support towards the installation of an NRMA fast electric vehicle (EV) Charging station adjacent to the Town Centre within Lot 1503 (45) Barrack Street, Merredin, refer to Attachment 11.2A.

Background

In partnership with the Federal Government, NRMA is looking to establish an EV charging network to support EV travel across the country connecting national highways and larger regional communities. The core features of the network include:

- EV fast charges located at least every 150 kilometres on national highways
- Universal access supporting charging for most makes and models of battery EVs.
- Built for the future - sites ideally featuring a 4-bay design with each charge point delivering a minimum of 75kW of charge.
- Delivered in partnership with local communities and businesses
- Connected, reliable and trusted underpinned by the NRMA's integrated services and 24 hour support.

This network is in addition to the State Government EV Highway for which Synergy are currently in the process of installing a similar EV Charging Station.

To support this initiative NRMA is seeking in principle support for a potential DC 'Fast' Charge electric vehicle charging station at LOT 1503 (45) Barrack Street, Merredin (DP 32027 1503) which will be available to the general public for 24/7 use.

This land is owned by the Public Transport Authority (PTA), for which the Shire has a Licence to Occupy agreement. Two agreements are in place for different portions of the Lot, however, the Shire's Licence to Occupy L7467, covers the portion of land that the proposed EV charging station is planned to be installed within (refer to Attachment 11.2B – Shire of Merredin Lease Plan). This is the same portion of land that the Synergy EV Charging Station is located within.

The request for in-principal support is not a commitment from the NRMA to progress the project and installation in Merredin. Instead, it allows further NRMA investigations to be undertaken, including the site design process. NRMA have advised the letter is non-binding and does not create or hold any obligations to either party.

Of note, the proposed chargers will be co-located with the Synergy chargers currently under construction.

	Comment
--	----------------

The in-principal proposal for a charging station is for two 150kW DC 'fast' chargers that will service 4 charging bays.

These bays are to be located opposite the Synergy EV Charging bays adjacent to the Town Centre. If progressed, the addition of the NRMA EV Charging Station would mean that Merredin will have a total of six 'fast' EV charging bays available, two provided by Synergy and four provided by NRMA.

The NRMA have provided the following advice on the intent of the project:

- The proposed NRMA charging station would be supported by the grid through the procurement of energy under a green power contract and supplemented with the use of a 319kW/357kWh battery energy storage system (BESS) to make up for the short fall in grid supply.
- The additional power demand would require the upgrade of the recently installed district substation transformer which will be provided and installed by Western Power, should the project progress.
- NRMA will be responsible for the management of the installation of the EV charging station infrastructure, and all associated costs. NRMA will also be responsible for the ongoing operation and maintenance, which includes the costs associated with power usage. There are no immediate or ongoing costs to Shire.
- To cover the operational costs, EV charging at the charging station will be at the cost of the user (customer). For payment of the charging service, customers will be able to make payment from a credit card or a mobile application on their mobile phone.

The Administration did consider requesting NRMA consider alternative locations to have additional locations with improved access within Merredin for fast EV chargers, however, given the power and site requirements, it is likely that this is the site which is most suitable when the logistics of the project are considered. Additionally, this location is within close proximity to key amenities but sits outside the boundary for the scope of works for the Town Centre revitalisation and therefore will have very limited to no impact on the CBD Redevelopment projects.

To enable NRMA to progress with the engagement of its design consultants, at its own cost and risk, and to undertake any necessary applications to the Distributed Network Service Provider (DNSP), NRMA are seeking the Shire's in principle support.

The Letter of Intent (refer to Attachment 13.1A – NRMA Letter of Intent) only expresses the Shire of Merredin's interest in continuing to work with NRMA allowing for further NRMA investment into the site design process; but does not denote any formal approval for the installation of the proposed EV Charging Station. The letter is non-binding and does not create or hold any obligations on the Shire to the NRMA.

To allow NRMA to develop and operate the proposed EV charging station on the planned site for Merredin, including carrying out the associated power connection works, NRMA would need to enter into a sub-licence agreement with the Shire and seek approval from the Public Transport Authority as the landowner.

The Licenced area would be limited to the space required for the charging bays and the footprint of the plant & equipment only. NRMA are proposing a bay area equivalent to 5 standard car parking spaces with the fifth bay utilised as a transfer bay so to support inclusivity of the use of NRMA's charging facilities.

Should the proposal progress to this stage, the sub-licence would be brought back to Council for formal approval.

As the proposed installation of the NRMA EV charging station will be no cost to the Shire for installation, operation or maintenance, the Administration considers the installation, alongside the soon to be developed Town Centre, as an opportunity which is strategically aligned and should be considered. This project aligns with the sustainability objectives within the Shire's Strategic Community plan, and will also potentially support flow on economic benefits, as travellers may use local businesses while making a stop to charge their vehicle.

As the letter of intent is non-binding, should any further risks or issues be identified during the design process or further considerations arise, these can be addressed at a later stage. This includes any required referrals or consultation with PTA or Synergy.

It should also be noted that Synergy have been informed of the proposal and are supportive, as this would further promote the adoption of EVs and support the existing EV community.

Dear Ms Clack,

NRMA Electric Highways Pty Ltd

Electric Vehicle Charging Infrastructure Scheme – Letter of Intent

The NRMA’s mission is to support the transition to electric vehicles through the electric vehicle charging network across Australia. The NRMA aims to support the transition to electric vehicles by providing Australian’s with access to more fast charging points.

While endeavouring on this mission, the NRMA has reviewed your site at Lot 1503 (45) Barrack Street Merredin, WA specifically DP32027 1503, as a potential site where NRMA electric vehicle charging infrastructure could be built.

In light of the above, we enclose both a site map of the land, as well as a draft licence agreement for your perusal.

This letter is strictly non-binding and does not create or hold any obligations on you to the NRMA. There is no binding agreement between the parties or obligations to perform for either party until a legally binding Licence is executed by the relevant delegated authority of both parties to the contract. This includes there being no obligation to provide land or outlay any funds by Council or for NRMA to acquire land under Licence or outlay its funds in its pursuit of constructing an EV charging station in Merredin.

The intent of this letter and by signing the page you are merely expressing your interest to continue working with NRMA and discussing this opportunity.

Receiving this letter will allow NRMA to progress with the engagement of its design consultants, strictly at its own cost and risk, and the any necessary applications to the Distributed Network Service Provider (DNSP).

While you consider the site map and the draft to licence agreement, we kindly ask that you sign this letter.

If you have any questions, we encourage you to direct them to Alex Courtis on [redacted] or via email to [redacted]. We kindly ask that if you sign this letter, you return a copy to Alex Courtis via the email address above.

Sincerely,

Legislative Requirement

For Council to receive the Statements of Financial Activity and Investment Report for the month of August 2023, and be advised of associated financial matters.

Background

The Statement of Financial Activity, Detailed Statements, Capital Works Progress and Investment Report are attached for Council's information.

Comment

Statement of Financial Activity

Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires the Shire of Merredin (the Shire) to prepare a monthly statement of financial activity for consideration by Council within 2 months after the end of the month of the report. These reports are included at Attachments 12.1A to D inclusive.

Sustainability Implications

Ø Strategic Resource Plan

Compliance with the *Local Government (Administration) Regulations 1996* and to also give Council some direction regarding its management of finance over an extended period of time.

Risk Implications

The Statement of Financial Activity is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer (CEO) has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates.

Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$10,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud.

The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* regulation 5, seek to mitigate the possibility of this occurring.

These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.

Financial Implications

The adoption on the Statements of Financial Activity is retrospective. Accordingly, the financial implications associated with adopting this are nil.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 14 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying Regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

		4,377,140	7,010,387	11,387,527	0			

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between

mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

All debenture repayments were financed by general purpose revenue.

Self supporting loans are financed by repayments from third parties.

The Shire has no unspent debenture funds as at 30th June 2022, nor is it expected to have unspent funds as at 30th June 2023.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to receive the Statements of Financial Activity and Investment Report for the month of September 2023, and be advised of associated financial matters.

Background

The Statement of Financial Activity, Detailed Statements, Capital Works Progress and Investment Report are attached for Council's information.

Comment

Statement of Financial Activity

Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires the Shire of Merredin (the Shire) to prepare a monthly statement of financial activity for consideration by Council within 2 months after the end of the month of the report. These reports are included at Attachments 12.2A to D inclusive.

Budget Amendments

The following budget amendments are recommended:

GL/Job	Description	Current Budget	Variation Amount	Revised Budget	Reason
3030211 Income	GEN PUR – Financial Assistance Grants - Roads	\$0	\$50,775	\$50,775	Extra Financial Assistance Grant Roads funds to be received
4120330 Capital Expenditure	PLANT – Plant & Equipment (Capital)	\$629,900	\$49,000	\$678,900	Purchase of Trimble Survey Equipment
	Muni Surplus/ Deficit	(\$6,674)	\$1,775	(\$4,899)	Difference between funds received and purchase cost used to decrease deficit

The above-mentioned amendments are recommended to enable the purchase of Surveying Equipment that the Engineering Services Directorate will use to complete design and data collection for projects, including Crooks Road and Gabo Ave, and some elements of the Merredin Landfill Site.

Over time, it is anticipated the purchase cost will be recouped by costing the use of the survey equipment to grant funded projects, similar to other plant (e.g. truck, grader) in our fleet.

	Policy Implications
--	----------------------------

Nil

Statutory Implications

As outlined in the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

Strategic Implications

Ø Strategic Community Plan

Theme: 4. Communication and Leadership
Service Area 4.2.2 The Shire is progressive while exercising responsible
Objective: stewardship of its built, natural and financial resources.
Priorities and
Strategies for Change: Nil

Sustainability Implications

Ø Strategic Resource Plan

Compliance with the *Local Government (Administration) Regulations 1996* and to also give Council some direction regarding its management of finance over an extended period of time.

Risk Implications

The Statement of Financial Activity is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer (CEO) has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates.

Materiality reporting thresholds have been established at half the adopted Council levels, which equate to \$10,000 for operating budget line items and \$10,000 for capital items, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud.

The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* regulation 5, seek to mitigate the possibility of this occurring.

These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.

Financial Implications

The adoption on the Statements of Financial Activity is retrospective. Accordingly, the financial implications associated with adopting this are nil.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 14 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying Regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.

Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between

mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

All debenture repayments were financed by general purpose revenue.

Self supporting loans are financed by repayments from third parties.

The Shire has no unspent debenture funds as at 30th June 2022, nor is it expected to have unspent funds as at 30th June 2023.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

12.4 Policy Review – Senior Employees

<h1>Corporate Services</h1> 	
Responsible Officer:	Leah Boehme, EMCS
Author:	As above
Legislation:	<i>Local Government Act 1995</i>
File Reference:	Nil
Disclosure of Interest:	Nil
Attachments:	Attachment 12.4A – Policy 1.2 – Senior Employees – changes accepted. Attachment 12.4B – Policy 1.2 – Senior Employees – track changes.

Purpose of Report

- Executive Decision Legislative Requirement

For Council to consider a revised policy which defines the ‘senior employees’ of the Shire of Merredin (the Shire).

Background

Policy 1.2 currently outlines the five ‘Senior Employees’ as CEO, DCEO, Executive Manager Engineering Services, Executive Manager Development Services and Executive Manager Corporate Services.

With the change of title of the DCEO position to Executive Manager Strategy and Community (EMS&C), it is pertinent that the Policy be updated to reflect this change.

Comment

The Policy has been reviewed with a number of updates occurring. The key changes include:

- Updated to match current Shire template.
- Addition of sections:
 - Policy Purpose.
 - Policy Scope.
 - Legislative Requirements.
 - Policy Statement.
 - Key Policy Definitions.

- Roles and Responsibilities.
- Monitor and Review.
- Change from DCEO to Executive Manager Strategy and Community.

Policy Implications

Policy 1.2 – Senior Employees

Statutory Implications

As outlined in the *Local Government Act 1995*.

Strategic Implications

∅ Strategic Community Plan

Theme: 4. Communication and Leadership.
Service Area 4.2 Decision Making.
Objective: 4.2.3 The Council is well informed in their decision-making, supported by a skilled administration team who are committed to providing timely, strategic information and advice.
Priorities and Strategies for Change: Nil

Sustainability Implications

∅ Strategic Resource Plan

Nil

Risk Implications

If this Policy is not reviewed and the proposed changes adopted, it would be in contradiction to the current employment of the Shire.

Financial Implications

Nil

Voting Requirements

Simple Majority

Absolute Majority

Resolution

Moved: Cr Patroni

Seconded: Cr Crook

83255

That Council ADOPT Policy 1.2 – Senior Employees, as presented in Attachment 12.4A.

Purpose of Report

Executive Decision

Legislative Requirement

To recommend to Council that it endorses the proposed 2024 Council Briefing Session and Ordinary Council Meeting dates as per Attachment 13.1A.

Background

The *Local Government Act 1995* requires a local government, at least once a year, to give local public notice of the dates, times and places at which Ordinary Meetings of Council are held within the next 12 months.

All Committee and Council meetings are held in the Council Chambers at the Shire of Merredin (the Shire) Administration Building at Corner King and Barrack Streets, Merredin.

In accordance with Regulation 12 of the *Local Government (Administration) Regulation's 1996*, an advertisement will be placed in the local community paper. In addition, this advertisement will be placed on the Shire's website and on the Shire's notice boards.

Comment

For the past 2 years the Ordinary Council Meetings have been held on the fourth Tuesday of every month commencing at 4.00pm.

Council also currently holds two agenda briefing sessions a month which are closed to the public. In 2021, these briefing sessions were held on the first Tuesday of the month at 5.30pm, and prior to the Council meeting on the third Tuesday of the month at 2pm. In 2022 and 2023 the first briefing session of the month was held on the second Tuesday each month instead of the first Tuesday. Councillors agreed that holding the first briefing session of the month on the second Tuesday was the preferred option.

Council may wish to revise the day on which the meetings and briefings are held and/or their commencement time.

For the 2024 calendar, the Administration has not taken a strict approach to keeping to the first and third Tuesday, as the experience of 2023, has been that Council would prefer consideration is also given to commitments such as school and public holidays given the amount of meetings and briefings.

Accordingly, in the attached proposal, the Administration have taken into account public holidays and school holidays when scheduling the dates and have tried to work the meetings around these dates.

Where possible the Administration have tried to keep a week between meetings, however this was not possible for the months of April, and November as pushing the meetings back didn't leave a week between the next month's briefing session. The December meetings will also not have a week between them due to school holidays, however the date for the Ordinary Council Meeting may change closer to the event, depending on the Office of the Auditor General's deadlines for the acceptance of the Annual Report and Annual Financials.

Policy Implications

Statutory Implications

Section 5.25 (1) (g) of the *Local Government Act 1995* provides for giving of public notices of the date and agenda for Council or Committee meetings.

Regulation 12(1) of the *Local Government (Administration) Regulation's 1996* provides: -

"(1) At least once each year a local government is to give local public notice of the dates on which a time and place at which-

(a) the ordinary council meetings; and

(b) the committee meetings that are required under the Act to be open to members of the public or that are proposed to be open to the members of the public,

are to be held in the next 12 months."

Purpose of Report

Executive Decision

Legislative Requirement

To recommend to Council that it endorses the Elected Member training timetable for after the 2023 elections.

Background

Local government elections are held every two years, and it is a requirement that new elected members are inducted once elected.

The Induction Program includes sessions that provide information essential to Elected Members to perform the legislated activities of an Elected Member. It assists Elected Members to become acquainted with their role and responsibilities and helps build a cohesive Council Team.

An Induction Program assists Elected Members with their representative role by informing them on what, why, when and how the local government services and activities operate.

Comment

The Administration has been planning for the Induction Program for the new Elected Members, and has planned to incorporate a refresh for training for the existing Council, not only in their current duties but also changes related to the reform. This Induction Program will be on top of the mandatory training elected members must complete once elected.

The Induction Program has been set out as per Attachment 13.2A, however if during the Induction Program, Elected Members identify items which they would like further information on the Administration is able to arrange for this.

Consultants have been engaged to deliver sections of the Induction Program, each consultant has been in the industry for many years and their knowledge will be very beneficial for new and existing Elected Members.
