CEACA Members noted the unqualified audit report from the Auditor, which had been circulated to all members prior to the meeting. There were no queries relating to the audit report.

8. Chairperson's Report

The Chairperson presented his report.

Chairpersons Report

It has been a strong last twelve months for CEACA, which sees our organisation in a sound financial position, with major defects completed on our properties, near one hundred percent occupancy rates and our residents being generally very happy in their homes.

The recent gaining of our registered Community Housing Provider status is a really important step for us, as it now puts us in a much stronger position to gain State and Federal funding, both now and on future occasions. It has also greatly improved our governance structures, which is very important as we move forward and grow.

Our Executive Officer, Richard Marshall and I recently met with the State Government to update them on CEACA's operations and to formally seek funding for a further 54 units. We also discussed the importance of our Allocations Matrix for selecting our residents and we are confident that they will allow flexibility, should we receive our funding. They are also assisting us as we seek Federal Government funding via the next round of the Federal Housing Fund (HAFF) due for release soon.

We would hope to know the outcome of our State funding by April 2025. We also recently visited Modular Homes WA to look at their products and discussed in some detail with them our requirements. They were quite impressive and have supplied homes across WA, including to quite a few local Governments. Of course, we have also been working with Evoke Living in Northam, who likewise are impressive and of course based in our region.

We are also currently having initial discussions with the Shire of Merredin regarding the possibility of the future management of their Merrittville housing.

We have recently overseen the sale of our two units in Kununoppin to a private purchaser, which is a good result for CEACA.

The issue of the future of our units in Koorda and Nungarin has been raised and this is an issue the Management Committee should explore and discuss in 2025.

If we are successful with our funding applications and proceed to construct another 54 units across our region, there will be, as we grow, a need to look at our staffing structure to ensure we continue to steer and expand CEACA on a professional and successful course into the future.

It has been terrific to welcome aboard new Shires – Narembeen as a full member and Dowerin and Quairading as Associate Members. Their addition, involvement and input to CEACA only strengthens our organisation.

I wish to pay special recognition to Richard and Jo for their great work and persistence in gaining our Community Housing Provider registration. This was a long and arduous process and really did involve them both in long hours and a lot of work. I also thank them both for their ongoing great work for CEACA and the professional and friendly way they both go about it.

I also sincerely thank my Deputy Chair, Gary Shadbolt, for his great support, input and his knowledge of the early years is really important to us.

To you all on the Management Committee and Executive Committee, a really big thank you from myself, Richard and Jo. We really do appreciate your time, commitment and your vital local knowledge and input which has guided CEACA over the years and is the very reason it has been successful.

I wish to thank Elders who have been and continue to be great partners for us and likewise our Auditors, AMD.

I would also like to thank Minister John Carey and his office staff in particular Claire Comrie, his Chief of Staff, for their meetings with us and their overall support of CEACA and their guidance, along with the people we have worked with at the department.

It has been a strong twelve months, and I look forward with excitement and optimism as we head into 2025.

9. Treasurer's Report

The EO referred to the earlier reports on the Financial Statements and the auditor's report.

10. Appointment of Officers

Clause 10.2 of the Central East Accommodation & Care Alliance Inc (CEACA) Constitution provides that the Office Bearers of CEACA are the Chairperson, Deputy Chairperson, Secretary and Treasurer.

RESOLUTION

It was resolved by the Committee that Gary Shadbolt be appointed as the Central East Accommodation & Care Alliance Inc Deputy Chairperson for until the 2025 Annual General Meeting.

SECRETARY

One nomination received - Mischa Stratford (Shire of Wyalkatchem).

RESOLUTION

It was resolved by the Committee that Mischa Stratford be appointed as the Central East Accommodation & Care Alliance Secretary until the 2025 Annual General Meeting.

It was acknowledged that the duties of the Secretary may be delegated to CEACA Management team whenever required.

TREASURER

One nomination received – Holly Cusack (Shire of Narembeen).

RESOLUTION

It was resolved by the Committee that Holy Cusack be appointed as the Central East Accommodation & Care Alliance Inc Treasurer for until the 2025 Annual General Meeting.

It was acknowledged that the duties of the Treasurer may be delegated to CEACA management team whenever required.

CEACA MEMBER REPRESENTATIVES

In accordance with Item 6.3 of the CEACA Inc Constitution, it was agreed that the persons listed below have been elected by the Members to be their representatives until the next AGM:

MINUTES OF CENTRAL EAST ACCOMMODATION & CARE ALLIANCE INC MANAGEMENT COMMITTEE MEETING HELD AT 10.00AM ON MONDAY, 4 NOVEMBER 2024 AT THE KELLERBERRIN & DISTRICTS CLUB, LOT 260 CONNELLY STREET, KELLERBERRIN

1. MEETING OPENING

The Chairperson opened the meeting at 10.07am and welcomed Manisha Barthakur (CEO, Shire of Dowerin), Mark Furr (CEO, Shire of Bruce Rock) and Robert Trepp (President, Shire of Dowerin) who are attending for the first time.

2. MEETING MATTERS

2.1 Record of Attendance and Apologies

Attendance

Terry Waldron - Chairperson, Richard Marshall - CEACA Executive Officer, Jo Trachy - CEACA Operations Manager, Mark Furr & Stephen Strange - Shire of Bruce Rock, Manisha Barthakur & Robert Trepp – Shire of Dowerin, Raymond Griffiths & Monica Gardener - Shire of Kellerberrin, Tony Sachse - Shire of Mt Marshall, Craig Watts & Bradley Anderson – Shire of Merredin, Gary Shadbolt & Tanika McLennan - Shire of Mukinbudin, Rebecca McCall & Holly Cusack - Shire of Narembeen, Bill Price - Shire of Westonia, Mischa Stratford - Shire of Wyalkatchem, Nic Warren & Wayne Della-Bosca - Shire of Yilgarn.

Apologies

Natalie Ness – Shire of Quairading, Sabine Taylor – Shire of Wyalkatchem, Ben McKay – Shire of Mt Marshall, Ross Della Bosca – Shire of Westonia

2.2 Declaration of Quorum

The Chairperson advised that the quorum for the meeting was met.

2.3 Conflicts of Interest

There were no declarations of conflicts of interest.

2.4 Minutes of the Management Committee Meeting – 26 August 2024

RESOLUTION

It was resolved that the Minutes of the Management Committee meeting held on the 26 August 2024 be accepted as a true and accurate record of proceedings.

2.5 Minutes of the Management Committee Meeting – 30 September 2024 (via TEAMS)

RESOLUTION

It was resolved that the Minutes of the Management Committee meeting held on the 30 September 2024 be accepted as a true and accurate record of proceedings.

2.6 Minutes of the Executive Committee Meeting – 14 October 2024 (via TEAMS)

RESOLUTION

The Minutes of the Executive Committee meeting held on 14th October 2024 were noted.

2.7 Matters Arising / Action Items

The EO referred to Rent Reviews and advised that although CEACA instructed Elders to increase all rents from 1/7/2024, it has not been possible to do that as the *Residential Tenancies Act* states that rents can only be increased once every 12 months. As such, individual rents are increased upon the 12-month anniversary of their last increase.

3. MATTERS FOR DECISION

3.1 Appointment of CEACA Chairperson

Terry Waldron recused himself from the meeting.

The Deputy Chairperson asked for nominations for Chairperson until the 2025 Annual General Meeting. Stephen Strange (Shire of Bruce Rock) nominated Terry Waldron and this was seconded by Wayne Della Bosca (Shire of Yilgarn).

RESOLUTION

It was agreed by the Management Committee to elect Terry Waldron as the CEACA Independent Chairperson until the 2025 Annual General Meeting.

3.2 Executive Committee Members Appointment (Deferred to after AGM)

This item was deferred until after the AGM. Refer to the end of these minutes.

3.3 Additional Units – Proposed Submission for State Government Funding

The EO advised that CEACA are applying for 54 independent living units (ILU) and the breakdown of this number by shire can be found in the meeting papers. Since last meeting, two ILU's have been added to Quairading and two deducted from Mukinbudin. CEACA had submitted their funding application 12 months ago and were advised that to apply to be registered as a Community Housing Provider (CHP). CEACA commenced the CHP application process in February and were granted registration in October. CEACA EO and OM are working on a new funding submission which will be submitted upon receipt of updated pricing from Modular Homes and Evoke Living. Both builders have been asked to provide a quote for turnkey solution ie. ready for tenants to move in.

The Chairperson and EO had met with State Government and discussed whether funding could be provided based on the existing CEACA model and were advised this may be possible. The Chairperson advised that the State Government is happy to support CEACA's Federal funding application.

3.4 Additional Units – Proposed Submission for Federal Government Funding

The EO advised that Housing Australia is keen to offer funding for additional housing for the regional areas. Their first round is complete, and they do not have a date for the next round. They are very positive that CEACA is in a good position, especially given that it is in the regional area of WA and it is a proven model. The Federal Government are keen to improve supply of housing in the regional areas but have been struggling to allocate funding due to the lack of registered CHP's. They are happy that CEACA is now registered. The EO advised that land details have been received from all shires except for Wyalkatchem. Shires need to manage the land transfer process and fund any costs of transfer to CEACA. General discussion ensued.

4. MATTERS FOR DISCUSSION

4.1 Executive Officer Report (Attachment 7)

The EO summarised the financials to 30 September 2024 and advised that the settlement date for the Kununoppin land is to be determined. Removal of the Memorial has been approved by the Executive Director of Department of Lands. When settlement has occurred, the funds will be placed in a capital reserve fund for future expansion projects.

4.2 Operations Manager Report (Attachment 8)

The OM added the following comments to their report:

- No applications received for the Bencubbin unit to date. The Shires to advise OM of any potential applicants.
- Although the CHP application process was lengthy, it has resulted in improvements to policies and procedures.
- The OM thanked all Shires for their ongoing support during the year.

4.3 Potential Sale of Land in Nungarin & Koorda

The Chairperson advised that there is potential for CEACA to sell the land in Nungarin and Koorda, both of whom are no longer members of CEACA and asked the Committee for their feedback. The Committee discussed the importance of funding for future Units and that the sale of six Units could provide vital capital for growth of CEACA. There was support for the sale of land at Nungarin and Koorda.

RESOLUTION

It was resolved that the EO would speak to DPIRD to discuss its attitude towards the sale of six Units and to Elders for advice on sale of the land in Nungarin and Koorda, and report back to the Management Committee.

4.4 Shire Owned Accommodation (Attachment 9)

The EO advised that a framework had been developed for management of shire owned accommodation based on our existing model (CEACA/Elders). The framework was discussed at the Executive Committee meeting held on 14 October. The Committee had identified that the framework may need to be different for Units not fully owned by a Shire and the framework may be too costly, particularly if volunteers have managed them. The preferred plan would be to manage accommodation at one shire on a trial basis and review after 12 months. Information is being gathered from shires on whether the accommodation is fully owned or partially owned with joint venture partners.

CEACA are due to meet with the Shire of Merredin to discuss the possible management of their Merrittville units. CEACA will consider all options to be put forward to the Management Committee, including an option for CEACA to manage the properties and sub-contract to Elders for individual items eg. inspections. CEACA also need to carefully consider the impact of management of shire owned units on other CEACA business operations. General discussion ensued.

4.5 Community Housing Provider Draft Determination report, Announcement & Registration Certificate (Attachment 10)

The EO advised that the Department of Communities sent through a Draft Determination Report in October with a list of recommendations for CEACA to address. These are recommendations only and the Department would not be reviewing them until CEACA's first compliance assessment in 2026.

One of the recommendations relates to a revised Rent Setting policy. The rule for social housing is 25% of the household income plus Commonwealth Rent Assistance (CRA), compare it with 75% of market rent and take the lowest amount. If CEACA applied that formula to existing tenants, some rents may be higher. The Department's recommendation is for CEACA to adopt this rent setting rule if it intends to provide Band A social housing in future.

ACTION ITEM

EO to draft a Rent Setting Policy and table at the February 2025 CEACA Management Committee meeting for approval.

4.6 Economic Analysis – Grant from WDC (Attachment 11)

The draft report has been received. The Consultants did not receive any information from Pingelly or Wickepin and therefore based their report solely on CEACA. The report includes very positive comments relating to CEACA and its operations in the region. This cost benefit analysis will be used in the funding applications.

GENERAL BUSINESS

Wage Increase – CEACA Executive Officer

The EO excused himself from the meeting.

The Chairperson advised the Committee that the EO had not been granted a pay rise for the past 2 years, he had been consistently working more hours than contracted and as such, proposed that a 5% wage increase be offered in accordance with the outcome of his recent performance review.

RESOLUTION

It was resolved to approve a 5% wage increase for the Executive Officer arising from his recent performance review.

ABC Radio

The Chairperson was approached by ABC radio to speak about the recent CHP registration which the station had seen posted on the CEACA Facebook page.

Presentation – WALGA

The Member for Mukinbudin advised that they had had a discussion with Stephen Beaumont from the Great Eastern Country Zone, and he had suggested that CEACA present at their Wheatbelt Conference 2025. The Chairperson advised that CEACA would be interested in participating.

5. MEETING CLOSURE

There being no further business, the Management Committee meeting adjourned at 11.30am.

The Management Committee meeting was re-opened at 11.42am after the Annual General Meeting.

Attendance

Terry Waldron - Chairperson, Richard Marshall - CEACA EO, Jo Trachy - CEACA OM, Mark Furr & Stephen Strange - Shire of Bruce Rock, Manisha Barthakur & Robert Trepp – Shire of Dowerin, Monica Gardener - Shire of Kellerberrin, Tony Sachse - Shire of Mt Marshall, Craig Watts & Bradley Anderson – Shire of Merredin, Gary Shadbolt & Tanika McLennan - Shire of Mukinbudin, Rebecca McCall & Holly Cusack - Shire of Narembeen, Bill Price - Shire of Westonia, Mischa Stratford - Shire of Wyalkatchem, Nic Warren & Wayne Della-Bosca - Shire of Yilgarn.

Apologies

Natalie Ness – Shire of Quairading, Sabine Taylor – Shire of Wyalkatchem, Ben McKay – Shire of Mt Marshall, Ross Della Bosca – Shire of Westonia, Raymond Griffiths – Shire of Kellerberrin.

NOMINATION OF EXECUTIVE COMMITTEE MEMBERS

Nominations for the Executive Committee Members until the 2025 Annual General Meeting were as follows:

Terry Waldron – Chairperson, Gary Shadbolt – Shire of Mukinbudin, Raymond Griffiths – Shire of Kellerberrin, Holly Cusack – Shire of Narembeen, Mischa Stratford – Shire of Wyalkatchem and Nic Warren – Shire of Yilgarn.

RESOLUTION

It was resolved by the Management Committee that the that the members of the CEACA Executive Committee until the 2025 Annual General Meeting will be Terry Waldron – Chairperson, Gary Shadbolt - Shire of Mukinbudin, Raymond Griffiths - Shire of Kellerberrin, Holly Cusack - Shire of Narembeen, Mischa Stratford - Shire of Wyalkatchem and Nic Warren – Shire of Yilgarn.

GENERAL BUSINESS

On behalf of the Committee the Deputy Chairperson, Gary Shadbolt, thanked the Chairperson for his leadership over the last 12 months and thanked the EO and OM for their ongoing work, professional leadership and for their work on the new project, which is appreciated by the Committee Members.

The Chairperson thanked the Deputy Chairperson and advised that if successful with the funding for additional ILU, CEACA will need to review its current management structure. The Chairperson, EO and OM will review options that will cover CEACA in the future and this may include a full-time CEO in the region and an addition to operations staff. The Chairperson is happy to continue with CEACA for another 12 months but will consider whether to continue after that.

NEXT MEETING

The next meeting will be held at 10.00am on 24 February 2025 at the Merredin Regional Community & Leisure Centre.

MEETING CLOSURE

There being no further business, the meeting closed at 11.50am. .

5. CHAIRS REPORT

Author: Ms. Emily Ryan, Chair

Disclosure of Interest: No interest to disclose

Date: 13 November 2023

Attachments: Nil

Voting Requirement: Simple Majority

Executive Officer Comment:

The Chair's report for the 2022-23 financial year is presented.

I am delighted to present the Chairperson's Report for the Wheatbelt East Regional Organisation of Councils Inc. for 2023. It has been a year of strategic planning, collaborative initiatives, and meaningful progress toward our vision of a socially, economically and environmentally sustainable region.

Like previous years, we have continued to revise our Strategic Plan to ensure we are being responsive and adaptable to the current climate we find ourselves in. We have strengthened our commitment to creating a sustainable region, focusing on social, economic, and environmental aspects. New actions include the development of a housing solution for the Eastern Wheatbelt, exploration of inter-council training opportunities, and efforts toward establishing a regional waste coordinator.

Our continued emphasis on promoting the Wheatbelt region to visitors has seen significant strides. We supported the Wheatbelt local tourism group co-funding campaign, renewed the Memorandum of Understanding with the central Wheatbelt Visitors Centre, and are in the process of developing a WEROC drive trail planner. Additionally, we are an active member of the Wheatbelt Tourism Destination Working Group.

Following the completion of our Strategic Waste Management Plan in 2022, councils are diligently working through the agreed implementation plan. While the ultimate goal is to consolidate landfill sites into two regional landfills in the future, we recognise the substantial work required in the interim.

In March, WEROC Councils hosted Notre Dame students for the annual Wheatbelt Medical Student Immersion Program, fostering collaboration between local communities and future medical professionals.

In collaboration with NEWROC, RDA Wheatbelt, and the Wheatbelt Business Network, we commissioned a survey of businesses to understand workforce challenges. A key finding highlighted housing as a significant barrier. To address this, we produced a Worker and Housing discussion Paper in November 2022 and have initiated further investigations into potential housing solutions.

WEROC has formed a partnership with the Town Teams Movement. Starting January 2024, we will have a Town Team Builder on board to assist in growing this program in our Shires, enhancing community engagement and local development.

In collaboration with Wheatbelt NRM, AROC, and CBH, WEROC co-funded a Corella Management Program. The program, which began in July 2023 with the employment of a Corella Management Coordinator, is crucial for biodiversity and environmental sustainability in our region.

As we reflect on the achievements of 2022-2023, we look forward to continued collaboration and progress in the years to come. Thank you to the members of our group, representing Tammin, Kellerberrin, Bruce Rock, Merredin, Westonia and Yilgarn, for your dedication and support. Thank you also to our Executive Officer - Rebekah Burges, who pulls all of this together and actions our resolutions in such a timely and professional manner. I look forward to seeing WEROC's journey continue into 2024.

Attachment 6: 2024 Audit Quote - AMD

Financial Implications:	As per quotes supplied.
Consultation:	Audit Partners Australia, Reliance Auditing Services and AMD Chartered Accountants
Voting Requirement:	Simple Majority

Background:

The WEROC Inc. Constitution states under Rule 23. Appointment of Auditor, that:

“WEROC will at each Annual General Meeting, appoint an Auditor for a period of one year, who is not a Member of WEROC. The Auditor will be eligible for reappointment by WEROC and WEROC Board has the power to fill any temporary vacancy in the office of Auditor”.

Executive Officer Comment:

Audit Partners Australia (APA) completed the financial audits for WEROC Inc. for the 2019-2020, 2020-21, 2021-22 and 2022-23 financial years. The cost for the 2022-23 financial audit was \$950 +GST and disbursements.

At the 2022 WEROC Inc. Annual General Meeting it was requested that the Executive Officer seek multiple quotes for the 2023-24 financial audit given that the same auditors have been used for several consecutive years. Quotes were sought from APA, AMD Chartered Accountants and Reliance Auditing Services.

APA advised via email on 31 October 2023 that if they are reappointed as auditor for the 2023-24 financial year the cost will remain at \$950 +GST and disbursements. Quotes from Reliance Auditing Services and AMD are provided as attachments.

The Executive Officer believes that APA provide an efficient and thorough auditing service and based on the comparative quotes, also believes that they are the most economical option for WEROC Inc.

Recommendation:

That Audit Partners Australia be reappointed to undertake the financial audit for WEROC Inc. for the period 1 July 2023 to 30 June 2024.

Executive Decision

Legislative Requirement

For Council to consider commencing the process of review of the Shire of Merredin Disability Access and Inclusion Plan (DAIP) as part of preparation of the Shire of Merredin (the Shire) DAIP 2025-2030.

Background

Under provisions of the *Disability Services Act 1993* local governments are required to review the DAIP every five years.

Comment

Council last considered its DAIP at its meeting held on Tuesday 16 June 2020, where it resolved as follows (CMRef 82565);

That Council:

- 1. Adopts the Draft 2020-2025 Disability Access and Inclusion Plan (DAIP);*
- 2. Advertises the adoption of the DAIP in the Phoenix newspaper;*
- 3. Includes a copy of the adopted DAIP on the Shire website'*
- 4. Provides a copy of the adopted DAIP to the Department of Communities – Disability Services Commissioner.*

The Shire DAIP 2020 -2025 (as attached) will expire in June 2025. The process of the DAIP review needs to commence so that comments forming part of the review process and the development of associated goals and objectives forming part of a new 2025-2030 DAIP, can be incorporated into the 2025/26 financial budget.

The DAIP provides a framework through which local governments can create accessible and inclusive communities. The development and periodic review of the DAIP ensures that it remains relevant to the needs of the community and ensures that people with disabilities can access information and services provided by local governments in Western Australia and that these services facilitate increased independence, opportunities and inclusion for people with disabilities in the community.

The review of the DAIP must involve public consultation (requires statutory advertising) and liaison with relevant stakeholders and must focus on key outcomes, these being;

- 1. People with disability have the same opportunities as other people to access the services of, and any events organised by, a public authority.*
- 2. People with disability have the same opportunities as other people to access the buildings and other facilities of a public authority.*
- 3. People with disability receive information from a public authority in a format that will enable them to access the information as readily as other people are able to access it.*
- 4. People with disability receive the same level and quality of service from staff of a public authority as other people receive from staff of that public authority.*
- 5. People with disability have the same opportunities as other people to make complaints to a public authority.*
- 6. People with disability have the same opportunities as other people to participate in any public consultation by a public authority.*
- 7. People with disability have the same opportunities as other people to obtain and maintain employment with a public authority.*

The Shire is required to provide feedback on an annual report back to the Department of Communities on its implementation of the DAIP outcomes.

As part of the 2023/24 DAIP implementation annual report, the Shire was requested to align its implementation report with 15 Key State Disability Strategy outcomes, these being;

Outcome Number	Outcome Description
1	People with disability get the education and skills development they need to thrive
2	People with disability have opportunities for meaningful and inclusive employment and economic independence
3	People with disability hold positions of leadership and influence across the public, private and community sectors
4	People with high and complex needs have opportunities and networks that support the person to participate in the way they choose
5	Communities infrastructure is accessible to all

6	People with disability can travel where they want to go with ease
7	People with disability are welcomed and accepted by members of the community
8	People with disability are included in a range of recreational, social, arts and cultural opportunities
9	People with disability have access to suitable housing
10	People with disability have access to quality disability services and supports
11	People with disability have access to health and mental health services and attain the highest possible health and wellbeing outcomes throughout their life
12	Legislation and policies protect the rights and interests of people with disability
13	People with disability and their advocates have their voices heard
14	People with disability are safe from violence, abuse, neglect and exploitation
15	People with disability have access to the right information in the right ways so they can make informed choices and decision

This would suggest that work associated with development of a new DAIP should align with the State Disability Strategy outcomes.

Addressing the above outcomes as part of the review of the Shire's DAIP will not only benefit people with disability but also seniors in the community that may be experiencing mobility, hearing and visual difficulties, as well the general community from increased social and economic participation of people with disabilities and seniors.

Shire officers propose to apply the attached DAIP review timelines and actions document as well as a questionnaire calling for input from people with a disability, individuals and organisations.

Risk Implications

The Shire is required to review its DAIP every five years, failure to do so is a breach of legislative requirements. The preparation and implementation of the new DAIP in conjunction with community consultation will benefit the local community. At the same time strategies developed as part of the new DAIP will undergo annual budgetary consideration and allocation of funds. As such risks associated with the Shire preparing and implementing the Shire DAIP 2025-2030, are considered to be Low (3), which is determined by a likelihood of Rare (1) and a consequence of Moderate (3). This risk will be eliminated by the adoption of the Officer's Recommendation.

Financial Implications

Financial implications will be considered as part of the preparation of the 2025/26 financial budget and will focus on the provision of outcomes identified in the consultation process.

Existing and new staff will also be provided with additional training on how to properly interact and provide support and services for people with disability.

1.0 BACKGROUND

1.1 The Shire of Merredin

The Shire of Merredin is located in the Central East Region of Western Australia, 260km from Perth. The Shire covers 3372km.

The Shire has a population of 3,350, of which a town population of approximately 2,900. The remaining population resides in the rural area and from the townsites of Muntadgin, Burracoppin, Nangeenan, and Hines Hill.

There are 1,635 dwellings within the Shire of Merredin.

Major Industries include steel fabrication, machinery manufacturing, wheat, sheep, pigs, Collgar Wind Farm, Risen Energy Solar Farm and China Southern Western Australian Flying College. Because of its position, roughly halfway between Perth and Kalgoorlie and having major marshalling yards to handle both narrow gauge and standard gauge, Merredin appears to have a solid future associated with the transport industry. It is important that Merredin continues to promote its reputation as a town offering low cost housing in a rural location with a high quality standard of living.

1.2 Functions, facilities, and services (both in-house and contracted) provided by the Shire of Merredin

The Shire of Merredin provides:

Services to property: Construction and maintenance of Shire-owned buildings, roads, footpaths, cycle facilities and walk trails; land drainage and development; waste collection and disposal; litter control and street cleaning; planting and caring for street trees; street lighting and bushfire control.

Services to the community including: Provision and maintenance of playing areas and reserves and management of Recreation Centre; library and information services; environmental health services; senior citizen care and health education.

Regulatory services including: Planning of roads and subdivisions of in accordance with Local Planning Scheme; building approvals for construction, additions and alterations, environmental health, and ranger services, including enforcement of local laws, dog, litter, and parking control.

General Administration: The provision of general information to the public and lodging of complaints and payments of rates.

Processes of government including: Ordinary and Special Council and committee meetings, electors' meetings, and election of Council members.

1.3 People with disability in the Shire of Merredin

The Australian Bureau of Statistics Survey of Disability Ageing and Carers estimated that 18.3% of Australians identify themselves as having some form of disability. It is estimated therefore that there are around 600 persons with disability living within the Shire. The influx of retirees will increase this number and seasonal arrival of tourists, including tourists with a disability, must be considered.

1.4 Planning for better access

The Western Australian Disability Services Act requires all Local Governments to develop and implement a Disability Access and Inclusion Plan (DAIP) to ensure that people with disability have equal access to facilities and services.

Other legislation underpinning access and inclusion includes the Western Australia Equal Opportunity Act (1984) and the Commonwealth Disability Discrimination Act 1992 (DDA), both of which make discrimination on the basis of a person's disability unlawful.

1.5 Progress since 1995

The Shire of Merredin is committed to facilitating the inclusion of people with disability through the improvement of access to its information and facilities and services. Towards this goal, the Shire has adopted its first Disability Access & Inclusion Plan in 1995 to address the access barriers within the community. The plan was again reviewed in 2001, 2007 and 2014.

In compiling the Disability Access & Inclusion Plan in 2020, a number of facilities were recognised as already having been put in place by the Shire to assist people with disability who either reside in or visit the Shire. These facilities include upgrading of existing footpaths to provide low contour gradient disabled access, new ablution facilities, provision of a new Recreation Centre and the provision of additional concrete footpath surfaces. The Shire of Merredin access inclusion plan 2020 – 2025 builds on existing work and is aimed at improving access for people with disability and making the Shire of Merredin a more inclusive community.

Since the adoption of the initial Disability Services Plan, the Shire has implemented a number of works improvements and programs to improve disability access within the Shire of Merredin.

The following achievements were made during the 2015-2020 DAIP and are as follows:

Improvement of existing functions, facilities, and services to meet the needs of people with disability

Building & Planning approval conditions continue to assist in increasing disability access awareness of developers, and the introduction of disabled access to all newly constructed or altered public buildings.

- Provision of training to front counter staff on service delivery for people with a disability as well as provisions of the Disability Discrimination Act.
- Consideration of the needs of people with a disability as part of event planning processes to ensure that people with a disability are catered for and can attend and be involved in events and functions in comfort and dignity.
- Encouraged local businesses to improve disabled access to shops.

Improved access to community buildings and facilities

- Provision of a replacement lift chair to the heated therapy spa pool at the MRCLC.
- Provision of a dedicated access ramp at the Merredin regional swimming pool.
- Construction of a disabled ablution facility at the cemetery.
- Provision of CEACA aged accommodation and associated access facilities for the elderly to the adjacent shopping precinct and Doctors Surgery.
- Redevelopment of the North Merredin Primary School for use as a multipurpose facility that is accessible by people with a disability.
- Provision of dedicated ACROD parking bays in Bates Street, Barrack Street, and the adjacent public car park areas.
- Provision of additional dual use footpaths within the townsite areas.

Opportunities provided for people with disability to participate in public consultations, grievance mechanisms and decision-making processes are provided

- Council services, functions and facilities are available on request in large print, audio cassette and computer disc alternative formats.
- Council ensured that voting for municipal elections takes place in accessible buildings and that alternative voting arrangement is available where required.
- Council engages with the community by holding regular community forums to allow feedback and provide for input into the preparation of Council policy and implementation of Council services.

2.0 ACCESS AND INCLUSION POLICY STATEMENT

The Shire of Merredin is committed to ensuring that the community is accessible for people with disability, their families, and carers, via Council's;

1. Progressive modification of all existing Public Building Facilities and Services under its control, to cater for the needs of people with a disability, It should be noted that the public buildings under Council direct control have been addressed and this aspect is now a care and maintenance process;

2. Ensuring that all future Public Buildings, Facilities and Services, constructed or provided within the Shire are designed to cater for the needs of people with a disability;
3. Regular review of the provision of services to ensure that all services are provided in a manner that meets the expectations of persons with a disability.

The Shire of Merredin believes that people with disability, their families and carers who live in country areas, should be supported to remain in the community of their choice; recognising that people with disability are valued members of the community and contribute socially, economically, and culturally, making for a more diverse and richer community.

The Shire is committed to consulting with people with disability, their families and carers and, where required, disability organisations, to ensure that barriers to access are addressed appropriately.

The Shire of Merredin is committed to achieving the seven standards of its Disability Access and Inclusion Plan, which are as follows:

- Provide a means of ensuring that people with disability have the same opportunities as others to access the services of, and any event organised by, the Shire of Merredin.
- Provide a means of ensuring that people with disability have the same opportunities as others to access buildings and other facilities of the Shire of Merredin.
- Provide a means of ensuring that people with disability receive information from the Shire in a format that will enable them to access information as readily as others are able to.
- Provide a means of ensuring that people with disability receive the same level and quality of service from the staff of the Shire of Merredin.
- Provide a means of ensuring that people with disability have the same opportunities as others to make complaints to the Shire of Merredin.
- Provide a means of ensuring that people with disability have the same opportunities as others to participate in any public consultation with the Shire of Merredin.
- A disability access and inclusion plan must provide a means of reducing barriers to people with disability obtaining and maintaining employment.

3.0 STRATEGIES TO IMPROVE ACCESS AND INCLUSION

The Shire of Merredin is committed to achieving the following outcomes.

Outcome 1: People with disability have the same opportunities as other people to access the services of, and any events organised by, a public authority.

- Council will endeavour to be adaptable in responding to the barriers experienced by people with various disability, including people with physical, sensory, cognitive, and psychiatric disability.
- Council will ensure that all policies and practices that govern the operation of Council facilities, functions and services are consistent with Council Policy regarding access.

Outcome 2: People with disability have the same opportunities as other people to access buildings and other facilities of a public authority.

- Council will undertake to incorporate the priorities regarding access for people with disability, identified during the consultations, into its submission for its capital works improvement program. Modifications will commence as funds are made available.
- Council will undertake to liaise with developers to increase their awareness of the access requirements of people with disability.

Outcome 3: People with disability receive information from a public authority in a format that will enable them to access the information as readily as other people are able to access it.

- Council will produce all of its information on Council facilities, functions and services using clear and concise language.
- Council will advise the community that, upon request, information about Council functions, facilities and services can be made available in alternative formats, such as large print and audio cassettes.

Outcome 4: People with disability receive the same level of service from the employees of a public authority as other people receive from the employees of that public authority.

- Council will undertake to ensure that staff are aware of the key access needs of residents with disability and people with disability who visit the local government area in relation to the provisions of all services.
- Council will provide disability awareness training for staff.
- Where required, Council will seek expert advice from the disability field on how to meet the access needs of people with disability.

Outcome 5: People with disability have the same opportunities as other people to make complaints to a public authority.

- Council will ensure that all grievance mechanisms are accessible for people with disability and are acted upon.

Outcome 6: People with disability have the same opportunities as other people to participate in any public consultation by a public authority.

- Council will ensure that information is available in a clear and concise language on how residents can participate in decision-making processes, public consultation, and grievance mechanisms.
- Council will undertake to support people with disability to attend Council Meetings.

Outcome 7: People with disability have the same opportunities as other people to obtain and maintain employment with the Shire of Merredin

- Council will continue to review recruitment practices to ensure all processes are inclusive.
- Council will undertake to improve methods of attracting, recruiting, and retaining people with disability.
- Include disability friendly considerations in all workplace projects.

4.0 DEVELOPMENT OF THE DISABILITY ACCESS AND INCLUSION PLAN

4.1 Community consultation process

The Shire of Merredin reviewed its Disability Access and Inclusion Plan in 2019/20. The process included:

- Examination of the previous DAIP and subsequent review of annual reports to determine what has been achieved and any outstanding works.
- Examination of other Shire documents and strategies.
- Investigation of contemporary trends and good practice in access and inclusion.
- Consultation with staff.
- Consultation with the public.
- Consultation with the Merredin Community Resource Centre Management.

The Disability Services Act Regulations (2004) set out minimum consultation requirements for public authorities in relation to DAIP. Local governments must call for submissions (either general or specific) by notice in newspapers circulating in the Local Government area and on any website maintained by, or on behalf of, the Local Government. Other mechanisms may also be used. The following consultation methods were used:

- On the 22nd of November 2019, the community was informed through the local newspaper and Shire website, that the Shire was developing a DAIP to address access barriers for people with disability and their families. The community was invited to provide input into the review of the current initiatives and the development of a new plan. Submissions via Survey

Monkey were sought with 18 submissions being received by the Shire of Merredin.

- On the 12th of December 2019, a stakeholder group meeting was held at the Shire library involving people with a disability, their carer's, service providers, state, and local government representatives. The stakeholder group provided input into the review of the current initiatives and the development of a new plan.

4.2 Findings of the consultation

The review and consultation found that most of the initial objectives in the DAIP had been achieved and that a new plan was required to address ongoing access barriers, ensuring currency and relevance. The new plan should also reflect the legislative and regulatory changes, accommodating contemporary values and practices, whilst striving for inclusion and access beyond the minimum compliance of standards.

Many of the areas identified in the consultation process are ongoing and are constantly reviewed and updated. Existing Shire buildings are for all practical purposes compliant for access and inclusion and the review role is becoming one of "care and maintenance" as construction resources are finite.

The review process specifically identified the need for;

1. Advocacy by the Shire of Merredin with its sister agencies in the State Government sector such as the Public Transport Authority and the Main Roads Department, for better access by people with a disability to the train services as well as an improved ability to safely cross the Great Eastern Highway;
2. Improvements relating to the Shire of Merredin Website to make it more intuitive;
3. Improving staff awareness of disability related issues and associated considerations;
4. Improving and increasing footpath construction and ensuring better access to and by existing footpaths;
5. Improving existing ACROD bay parking facilities;
6. Improving access to existing shops in Merredin.

4.3 Responsibility for implementing the DAIP

Implementation of the DAIP is the responsibility of all areas of the Shire of Merredin. The Disability Services Act (1993) requires all public authorities to take all practical measures to ensure that the DAIP is implemented by its officers, employees, agents and contractors.

4.4 Communication of plan to staff and people with disability

- On the 22nd of November 2019, the community was informed through the local newspaper and Shire website, that the Shire was developing a DAIP to address access barriers for people with disability and their families. The community was invited to provide input into the review of the current

initiatives and the development of a new plan. Submissions via Survey Monkey were sought with 18 submissions being received by the Shire of Merredin.

- On the 12th of December 2019, a focus group meeting was held at the Shire library involving key stakeholders including people with a disability, their carer's, service providers, state, and local government representatives. The focus group provided into the review of the current initiatives and the development of a new plan.

Formal endorsement by Council is anticipated for June 2020.

Following endorsement of the plan by Council the community will be advised through the local media (newspaper, electronic media, and radio) that copies of the plan are available to the community upon request and in alternative formats if required.

4.4 Review and evaluation mechanisms

The Disability Service Act requires that DAIPs be reviewed at least every five years. The DAIP Implementation Plan can be amended more frequently to reflect advancements of access and inclusion issues. Whenever the DAIP is amended, a copy of the amended plan must be lodged with the Department of Communities.

Monitoring and reviewing: The DAIP will be reviewed annually for progress and implementation with all progress and recommended changes reported to Council.

Evaluation: An evaluation will occur as part of a five-yearly review of the DAIP. Community, staff, and elected members will be consulted as part of the evaluation and Implementation Plans will be amended based on the feedback received. Copies of the amended Implementation Plan, once endorsed by Council, will be available to the community in alternative formats.

4.5 Reporting of DAIP

The Disability Services Act requires the Shire to report on the implementation of its DAIP in its Annual Report outlining:

- Progress towards the desired outcomes of its DAIP.
- Progress of its agents and contractors towards meeting the seven desired outcomes.
- The strategies used to inform agents and contractors of its DAIP through providing a link to DAIP on the website.

5.0 IMPLEMENTATION PLAN

The Implementation Plan details the task, timelines, and responsibilities for each strategy to be implemented in 2017-2021 to progress the strategies of the DAIP. It is intended that the Implementation Plan will be updated annually to progress the achievements of all the strategies over the duration of the five-year plan.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider granting development (planning) approval for an extractive industry operation on Lot 812 Great Eastern Highway, Burracoppin.

Background

An application for development (planning) approval has been lodged with the Shire of Merredin (the Shire) with respect to a proposed extension to an existing extractive industry operation. The extractive industry activity forming part of the application is to be conducted on Lot 812 Great Eastern Highway Burracoppin.

Comment

Council previously granted development (planning) approval in May 2019 for the establishment and operation of an Extractive Industry on Lot 812 Great Eastern Highway Burracoppin, for a period of five (5) years. Discretionary use such as this proposal must be in accordance with the Shire of Merredin Local Planning Scheme No.6 and as such requires Council approval. A location plan is shown in Figure 1.

FIGURE 1 – Location Plan

The current development approval for the extractive industry will expire on 2 December 2024, and the applicant has lodged a further application for development approval seeking to continue the extractive industry activity on the Lot in question.

When considering the development application, it should be noted that the land is already being utilised for extractive industry operations in accordance with the previous development approval and the activity on site is currently subject to an existing extractive industry licence.

The applicant has confirmed that the extractive industry activities are continuing with no variation from the original approval and has requested that the development approval be extended for a further period of five (5) years.

Nearest Residences

The land surrounding the extractive industry operation is broad acre farming with no sensitive land uses (housing) in the immediate vicinity, as such the proposed extractive operations are unlikely to result in complaints being received by Council with respect to noise and dust related impacts. No complaints to date have been received by the Shire in relation to their current operations.

Figure 2 shows the location of the nearest residence to the Burracoppin Quarry. The residence to the west is at a distance of 2.44km to the Quarry gate. The closest residence within the township of Burracoppin is at a distance of 5.93km from the Quarry gate.

Figure 2 – Nearest Sensitive Uses

At present there is one other extractive industry licence in place in the Shire, relating to the extraction of sand, but not relating to the extraction of gravel. It is becoming increasingly difficult for contractors to source suitable materials for large development projects within the Shire.

Road Access

Previous discussions with the applicant relating to vehicular access to the property have focused on the requirement for all vehicles to access the site via Great Eastern Highway and a small portion of Goldfields Road. The roads in question have been previously inspected by the Shire's Executive Manager Engineering Services for sight line considerations and road conditions and have been deemed as being suitable for the proposed vehicular use.

Access is through a boundary gate, in the southern portion of the property, via the bituminised portion of Goldfields Road, north of the Great Eastern Highway (refer Figure 3 below).

Figure 3 – Access to Site

Policy Implications

Statutory Implications

Clause 2.2 of the Shire's Local Law No.10 – Extractive Industries, states that unless otherwise approved by the local government, a person seeking the issue of a licence shall advertise the application for an extractive Industry licence in a newspaper circulating in an area in which the proposed activity is located.

In this case the application relates to the extension of an existing, previously approved extractive industry activity which is currently subject to a valid extractive industry license, and which has operated for five (5) years without any complaint being received by the Shire. Furthermore, there being no noise sensitive premises in the vicinity, it is believed there is no need to advertise the proposed activity for broader public comment.

All activities will be subject to compliance with the *Environmental Protection Act 1986*, including provisions of the *Environmental Protection (Noise) Regulations 1997*.

The applicant has previously lodged a bond with the Shire as security with respect to the implementation of rehabilitation commitments.

Risk Implications

Given that the extractive industry activity has been in operation since 2019, without any complaints being received by the Shire during this period, the risk implications are considered

to be Low (3), which is determined by a likelihood of Rare (1) and a consequence of Moderate (3) of adverse events associated with this proposal. This risk will be eliminated by the adoption of the Officer's Recommendation.

Financial Implications

The relevant development application fees have been paid.

That Council:

1. GRANT development (planning) approval for an extractive industry operation on Lot 812 Great Eastern Highway, Burracoppin as per plans forming part of Attachment 12.2A, subject to;

- a) planning consent being valid for a period of five (5) years from the date of approval;
- b) extractive industry license being valid for a period of one (1) year from the date of approval;
- c) an annual extractive industry license fee of \$334.40 to be paid;
- d) hours of operation of extractive industry operations are restricted to 7:00am to 6:00pm Monday to Friday and 8:00am to 5:00pm Saturday and Sunday and not at all on Public Holidays;
- e) all loaded vehicles involved in extractive industry operations to egress from the property utilising Goldfields Road and Great Eastern Highway;
- f) all vehicles involved in extractive industry operations not permitted on Goldfields Road during school bus hours;
- g) the operator shall, at the direction of Executive Manager of Engineering Services, undertake certain measures so as to minimise the impact of vehicles involved in extractive industry operations on Goldfields Road;
- h) the requirements of Clause 2.2 of the Shire of Merredin Local Law No.10 – Extractive Industries not being imposed;
- i) dust control and suppression measures to the satisfaction of the Chief Executive Officer shall be maintained over the site;
- j) rehabilitation to be completed within 12 months of the conclusion of operations;

83485

- k) all other relevant statutory consents or approvals or permits be obtained from the relevant statutory authority prior to commencing works; and**
- 2. NOTE that the development (planning) approval incorporates and supersedes the previous development approval MDP A016(2019) for extractive industry operations on Lot 812 Great Eastern Highway Burracoppin.**

1.Scope and Purpose

The Application for a Mineral Extraction Licence has been prepared by X2M / Prumm Corporation Pty Ltd in support of a development application for Plan number 061250 Lot number 812, ("the quarry") which comprise the Burracoppin Gravel Quarry (the "Project") of the Derek Mason Super Fund ("DMSF").

The DMSF owns a farmlet, located approximately 20km east of the township of Merredin on the north side of the Great Eastern Highway.

The entrance to the project is via the bitumised portion of the Goldfields Road to the north of the Great Eastern highway (see Figures 1 to 3 below).

Figure 1 Sample Sites and interpreted Quarry Location

The scope and structure of this Licence application is as follows:

- 2 Shire forms
- 3 Plan of the excavation site
- 4 Works excavation program
- 5 Rehabilitation and decommissioning program
- 6 Evidence of the establishment of a surveyed datum peg
- 7 Certificate and plan from a licenced surveyor
- 8 Evidence of suitable advertising and notification
- 9 All land use planning approvals
- 10 Environmental approvals
- 11 Geotechnical information
- 12 Consent in writing of the owner of the site
- 13 Evidence that a notice has been given to the Commissioner of Soil and Land Conservation
- 14 Any other information that the local government may request
- 15 The licence application fee

2.Shire Forms

A copy of all signed and submitted forms is appended as Appendix 1

3. Plan of the excavation site

The plan below displays:

- 2 the existing and proposed contours based on the Australian Height Datum at 1m intervals
- 3 the farm boundaries on which the excavation site is located
- 4 the external dimensions of the land
- 5 the location and depth of the existing and proposed excavation of the land
- 6 the location of vehicle access and egress, proposed and existing access routes
- 7 the location of roads, rail, survey stations and power poles
 - a. there are no telephone cables, poles, pipelines, sewers, bridges, cables, reserves and registered grants of easement or other encumbrances on or in the vicinity of the proposed development.
- 8 the location of existing watercourses, fences and proposed warning signage
 - a. There are no dams
- 9 the location of the removed and stored overburden

the location of the mined ore stocks ready for sale will be explained as part of the mining process. (Refer section 4.6.2)

Briefly, in order to reduce costs via double handling and minimise over clearing, clearing of the OB & TS will occur within 6 designed panels and contained to within the pit design. This effectively breaks the 300m long pit into 6 panels. (refer figure 4)

Each panel is approximately 50m long and will be mined from the South to North.

Within each of the 6 proposed panels, OB & TS will be stockpiled on the eastern side of the excavation. The intra panel gravel will be mined in strips between 10 m wide starting from the west, stockpiling the ore on the eastern side.

On completion of a 50m (N-S) panel of gravel removal, the plan is to immediately rehabilitate the panel area, the exhausted portion of the quarry, by pushing the topsoil and overburden back into the shallow excavation, scarifying and reseeding the remnant surface to promote regrowth.

SURVEY PLAN TO BE SET IN HERE

4.Works excavation program

4.1 The Nature and Duration of the Project

The DMSF Burracoppin Gravel Quarry will be mined to a maximum depth of 2.1 meters (refer 4.4), which allows for operator error. The maximum depth of gravel unearthed in the exploration pits shows the gravel to be to a maximum depth of 1.6m with approximately 100 to 200mm of overburden.

The excavated gravel will be “free dig” using a 30 tonne excavator. The term free dig refers to mining without blasting however in this case dozer ripping will also not be required.

The peripheries of the excavation will be mined on a shallow angle, 45 degrees or less. The nature of the gravel deposit is that it is of greatest thickness, (depth), in the middle of the pit and the gravel thins markedly toward the periphery of the open pit.

Logging of the exploration pits, refer figure XXX, displays the periphery of the gravel deposit thinning to less than 300mm and in some cases to 100 mm thickness.

Regarding duration of the project, it is anticipated that the quarry will be spasmodically mined, that is as and when a contract for gravel arises. At this juncture there are no live contracts for gravel, therefore duration of the project is expected to be broadly in the order of 10 years.

4.2 Excavation stages & timing

As stated in 4.1 above the DMSF has no live contracts for gravel and it is likely that advertising, both paid and word of mouth, should provide sales (volume unknown) within the initial 6 months post excavation.

The excavation plan is, as mentioned in 3.9a above, refer to figure XX below.

- 1 to remove the overburden from the initial (50m S-N) panel of gravel. The overburden and topsoil will be stockpiled on the eastern side of the excavation.
- 2 The ore will then be mined in strips approximately 10m wide starting from the south west corner and completing in the north east corner of the panel. The mined ore will be stockpiled immediately adjacent from where it was excavated, essentially sitting on-top of the next strip of ore to be mined from the same panel.
- 3 Therefore one strip of the panel will be opened and available for sale and when the strip of stockpiled gravel is sold and removed the next strip of gravel can be excavated.
- 4 Once exhausted, each panel of the pit will be rehabilitated.

Timing depends on sales and at this stage sales estimates are unknown.

DMSF - BURRACOPPIN GRAVEL QUARRY Mining Sequence

STEP 1

Panel 1

Remove the topsoil & OB from the pit area and deposit into a topsoil stockpile.
Do not remove topsoil & OB outside of the pit area

STEP 2

Panel 1

Excavate the gravel from the pit in a 10m wide slice (S to N) and side cast to the east
Remove the gravel from the ore stockpile via loader & truck or excavator & truck

STEP 3

Panel 1

Once sufficient stockpile area has been removed for sale via truck, excavate the 2nd 10m wide strip side casting to the east of the excavation

STEP 4

Panel 2

Remove topsoil and OB from panel 2

Panel 1

Once the gravel stocks have been sold push the topsoil and OB stockpile back into the exhausted quarry panel 1, scarify and seed with local native vegetation

Continue with the excavation and rehabilitation cycle

Figure 4 DMSF Mining Sequence with pit depths and topsoil/OB stocks

4.3 Details of the Mining Method

Mining will utilise a 30 tonne excavator. There will be no drill and blast and no dozer ripping. Mining will be on a free dig basis.

There will be no treatment on site.

The gravel horizon will be excavated and stockpiled adjacent to the excavation. On sale, the gravel will be loaded onto trucks using either the 30 tonne excavator or a 24 tonne front end loader. Bucket tonnages measured with a weigh scale.

4.4 Depth of the Historical and Proposed Excavation

The DMSF owned farmlet was historically mined for gravel, date unknown. The historical workings are roughly 0.4 to 1.3m deep and the outline of the historical quarry is displayed in figures 2 to 5 above.

The maximum depth of gravel unearthed in the exploration pits shows the gravel to be to a maximum depth of 1.6m with approximately 100 to 200mm of overburden (refer plans 4&5 above).

Therefore allowing for the following below, it is expected that the DMSF Burracoppin Gravel Quarry will be mined to a maximum depth of 2.1 meters.

- 1 1.6 m maximum depth
- 2 0.2 m maximum overburden
- 3 0.3 m operator error, (allowance)
- 4 Total = 2.1 m

4.5 Depth and nature of the overburden

The exploration pits, show the soil profile to be a thin zone of largely yellow to greyish gritty clay 100 to 150mm in thickness with minor (5 to 12%) gravel residues. The overburden appears to be a weathered to clay residue of the underlying granite.

The strongly weathered granite penetrates up to 2 meters depth within the proposed pit area.

In 2 separate locations the overburden increases to a maximum of 300mm however this is more of a local anomaly than common place within the proposed pit area.

The entire pit has an area of 25,500m², hence at an average of 150mm in thickness and a bulk density of 1.6t/m³ the total topsoil and OB for the project = 6,000 tonnes or approximately 1,000 tonnes per mining parcel. This volume will easily fit into the proposed TS & OB windrow stockpiles.

4.6 Method by which existing vegetation, TS & OB will be removed

DMSF - Burracoppin Gravel Quarry

Figure 5 The ortho-rectified image of the mine layout

4.6.1 Existing Vegetation within the proposed mining area

Figure 7, below, accurately & clearly displays the vegetation within the proposed mine layout area.

The majority of the area (approximately 70%) is completely cleared of vegetation and would be immediately suitable for farming. The southern portion was completely cleared however has a few years of regrowth. My comment on this area is "It is as though when the farmer aged he couldn't be bothered to squeeze his machinery into the tight southern portion."

The area of regrowth is consistent with the classification of "Scattered Vegetation" depicted in Table 1 (page 6, not referenced) within the Native Vegetation Handbook for the Shire of Merredin, authored by Sarah J Weaving.

Scattered Vegetation is defined by S Weaving as:

- No understory
- Parkland cleared, ie at most scattered single trees
- No significant signs or chance of regeneration

The sparse vegetation consists of scattered bushes and shrubs and also some poison weed that is detrimental to sheep and cattle.

Table 1.

Vegetation classed as "remnant vegetation" has one or more of the following characteristics (Beeston *et al.*, 1993) :

- Most closely reflects the natural state of vegetation for a given area.
- Has an intact understorey (if forest or woodland).
- Has minimal disturbance by agents of human activity.

Vegetation classed as "modified vegetation" has one or more of the following characteristics:

- Degraded understorey (ie. reduction in the number of native species, includes weeds).
- Obvious human disturbance- clearing, mining, grazing, weeds.
- Affected by salt.
- Narrow corridors of vegetation (usually along roads and railway lines or windbreaks), which are more likely to be affected by edge effects.

Vegetation classed as "scattered vegetation" have:

- No understorey.
- Parkland cleared ie. are scattered single trees
- No significant signs or chance of regeneration.

Table 1 Remnant Vegetation Classification Table (Beetson et al 1993)

4.6.2 Method of clearing OB and topsoil

As a commodity, gravel is sought after however does not command a high price. Therefore, in order to reduce additional costs, ie double handling of the gravel the mining plan is to compartmentalise the mining into 6 panels of approximately 50m in length, N to South.

The overburden and topsoil from each mining panel, 1 panel at a time, will be stockpiled on the eastern side of the excavation as shown in Figure 4 above.

It is planned that the scrub, the topsoil and the overburden contained within the pit boundary for each separate panel will be removed, scraped off using a either front end loader or an excavator.

The topsoil will then be stored in windrows, at a distance of approximately 10m east of the pit. The plan is to allow the excavator to excavate the gravel from the last slice of the panel and side-cast onto the strip between the pit design and the windrow enabling access for trucks to remove the remaining excavated gravel.

The ore will be mined in strips approximately 10 m wide starting from the west and stockpiling the ore on the eastern side. Once a 50m (N-S) panel of gravel is removed the plan is to immediately rehabilitate the exhausted panel of the quarry.

Rehabilitation will be completed by pushing the scrub remnants, the topsoil and the overburden back into the shallow excavation and then scarifying and seeding the remnant surface and the quarry to promote regrowth.

4.7 Access, thoroughfares to be constructed and truck volume

4.7.1 Project Access

Access will be through a farm boundary gate, in the southern portion of the property, via the bitumised portion of the Goldfields highway, north of the Great Eastern Highway (refer figure 5 above).

4.7.2 Project roads

Figure 5 also displays the existing farm track that will be upgraded and used as the mine road. Truck turning areas will be required and constructed at the windrow openings to enable access for trucks to remove the stockpiled gravel.

4.7.3 Number and size of trucks and the route leaving site

It is difficult to forecast the average number of trucks entering and exiting the site. Many factors influence this forecast, sales volume, duration to complete the round trip (quarry to destination and return) and sales frequency. If one estimates the maximum set at 2,000 tonnes per day this equates to 33 trucks per day.

The trucks that will be used are 50 to 60 tonne side and rear tippers, truck and trailer. They are industry standard trucks for the Wheatbelt and they will either go east on the Gt Eastern highway or they will head west.

Gravel use is widespread throughout the Wheatbelt and the gravel will likely be used by farmers, small business and the local government.

4.8 Improvements

There is no plan for any buildings, water supply, treatment plant, tanks or other improvements to be built on the mining project.

4.9 Drainage

The proposed quarry sits on the shoulder of a broad and gently sloping hill and as such has excellent drainage into an existing dry creek bed (refer figures, 2 to 5).

On completion the quarry should present an excellent trap for modest amounts of meteoric water. There will not be enough volume for standing pools or dams of water however there will be additional to promote regrowth in the rehabilitation areas.

4.10 Measures to minimise nuisance, erosion and general public safety issues

4.10.1 Sand drift and dust

Sand drift is not expected to present an issue as there is no distinct sand that will be mined. The gravel to be mined has a proportion of inherent clay and once the stocks get wet the clay forms a crust which inhibits the creation of large volumes of dust that might create an issue.

Also, the quarry is approximately 100m from the boundary fence therefore is highly unlikely to impact outside of the farm.

There are no adjacent neighbours, only the highway to the east and the railway to the west.

There will be signage at the main and only entrance to the project. The Signage will stipulate the (PPE) personal protective equipment measures to be used by personnel on site and approved visitors whilst the quarry is operational.

4.10.2 Erosion

The proposed quarry will be mined to a maximum depth of 2.1 m with the walls on a slope angle of 45 degrees. The natural rill angle for this material is 38 degrees therefore the potential peripheral erosion of the pit is close to nil.

4.10.3 Watercourse siltation

This is not applicable. There is a creek bed nearby however this is for rain event runoff and does not contain water for 99.99 % of the year.

4.10.4 Dangers to the General Public

There will be signage at the main and only entrance to the project restricting access to the project and warning of potential hazards. The Signage will stipulate the (PPE) personal protective equipment measures to be used by personnel on site and approved visitors whilst the quarry is operational.

4.11 Measures to comply with the Noise Regulation Act 1997

Table 3 Table of indicative Construction Equipment & Noise Levels

A comparison of the tables displays the fact that the maximum volume of the equipment marginally exceeds the allowable limit however the volume measurements were taken from externally on board positions on the machinery. The volume levels drop significantly when the measurements are taken at a distance of 10m from the machinery.

At no time should an employee or visitor be within 10m of the operating machinery.

The Signage will stipulate the (PPE) personal protective equipment measures to be used by personnel on site and approved visitors whilst the quarry is operational.

4.12 Report detailing "the existing vegetation and the anticipated effect the proposed excavation will have on the environment in the vicinity of the land."

4.12.1 Existing Vegetation

The DMSF owned property P061250 Lot 812 was historically was completely clear-felled for farming purposes. After this event there was some regrowth on the periphery of the farm boundary.

Figures 6 & 7, below, and accurately & clearly displays the vegetation within the proposed mine layout area.

As shown in figure 8 below, the majority of the area (approximately 70%) is completely cleared of vegetation and immediately suitable for farming. The southern portion was completely cleared however has a few years of regrowth.

My comment on this areas is "It is as though when the farmer aged he couldn't be bothered to squeeze his machinery into the tight southern portion."

The area of regrowth post farming is consistent with the classification of "Scattered Vegetation" depicted in Table 1 (page 6, not referenced) within the Native Vegetation Handbook for the Shire of Merredin, authored by Sarah J Weaving (refer table 1).

Scattered Vegetation is defined by S Weaving as:

- No understory
- Parkland cleared, ie at most scattered single trees
- No significant signs or chance of regeneration

The sparse vegetation consists of scattered bushes and shrubs and also some poison weed that is detrimental to sheep and cattle.

Figure 6 A photograph of the vegetation on P061250 lot 812 displaying sample pits

4.12.2 The effect of the Quarry on the surrounding land

When calculating the effect of the proposed excavation one must consider the Sir Charles Lyall phrase circa 1830 when he wrote "the present is the key to the past".

There is a historical excavation similar in size to the one proposed herein that has been displayed on many images in this report. (refer image 22 below).

Figure 7 Close up image of the land surrounding the Historical Gravel Quarry

The presence of a historical quarry similar in size to that proposed herein provides certainty that the proposed gravel quarry will have no detrimental effect on the surrounding land.

4.13 Details of the existing shrubs & trees & measures to minimise destruction of existing vegetation

There are no trees on the block, the vegetation consists of regrowth. The dominant species is commonplace in the Merredin and Burracoppin district in sandy gravels:

- 1 Predominantly (+75%) Acacia bushes and shrubs.
 - a. Dominantly Acacia Acuminata
 - b. Some Acacia Lafyocalic
- 2 Minor Casurina bushes
 - a. Allacasurina Compustrus
 - b. Allacasurina Acudevalvus
- 3 Grasses weeds
- 4 Poison bush (Gastrolobium)

Measures to minimise the impact of clearing are as follows:

- 1 The containment of clearing to within the open pit shell
(Reproduced from point 9 page 8 of this report)
Clearing of the OB & TS will occur within 6 designed panels and contained to within the pit design. This effectively breaks the 300m long pit into 6 panels.
(Refer figure 4)

Each panel is approximately 50m long and will be mined from the South to North.
- 2 The use of existing roads and tracks
The use of existing roads and tracks will minimise additional clearing required.
- 3 The "Panel" mining style
The panel system ensures that only the required portions of the pit will be cleared and mined, instead of clearing a large area that may be outside of the required and economic boundaries.
- 4 Not erecting infrastructure
As the mining will be spasmodic, there will be no requirement for infrastructure and this measure will also minimise clearing requirements.

4.14 Measures to Screen the Excavation Site

The excavation site is wedged between a main railway and a main highway the factors listed below will reduce the visibility of the site from both transport systems. (Refer figure 8 below)

- 1 The location of the quarry is in the middle of the land parcel and therefore the excavation will occur from 140m to a minimum of 70m from the north side of the highway.
- 2 The Stockpiles of OB and TS are located on the eastern side and will screen the active mining area from the highway. It is expected that the stockpiles will be approximately 3 m high. (refer figure 10 below)
- 3 There is regrowth vegetation between the pit and the highway at the closest point.
- 4 The bushy Acacia regrowth in the wet areas provided by the historical pit, on the periphery within and just outside of the historical pit, will provide a bush screen between the pit and the railway line.

5 Rehabilitation and Decommissioning Program

This Rehabilitation and Decommissioning Program ("RDP") has been prepared by X2M Exploration to Mining in support of a Extractive industries Licence for the Derek Mason Super Fund (DMSF) owned farm which contains the Burracoppin Gravel Project (the "Project") of DMSF.

The DMSF farmlet, Plan number 061250 Lot number 812, is located approximately 20km east of the township of Merredin on the north side of the Great Eastern Highway.

The entrance to the project is via the bitumised portion of the Goldfields Road to the north of the Great Eastern highway (see Figures 1 to 3 below).

Figure 9 DMSF – Burracoppin Gravel Quarry – Project Location Diagram

The scope and structure of this RDP is as follows:

- 1 Outline the objectives of the Rehabilitation and Decommissioning Program
- 2 Whether Rehabilitation will occur progressively or on completion of the project
- 3 The Restoration Process
 - a. How Mining faces are made safe and batters sloped
 - b. Top-soil placement and revegetation
 - c. Trees and shrubs to be planted and other landscaping features developed
 - d. Scarification of unused tracks and disturbed areas
- 4 Maintenance of rehabilitated areas
- 5 Removal of buildings, plant, waste and final site clean-up

5.1 The Objectives of Rehabilitation and Decommissioning Program

On completion of the mining, the objective of the Rehabilitation and Decommissioning Program (RDP) the area of will be to allow the area to regenerate to the pre farming natural state.

Decommissioning will consist of removing the excavator and trucks from site once the rehabilitation program is completed. There will be no buildings or infrastructure associated with this quarry.

The following objectives have been derived for rehabilitation and decommissioning of the area disturbed by the project:

- The mine site will be safe to humans and fauna
- Mining and rehabilitation will create a landform that is stable and with land use capabilities and/or suitabilities as determined in the Rehabilitation Management Plan (RDP)
- Mine wastes and disturbed land will be rehabilitated so that they are non-polluting and self-sustaining or to a condition where the maintenance requirements are consistent with an agreed post-mining land use
- Surface and ground waters that leave the project area will not be degraded compared to their condition prior to the commencement of mining operations.
- Current and future water quality, other than water quality impacts associated with subsequent land users, will be maintained at levels that are within defined water quality criteria
- Hazardous materials will be identified and adequately managed to ensure the site is non-polluting
- Revegetation will consist of flora that is suitable for the gravelly granitic soil of the Merredin district

5.2 Restoration timetable of the excavation site

5.2.1 Restoration Timetable

The DMSF Burracoppin Gravel Quarry will be mined to a maximum depth of 2.1 meters (refer 4.4 above), which allows for operator error. The maximum depth of gravel unearthed in the exploration pits shows the gravel to be to a maximum depth of 1.6m with approximately 100 to 200mm of overburden.

The DMSF Burracoppin Gravel Quarry will be mined to a maximum depth of 2.1 meters.

- 1.6 m maximum depth
- 0.2 m maximum overburden
- 0.3 m operator error, (allowance)
- Total = 2.1 m

Regarding duration of the project, it is anticipated that the quarry will be spasmodically mined, that is as and when a contract for gravel arises. At this juncture there are no live contracts for gravel, therefore duration of the project is expected to be broadly in the order of 10 years.

Figure 12 DMSF Burracoppin Gravel Quarry – Diagrammatic Mining Sequence

5.2.2 Progressive Rehabilitation Plan

The DMSF proposes a progressive rehabilitation plan. The progressive plan ensures that lessons can be learnt from the initial rehabilitation episodes. For example the best plant species to suit the gravelly sands and how deep to scarify. The lessons learned from rehabilitation of the initial panels will ensure that when mining is completed in the Burracoppin Gravel Quarry, the area will have effective regeneration of flora.

As stated in 5.2.1 above the DMSF has no live contracts for gravel hence it is expected that the project may last for 5 to 10 years.

The planned pit is approximately 300m long. The plan is to mine 6 panels each approximately 50m long, from the south to North and progressively rehabilitate the panels once excavation and sales of the gravel from that panel is completed.

The excavation plan is displayed in figure 14 above. The sequence will be as follows:

- 1 Remove the overburden from the initial (50m S-N) panel of gravel. The overburden and topsoil will be stockpiled on the eastern side of the excavation.
- 2 The gravel will then be mined in strips approximately 10m wide starting from the south west corner and completing in the north east corner of the panel. The mined gravel will be stockpiled immediately adjacent from where it was excavated, essentially sitting on-top of the next strip of ore to be mined from the same panel.
- 3 Therefore one strip of the panel will be opened and available for sale and when the strip of stockpiled gravel is sold and removed the next strip of gravel can be excavated.
- 4 Once exhausted of gravel, each panel of the pit will be progressively rehabilitated.

5.3 The Restoration Process

5.3.1 How Mining faces are made safe and batters sloped

Mining faces of the completed quarry will generally be less than 1 meter high to a maximum height of 1.1m. During mining the batters will be sloped to less than the natural rill angle of 38 degrees, using the same excavator that is used for mining.

The angle of <38 degrees over such a shallow height (<1.1m) will provide a stable landform that can sustain regeneration and will pose no threat to humans or fauna.

5.3.2 Top-soil placement and revegetation

Prior to mining, a 50m long (South to North) segment of the pit will be cleared of topsoil (TS) and overburden (OB). The topsoil will be stockpiled as a windrow to the east of the excavation as per steps 1 to 4 of figure 14 above.

Upon completion of a panel for both excavation and sales and then completion of flattening the batter angles, the TS and OB will be re-spread over the excavated pit area by dragging the TS and OB with the excavator bucket. On completion the pit area will be scarified with the excavator teeth. Scarified is when the surface is ripped so that seeds and meteoric water can get trapped, to ensure they don't runoff and accumulate in a main trap area. This will promote seed germination and an even regrowth throughout the mined area.

5.3.3 Landscaping features developed

There are no plans for landscaping features other than making the site safe for humans and fauna and promoting the growth of local vegetation.

5.3.4 Soil type and suitable Flora

Once the topsoil and overburden has been re-spread over the quarry area re-seeding with native seeds will occur. Not all trees can grow in the soil of the DMSF property. Common tree species that can grow well in the sandy granitic soils of the property are:

- ***Eucalyptus loxophleba ssp lissophloia* (Smooth-barked York Gum)**
- ***Allocasuarina sp. Sheoak***
- ***Acacia acuminata***
- ***Allacsurina compestrus***

In the Wheatbelt seeds can be collected along less well travelled backroads between the months of January and March. It is at this time that the roadside trees drop their seeds onto the roads.

Seeds will be collected and stored for revegetation after the rehabilitation and decommissioning steps are completed.

There are no plans to plant trees and or shrubs during the rehabilitation. The reason for this is review of the historical excavation site adjacent to the proposed site.

The area was less than optimally rehabilitated however substantial revegetation is visible refer figure 9 above. It is expected that with the substantive proposed measures taken, as above, rehabilitation will take hold swiftly and flourish.

5.3.5 Rehabilitation lessons from the Historical pit

The historical pit (HP) displays areas of both excellent and poor rehabilitation and excellent lessons can be learned from this poignant example.

The peripheral portions of the HP feature excellent regrowth. The main reason for this is obviously the trapping of water, seeds and detrital matter, giving the vegetation the opportunity to take root.

In the central portions of the HP mined area the regrowth has been slow to regenerate. The main issue is the smoothness of the ground surface. In this area the water, seeds and detrital matter run off during meteoric events and do not get trapped.

The proposed scarification will promote regrowth by limiting the runoff. Hence the wind will blow the seeds and detritals in they will get trapped and during meteoric events the ensuing water will provide the opportunity for the seeds to germinate and take hold.

5.3.6 Rehabilitation Plan for the historical pit

As a part of the rehabilitation process of the Burracoppin gravel quarry, the DMSF will ensure that the central portion of the HP, that is currently smooth and lacking regrowth, will be scarified and reseeded with native flora suited to gravelly sandy soil type of the granitic terrane.

This is proposed to occur during rehabilitation of the first mining panel. In that way early understanding of the rehabilitation process will ensure that, on completion of the Burracoppin Gravel Quarry, the entire mined area including the HP area is fully rehabilitated.

5.4 Maintenance of Rehabilitated Areas

On completion of the mining project and rehabilitation of the quarry, the area will be fenced off to stop access to the area. Signage will be erected to deter the entering of humans and or machinery into the rehabilitated area.

All of the tracks, the vehicle access routes and the disturbed areas not in use will be scarified and reseeded.

It is expected that by the end of the first year the initial mining panel (panel 1) will be rehabilitated. It will be increasingly obvious which rehabilitation measures work well and which ones don't during the ensuing 4 to 9 years of the project.

5.5 The removal of buildings, plant, waste and final site clean-up

Please note, the Burracoppin Gravel Quarry will not have the resources of gravel to become a full time quarry. Best case scenario is that it will be worked spasmodically throughout the year, providing possibly 2 to 3 months of full time work. As such there is insufficient turnover to support setting up and maintaining on site infrastructure.

On completion of the project all buildings plant and waste will be removed from site. All of the cleared areas, tracks and roads other than the main property access road will be scarified and re-seeded to discourage entry by humans.

12.3 Rescinding of Policy 8.22 - Outbuildings in Residential Areas

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider rescinding Policy 8.22 – Outbuildings in Residential Areas.

Background

Shire of Merredin (Shire) Policy 8.22 – Outbuildings in Residential Areas requires applications for oversized outbuildings in Residential areas to be considered by Council rather than be approved at the officer level. With recent legislative changes Councils will no longer be able to have any input or decision-making authority with respect to applications for single dwellings and associated outbuildings.

Comment

Part 4 of the *Planning and Development Amendment Act 2023* Introduces a new section 257C which provides the ability for regulations to specify that certain types of development approval functions relating to single houses must be done by or on behalf of the Chief Executive Officer (CEO) of the local government.

The Planning and Development (Local Planning Schemes) Amendment (Single House Development) Regulations 2024, introduced changes to Schedule 2 of the Local Planning Scheme Regulations to specify that development approval functions for a single house development or any development associated with a single house such as additions, alterations, patios, carports and sheds where not otherwise exempt are to be done by the CEO of the local government or other local government officer/s authorised by the CEO. This will not apply to any heritage protected place.

This has the effect of removing elected members (Council) from the decision-making process with respect to applications for development (planning) approvals for single dwellings and

associated outbuildings. The new provisions are listed below and have the effect of requiring applications for development (planning) approval for single houses and associated outbuildings to be considered solely by the CEO or other authorised employee.

84A . Terms used

In this Division —

authorised employee means an employee of the local government authorised by the local government CEO under clause 84D;

prescribed development approval function means any of the following —

- (a) a function of the local government under clause 61A(2) or (4) or Part 8 or 9;*
- (b) a function of approving further details of any works or use under a condition of a kind referred to in clause 74(1) imposed on a development approval;*
- (c) a function of the local government under this Scheme that is ancillary or incidental to a function referred to in paragraph (a) or (b);*

prescribed single house development has the meaning given in clause 84B.

84B . Prescribed single house development

(1) In this Division, prescribed single house development means development that consists of —

- (a) the erection of, or alterations or additions to, a single house; or*
- (b) the erection or installation of, or alterations or additions to, any of the following that is ancillary or incidental to a single house —*
 - (i) an ancillary dwelling;*
 - (ii) an outbuilding;*
 - (iii) an external fixture;*
 - (iv) a boundary wall or fence;*
 - (v) a patio;*
 - (vi) a pergola;*
 - (vii) a verandah;*
 - (viii) a deck;*
 - (ix) a garage;*
 - (x) a carport.*

(2) Despite subclause (1), development in a heritage-protected place is not prescribed single house development .

84C . Performance of prescribed development approval functions in relation to prescribed single house development

(1) When a prescribed development approval function is performed in relation to prescribed single house development, the function must be performed for and on behalf of the local government by —

- (a) the local government CEO; or*

(b) an authorised employee.

(2) A prescribed development approval function cannot be performed by the local government in relation to prescribed single house development otherwise than in accordance with subclause (1) (for example, the function cannot be performed by the council of the local government or a committee of that council).

(3) In performing a prescribed development approval function for and on behalf of the local government in relation to prescribed single house development, the local government CEO or an authorised employee —

(a) is not subject to the direction of the council of the local government or a committee of that council; and

(b) may, if the performance of the function is dependent on the opinion, belief or state of mind of the local government, perform the function on the opinion, belief or state of mind of the CEO or authorised employee (as the case requires).

84D. Authorisation of employees

(1) The local government CEO may authorise any employee of the local government to perform prescribed development approval functions for and on behalf of the local government in relation to prescribed single house development.

(2) An authorisation under this clause must be in writing and may be general or limited to prescribed development approval functions of a specified class.

To date in line with Policy 8.22 Outbuildings in Residential Areas, applications for oversized outbuildings were considered by Council as part of the application for development approval process, following a formal 14-day notification in writing of adjoining property owners, to allow affected parties an opportunity to lodge objections prior to consideration of the application by Council.

Given the recent regulatory changes, this Policy is now ultra vires (inconsistent with legislation) and as such needs to be rescinded by Council, with all future applications of this nature being considered solely by the CEO and authorised employees.

The Local Planning Framework consists of the Deemed Provisions, Scheme text, Scheme maps as well as the R Codes. The Shire's Executive Manager Development Services (EMDS) sought clarification as to whether existing delegations from Council would allow applications for development approval for oversized outbuildings to be considered and approved/refused at the officer level. All future applications will be considered against the principles contained within the R Codes.

Advice received from the Shire's Planning Consultants as well as Department of Planning, Lands and Heritage (DPLH) officers is that a specific delegation is not required in this case as the head of power for the development application assessment and approval/refusal is provided for directly to the CEO, by the regulatory changes.

However, appropriate delegations will need to be implemented between the CEO and any authorised employees.

8.22 Outbuildings in Residential Areas

Objectives:

To ensure a level of consistency with the size, the height and setbacks of outbuildings in residential areas, to minimise any adverse impact on the amenity to neighbouring property owners and to contribute towards the aesthetics of the streetscape.

Definitions:

- Residential Areas:

Any Residential, Special Residential and Rural Residential zones.

- Outbuilding:

Any Class 10a building under the current National Construction Code which is not connected or abutted to a dwelling.

- Reflective Materials:

Not limited to, but includes the following:

- Zinalume® or similar product;
- Any shiny metallic finish; and
- White coloured metallic materials.

- Maximum single outbuilding m²:

The maximum floor area of any single outbuilding measured from the external edges of the wall cladding or in the case of an unenclosed building where the external edges of the wall cladding would be if the structure was enclosed.

- Aggregate total of all outbuildings m²:

The total floor area of all outbuildings located on the site and measured from the external edges of the wall cladding or in the case of an unenclosed building where the external edges of the wall cladding would be if the structure was enclosed.

Policy:

Outbuildings that satisfy the following development criteria may be approved by the Executive Manager of Development Services:

- Outbuildings which are enclosed are to be located behind the primary street setback in accordance with the Shire of Merredin Local Planning Scheme No 6 (as amended) and the State Planning Policy 3.1 – Residential Design Codes;

- b) All enclosed outbuildings to have a minimum setback of 1500mm from any secondary street, right of way or private street frontage;
- c) Supports to an open carport, may be placed up to a boundary, other than a primary street, secondary street, right of way or private street provided they are of non-combustible material and the roof-line of the carport is setback a minimum of 500mm from that boundary in accordance with the National Construction Codes (BCA).
- d) Outbuildings comply with the current National Construction Code (BCA)
- e) An application that indicates that reflective materials are to be used for wall and or roof cladding and in the opinion of the Executive Manager of Development Services, is likely to cause a nuisance to neighbouring property owners may be refused.
- f) If in the opinion of the Executive Manager of Development Services, an application that indicates the use of reflective materials for wall and or roof cladding is likely to cause a nuisance to neighbouring property owners,
 - May be refused; or
 - The applicant may wish to provide clear and fully detailed documentation to show how any reflective issues will be addressed so as not to cause a nuisance to neighbouring property owners; or
 - In the opinion of the Executive Manager of Development Services, any reflective issues that may arise and to cause a nuisance to neighbouring property owners is likely to be minimal, the property owner/s may enter into an agreement with Council, at the CEOs discretion and at the property owner's expense, that should there be a valid complaint, that the owner/s will immediately do such things to minimize the nuisance, by, but not limited to painting or screening with Council's prior approval.
- g) Outbuildings are constructed of all new materials; or
- h) Where pre used materials are proposed to be used,
 - The applicant will be required to provide sufficient detail, specifications and photos to demonstrate to the Executive Manager of Development Services that the appearance of the proposed pre used materials will not detract from the streetscape; or
 - The applicant may need to provide detail of how they intend to treat the used materials so that the finish will meet an acceptable standard; and
 - The applicant may be required to provide Certification from a Practising Structural Engineer as to the structural adequacy of the design and or materials proposed to be used.
- i) Out buildings are not for habitable or commercial purposes;

- j) The construction of an outbuilding does not reduce the amount of open space required by the Residential Design Codes to less than the prescribed amount;
- k) Outbuildings are of size in area, or the aggregate total of size in area of all the outbuildings on the lot and the wall and ridge heights comply with the values contained in Policy Table 8.22 Outbuildings in Residential Areas.
- l) For minor variations the Executive Manager of Development Services may consider Code Variations in accordance with the Residential Design Codes of Western Australia (RDC) and view such applications on the proposed project's merits as detailed within the RDC.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to review and consider adopting the proposed 5-Year Regional Road Group (RRG) Program 2024-29.

Background

The Shire of Merredin (the Shire) receives annual funding of approximately \$500,000 from Main Roads WA under the Regional Road Group (RRG) Program, which represents 2/3 of the total construction costs, with the remaining 1/3 (\$250,000) of the contribution to be provided by the Shire.

The Shire is required to submit Multi Criterion Assessment (MCA) forms each year for proposed projects. One of the questions on the MCA form under the Project Pre-Construction Information is “Has Council endorsed your 5 Yr RRG program at Council Meeting?”, as illustrated in the figure below.

Project Pre-Construction Information:		
Task	Criteria	Yes / No
5 Yr RRG Program	Has Council endorsed your 5 Yr RRG program at Council Meeting?	
Onsite Assessment	Have you conducted a full onsite Project Assessment prior to Cost Estimate to check <u>ALL</u> Project Specifics?	
Cost Estimate	Have you broken down your Cost Estimate on your Own Budget Cost Estimate Sheet - based on your Onsite Assessment Findings?	
Gravel Supply	Have you secured suitable Qty and Quality Pavement Material for Project?	
	What is the volume of Basecourse Material Required for Project (Loose m ³)	

Comment

Endorsing the 5-Year RRG Program by Council was introduced in the 2023/24 financial year, as a new compliance requirement. In November last year, Council endorsed the 5-Year RRG Program for 2023-28 which focused on upgrading and widening Crooks Rd; since then, the Shire has secured independent funding from Federal Government under “Safer Local Roads and Infrastructure Program”. This presents an opportunity for Council to focus its attention on other priority road projects.

The revised 5-Year program focuses on two roads with the Shire, these are Chandler – Merredin Rd and Knungajin Rd. These are busy school bus routes, and heavily used during the harvest season. The proposed work is to widen these from 6.0 m seal to 7.0m and apply rubber seal to the full width.

Risk Implications

If the Officer's Recommendation is not accepted, this will make the Shire not compliant from a governance perspective as the roadworks would not have received Council endorsement, which also potentially affects the ability of the Shire to secure funding.

The risk rating of not adopting the proposed program is considered to be Medium (8) determined by a likelihood of Unlikely (2) that Main Roads WA will refuse Council's proposed amendments and a consequence of Significant (4). The risk will be eliminated by adoption of the Officer's Recommendation. Council should also note that it has the option to write to Main Roads WA and amend or make changes to the proposed program if required at any time.

Financial Implications

The financial implication from this Program that Council must commit to allocating the 1/3 contribution towards the proposed RRG Program. This could be funded from the R2R Program or from municipal funds. This will limit Council's ability to fund other capital works road projects not included within the RRG program.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider assisting Central East Accommodation & Care Alliance Inc (CEACA) and St Mary’s School by completing sealing works on their behalf utilising competitive rates obtained by the Shire of Merredin (the Shire) through our Annual Sealing Contract.

Background

The Shire received a request from the following entities requesting assistance with sealing works:

- Hutton & Northey to seal the area between East Barrack St (Mitchell St) and the front of their building;
- St Mary’s School to seal their internal carpark off Pioneers Rd; and
- CEACA to seal Margaret Lane and Hopkins Lane inside their retirement village.

Due to difficulties engaging contractors for small jobs, they approached the Shire for assistance. The Shire provided them with quote based on our annual sealing contract to undertake the required works. The Shire’s contractor has confirmed they can undertake the works in addition to the Shire’s sealing program, however, they are reluctant to deal directly with the school or CEACA.

St Mary’s School and CEACA have received quotes provided by the Shire and indicated they intend to proceed with the proposed work. Hutton & Northey opted to decline and do the work at a later stage.

Comment

The Shire can assist CEACA and St Mary's School to complete required seal; this will provide them with a significant time and cost savings compared to them arranging a sealing contractor to come specifically for their small sealing jobs. The Shire has undertaken a similar role previously and auspiced works on behalf of the community.

Risk Implications

If the Officer's Recommendation is not accepted, this will most likely force CEACA and St Mary's School to either cancel these works leading to further deterioration of their paved surfaces or pay significantly higher price for the same outcome.

The risk rating of adopting the proposed recommendation is considered to be Low (2) as Council will invoice both CEACA and St Mary's School the full amount prior to starting the proposed work, this was determined by a likelihood of Unlikely (2) and a consequence of Negligible (1).

Financial Implications

The financial implication from the proposed work will be related to officer time to organise the required work in terms of purchase orders, and timing. To cover these costs an amount of \$200 Inc GST, will be added to final invoice issued to CEACA and St Mary's.

The total cost for the work is detailed in the table below:

Description	Contractor Quote \$ - Ex GST	Council Administration Fee \$ - Ex GST	Total Cost \$- Ex GST
CEACA - Margaret Lane	\$15,195.00	\$90.91 to \$181.82	\$15,285.91
CEACA - Hopkins Lane	\$8,610.50	\$90.91 to \$181.82	\$8,701.41
St Mary's Carpark	\$18,293.60	\$181.82	\$18,475.42
Total			\$42,462.74

The Administration Fee is based on the Shire Administration Charge and assumes that the time taken to arrange works, including invoicing and creditor payments, will be approximately 3.2 hours per agency. If CEACA only engage the Shire to auspice one lane repair, then they will be charged \$200 (inc GST) administration charge for the one road. If both lanes are repaired, there will be only one administration charge levied.

Considering the work is located on non-shire assets, it will be completed as external work. The following budget amendments will be required if the recommendations in this report are to be approved by Council.

Account #	Account Name	24-25 Budget (Current)	Additional (Income)/ Expense	24-25 Budget (Amended)
New Account to be created	External Works - Expenses	\$0	\$42,098.10	\$42,098.10
New Account to be created	External Works - Income	\$0	(\$42098.10)	(\$42,098.10)

Executive Decision

Legislative Requirement

For Council to receive the Statements of Financial Activity and Investment Report for the month of September 2024, and be advised of associated financial matters, including consideration of proposed budget amendments.

Background

The Statement of Financial Activity, Detailed Statements, Capital Works Progress and Investment Report are attached for Council's information.

Comment

Statement of Financial Activity

Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires the Shire to prepare a monthly statement of financial activity for consideration by Council within 2 months after the end of the month of the report. These reports are included at Attachments 14.1A to D inclusive.

It should be noted that fixed asset reconciliations are delayed annually until the sign off of the Annual Financial Statement by the Office of the Auditor General.

Policy Implications

Nil

Statutory Implications

As outlined in the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

Strategic Implications

Ø Strategic Community Plan

Theme:	4. Communication and Leadership
Service Area Objective:	4.2.2 The Shire is progressive while exercising responsible stewardship of its built, natural and financial resources
Priorities and Strategies for Change:	Nil

Ø Corporate Business Plan

Theme:	4. Communication and Leadership
Priorities:	Nil
Objectives:	4.2 Decision Making

Sustainability Implications

Ø Strategic Resource Plan

Compliance with the *Local Government (Administration) Regulations 1996* and to also give Council some direction regarding its management of finance over an extended period of time.

Risk Implications

The Statement of Financial Activity is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer (CEO) has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates.

Materiality reporting thresholds have been established at 10% or \$10,000 whichever is greater, for operating and capital, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud.

The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* regulation 5, seek to mitigate the possibility of this occurring.

These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.

There is a compliance risk associated with this item as the Shire would be contravening the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* if this Item was not presented to Council. The risk rating is considered to be Low (4), which is determined by a likelihood of Unlikely (2) and a consequence of Minor (2). This risk will be eliminated by the adoption of the Officer's Recommendation.

Financial Implications

The adoption of the Statements of Financial Activity is retrospective. Accordingly, the financial implications associated with adopting this are nil.

In regard to the proposed budget amendments, the addition of income and expenditure to the Private Works GLs does not have any overall impact on the budget.

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 00 January 1900

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

FM Reg 34 (2)(b) **3 EXPLANATION OF MATERIAL VARIANCES**

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date actual materially.
The material variance adopted by Council for the 2024-25 year is \$10,000 and 10.00% whichever is the greater.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Total receivables general outstanding						940,494

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

All debenture repayments were financed by general purpose revenue.

Self supporting loans are financed by repayments from third parties.

KEY INFORMATION

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to receive the Statements of Financial Activity and Investment Report for the month of October 2024, and be advised of associated financial matters, including consideration of proposed budget amendments.

Background

The Statement of Financial Activity, Detailed Statements, Capital Works Progress and Investment Report are attached for Council's information.

Comment

Statement of Financial Activity

Regulation 34 of the *Local Government (Financial Management) Regulations 1996* requires the Shire to prepare a monthly statement of financial activity for consideration by Council within 2 months after the end of the month of the report. These reports are included at Attachments 14.1A to D inclusive.

It should be noted that fixed asset reconciliations are delayed annually until the sign off of the Annual Financial Statement by the Office of the Auditor General.

Policy Implications

Nil

Statutory Implications

As outlined in the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

Strategic Implications

Ø Strategic Community Plan

Theme:	4. Communication and Leadership
Service Area Objective:	4.2.2 The Shire is progressive while exercising responsible stewardship of its built, natural and financial resources
Priorities and Strategies for Change:	Nil

Ø Corporate Business Plan

Theme:	4. Communication and Leadership
Priorities:	Nil
Objectives:	4.2 Decision Making

Sustainability Implications

Ø Strategic Resource Plan

Compliance with the *Local Government (Administration) Regulations 1996* and to also give Council some direction regarding its management of finance over an extended period of time.

Risk Implications

The Statement of Financial Activity is presented monthly and provides a retrospective picture of the activities at the Shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer (CEO) has implemented internal control measures such as regular Council and management reporting and a quarterly process to monitor financial performance against budget estimates.

Materiality reporting thresholds have been established at 10% or \$10,000 whichever is greater, for operating and capital, to alert management prior to there being irreversible impacts.

It should also be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud.

The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the responsibility of the CEO as laid out in the *Local Government (Financial Management Regulations) 1996* regulation 5, seek to mitigate the possibility of this occurring.

These controls are set in place to provide daily, weekly, and monthly checks to ensure that the integrity of the data provided is reasonably assured.

There is a compliance risk associated with this item as the Shire would be contravening the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* if this Item was not presented to Council. The risk rating is considered to be Low (4), which is determined by a likelihood of Unlikely (2) and a consequence of Minor (2). This risk will be eliminated by the adoption of the Officer's Recommendation.

Financial Implications

The adoption of the Statements of Financial Activity is retrospective. Accordingly, the financial implications associated with adopting this are nil.

In regard to the proposed budget amendments, the addition of income and expenditure to the Private Works GLs does not have any overall impact on the budget.

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 00 January 1900

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Measurement of employee benefits

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the local governments' operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 8 - Other assets.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Accrued Income						633,445
Total receivables general outstanding						1,358,742

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Total other current assets	99,323	16,334	(54,308)	61,349

Amounts shown above include GST (where applicable)

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Total payables general outstanding						2,973,732

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

All debenture repayments were financed by general purpose revenue.

Self supporting loans are financed by repayments from third parties.

KEY INFORMATION

The City has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Policy Implications

Nil

Statutory Implications

As outlined in the *Local Government Act 1995* and the *Local Government (Financial Management) Regulations 1996*.

Strategic Implications

Ø Strategic Community Plan

Theme:

4. Communication and Leadership

Service Area Objective: 4.2.2 The Shire is progressive while exercising responsible stewardship of its built, natural and financial resources

Priorities and Strategies for Change: Nil

Ø Corporate Business Plan

Theme: 4. Communication and Leadership

Priorities: Nil

Objectives: 4.2 Decision Making

Sustainability Implications

Ø Strategic Resource Plan

Compliance with the *Local Government (Administration) Regulations 1996* and to also give Council some direction regarding its management of finance over an extended period of time.

Risk Implications

There is a compliance risk associated with this item as the Shire would be contravening the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* if this Item was not presented to Council. The risk rating is considered to be Low (4), which is determined by a likelihood of Unlikely (2) and a consequence of Minor (2). This risk will be eliminated by the adoption of the Officer's Recommendation.

Financial Implications

All liabilities settled have been in accordance with the Annual Budget provisions.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider a review of the annual budget for the Shire of Merredin (the Shire), based on the year-to-date figures at 31 October 2024. It should be noted this will be the first of two budget review processes conducted during the 2024/25 financial year.

Background

Regulation 33A of the *Local Government (Financial Management) Regulations 1996* provides that the Council is required to conduct a review of its approved annual budget after considering the changes in its operating environment since the beginning of the financial year, with a view to forecasting the financial impacts likely to arise for the remainder of the year. This is required to be completed between January and March of each year.

With the current financial position of the organisation in mind, it has been decided to complete two reviews during the financial year. A further review will be conducted in March 2025, utilising end of month figures from February, which will fulfil our statutory compliance requirement.

Comment

Council is required to consider the submitted budget review and make a determination in relation to the outcomes and recommendations.

The review of the 2024/25 Annual Budget has been completed. A number of variations to existing budget allocations have been identified and included in the revised budget, which can be found in Attachment 14.4A.

It should be noted that actual costs presented in this document are representative of October 2024 end of month figures.

Issues and Options Considered

The budget review has comprised of:

- a review of the adopted budget and an assessment of actual results to date against that budget;
- an assessment and projection of likely results over the remainder of the financial year against the adopted budget; and
- Consideration of any issues not provided for in the adopted budget that may need to be addressed.

The review of the adopted budget has taken into account what has transpired in the first third of the year, the likely operating environment over the remaining part of the year, and the most likely impact on the Council's financial position.

The focus in this review has been on ensuring that there is sufficient operational capacity to deliver the services and budget programs as set out in the adopted 2024/25 Annual Budget and to accommodate events and issues that have arisen since budget adoption.

The most significant variations between the original adopted budget and the revised budget are detailed in the following sections.

Surplus Brought Forward

The actual surplus brought forward from 2023/24 has been confirmed at \$4,544,246 during the 2023/24 Audit. The figure considered during Budget adoption was higher (\$4,870,115), which has meant that \$325,869 has had to be found during the review to cover the shortfall.

Operating Income and Expenditure

Throughout the budget, a range of amendments are proposed. The key items of note are presented below:

Income

- The Financial Assistance Grant (General and Roads) due to be received is \$396,994 more than the original budget allocation.
- Rates income accounts have been amended to meet actual figures raised.
- Interest accounts have also been increased due to slightly higher than expected income for the period.
- Grants received for Gala Night and Australia Day have been included, with matching expenses also included.
- ROADM – Road Contribution Income (Ramelius income for Merredin-Naremben Rd works) has been increased due to higher than anticipated contributions during their close down period of operations.
- ROADM – Sale of Scrap has also had funds allocated due to an unbudgeted sale of scrap metal from the tip providing \$49,000 of income.

Expenditure

- ESL BFB – Maintenance Vehicles/ Trailers/ Boats has been increased due to issues with the Burracoppin Light Tanker and increased service pricing from suppliers.
- As increase has also been required to ESL BFB – Maintenance Plant and Equipment due to fire fighting foam supplies running low.
- ESL BFB – Plant & Equipment < \$1200 per item has been increased to purchase two extra respirators for each BFB unit, as well as couplings to ensure that DFES hoses can be attached to farm equipment if required.

- Funds have been moved from the Public Convenience operations accounts to the maintenance accounts to cover potential overspends.
- PWO – Protective Clothing has been increased to cover an overspend likely caused by change over of staff.
- POC – External Parts and Repairs has been increased due to a large number of repairs required early in the period meaning the account would likely overspend later in the year. The POC – Fuels and Oils account has been decreased to cover the increase mentioned above.

Income & Expenditure

- MRCLC Income and expense accounts have been reviewed and amended to match the changes to services that have occurred.
- Income and expenses related to the Cummings Street Units has been amended due to the delays that have occurred with settlement.
- SAN – Other Income has been significantly decreased due to a much smaller than anticipated first period.
- Income and expenditure relating to Cummins Theatre shows has been amended to match updated figures.

Capital Expenditure

Capital expenditure has various proposed amendments, the main items are outlined below:

- \$10,000 has been moved from SWIM AREAS – Building Capital to SWIM AREAS – Building Maintenance (Operational) as some of the works required are operational in nature.
- CBD Redevelopment – Town Centre – SOM has been increased, due to an error with the figures considered during budget development, whereby the total loan value (\$1,480,000) was not budgeted to be expended.
- The CBD Redevelopment – Visitor Centre Relocation account has been increased to allow for the construction of a footpath from the Visitor Centre to the Town Centre crossing. A matching income line has also been added in Function 12, as PTA have agreed to fund the project.
- Funds in PC041 – Water Tower Refurbishments have been split across two new accounts – PC041A and PC041B. This change has been made to assist with funding acquittals that will be required on completion of the project.
- Funds allocated to ADMIN – Building (Capital) for the installation of anchor points across multiple Shire buildings has been allocated to the correct buildings (Cummins Theatre and NMPS precinct) as per the quote received. It should be noted that the addition of anchor points to the MRCLC was outside the budget allocation for this financial year, however we will look to include this for 2025/26.
- Works to the old platform at the Railway Museum have come in at more than the budgeted figure, so funds have been reallocated from the remaining funds that were budgeted for the anchor point project.
- Minor amendments have been made to the footpath, kerbing and pram crossing budgets to meet the actual figures quoted – the total expenditure is still within the originally budgeted figure.
- Works to Brissenden Rd have come in under budget, so the account has been decreased to match the actual spend.

Policy Implications

Statutory Implications

As outlined in the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996*. Though this review will not meet our Statutory Compliance obligations given it is being held early in the financial year, Budget Review 2 scheduled for March 2025 will meet the prescribed compliance requirements.

Strategic Implications

Ø Strategic Community Plan

Theme:	4. Communication and Leadership
Service Area Objective:	4.2.2 The Shire is progressive while exercising responsible stewardship of its built, natural and financial resources 4.2.3 The Council is well informed in their decision-making, supported by a skilled administration team who are committed to providing timely, strategic information and advice
Priorities and Strategies for Change:	Nil

Ø Corporate Business Plan

Theme:	4. Communication and Leadership
Priorities:	P4.3 Maximising the value of Shire Assets
Objectives:	Nil

Sustainability Implications

Ø Strategic Resource Plan

Nil

Risk Implications

There is a compliance risk associated with this Item. The risk rating is considered to be Moderate (6), which is determined by a likelihood of Possible (3) and a consequence of Minor (2).

In the current financial climate, the purpose of this early review is to minimise the risk of issues arising later in the financial period. Should a review only be completed in the January – March period, there would be a risk of significant financial issues occurring and not being able to be rectified due to the late nature of the review.

Financial Implications

Suggested amendments to the 2024/25 Annual Budget, as outlined in Attachment 14.4A.

14.5 Quick Grant – Terms and Conditions Amendment

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider an amendment to the Quick Grant Terms & Conditions to include rules around sporting requirements.

Background

Each year, Council reviews and endorses the budget for the Community Funding Program. One key component of this is the allocation of any remaining funds from the program goes towards Quick Grants, which can be used for a range of community-driven initiatives.

As these funds vary from year to year, the Quick Grants pool can be flexible depending on the available balance.

Comment

For the 2024/25 financial year, the Shire has received three (3) requests for financial support from community members participating in state championships for their respective sporting endeavours.

These requests, totalling \$2,500 each, have been approved. However, an important point to highlight is that the current Terms & Conditions for the Quick Grant Program do not explicitly cover funding for individual sporting opportunities at the state championship level. This situation prompted the Administration to amend the Terms & Conditions to accommodate such requests.

While the funding approval is extremely beneficial for our community, the fact is that these requests do not align with the original Terms & Conditions which highlights a gap in the Program's framework. The Administration's decision to amend the Terms & Conditions to accommodate these types of requests is relevant, but it also highlights the review is required

to ensure they are broad and inclusive of diverse community needs, particularly in areas such as sports and individual achievement. It is proposed that the changes to the terms and conditions will take effect immediately if endorsed by Council.

Considering this, the Executive Manager Strategy and Community (EMS&C) is proposing a \$1,000 limit per sporting application for the 2025/26 financial year. This limit is intended to ensure fairness across all applicants and maintain the integrity of the Quick Grant Program, while still providing meaningful support to individuals pursuing excellence in their chosen sport. By setting a cap on the funding available per individual request, we can ensure that all members of the community, regardless of their sport, have an equal opportunity to benefit from the Program.

This approach helps to balance the needs of those pursuing state-level achievements with the broader goal of ensuring reasonable access to support for all community members.

Supporting our community members in their pursuit of sporting excellence, especially at the state championship level, can have lasting benefits for both the individuals and our community. It is important to ensure that we allow access to such opportunities and meet these requests reasonably, so that other community members who may need similar support are aware of the funding avenues available to them. By supporting individuals participating in state championships, we also set a strong example of Council's commitment to local talent and fostering community pride.

Purpose of Report

Executive Decision

Legislative Requirement

For Council to consider a revised Elected Member Training and Professional Development Policy which allows for the continuation of professional development within Elected Members and a revised CEO and Elected Member Attendance at Events Policy.

Background

Elected Member Training and Professional Development Policy

Policy 1.20 provides a framework for Elected Members to meet their statutory obligations for training and to undertake professional development to enhance their effectiveness.

In June 2019, the Western Australian Parliament passed the *Local Government Legislation Amendment Act 2019 (WA)* which introduced a number of provisions reforming aspects of the *Local Government Act 1995 (WA)* (the Act). The amendments came into effect immediately. The amendments provide for universal training for Elected Members.

The introduction of training requirements for Elected Members acknowledges the unique and challenging role Elected Members hold and aims to provide them with the skills and knowledge to be an effective Elected Member.

The Council Member Essentials course prescribed by the Local Government Administration Regulations has five training modules that must be completed within a year of being elected:

- (a) Understanding local government;
- (b) Serving on Council;
- (c) Meeting procedures;
- (d) Conflicts of interests; and
- (e) Understanding financial reports and budgets.

This amendment to the Act also requires local governments to report annually on Elected Member training as well as develop and adopt a professional development policy for its Elected Members.

All Elected Members have to complete the Council Member Essentials course unless, in the previous five years, they have passed the Diploma of Local Government 52756WA (Elected Member) or the course titled LGASS00002 Elected Member Skill Set. If required training has been completed within the five-year timeframe, then it is to be undertaken every second election.

Division 10 s.5.126 (2)(d) provides for a fine not exceeding \$5,000 for contravention of this section of the Act.

The changes to the Act also provide for the continuing professional development of Elected Members with the local government to prepare and adopt a policy in relation to this.

The Shire of Merredin (the Shire) policy is consistent with the Department of Local Government, Sport and Cultural Industries template policy which meets the requirements of the Act.

CEO and Elected Member Attendance at Events

It is a requirement in the Compliance Audit Return for local governments to prepare by absolute majority and publish an up-to-date version on their website a policy dealing with the attendance of Elected Members and the CEO at events.

The Shire policy is consistent with the Department of Local Government, Sport and Cultural Industries template policy for Attendance of the CEO and Councillors at events, which meets the compliance requirements under the Act.

Comment

Elected Member Training and Professional Development Policy

Majority of the contents of Policy 1.20 Elected Member Training and Professional Development remain unchanged from its previous version, however, a section of the Act has now been included under “Legislative Requirements” and further clarification has been added under “4.5 Funding” to give guidance for what to do if a request for professional development or training cannot be met within the budget allocation. The “Private vehicle” section under “4.6 Allowable expenses” has been updated to show that the Shire will provide a pool vehicle where possible and a hyperlink included to make it easier for Elected Members to find amounts for reimbursement. There have also been minor changes to fix grammatical and formatting errors.

CEO and Elected Member Attendance at Events

The contents of Policy 1.21 CEO and Elected Member Attendance at Events remain unchanged from its previous version, however, it has had one minor change moving a paragraph from the “Policy Scope” section and putting it under “Policy Purpose”.

Risk Implications

If Council does not adopt the attached policies, the Shire will be non-compliant in meeting its legislative requirements, which will be reportable in the 2024 Compliance Audit Return.

There is a compliance risk associated with this Item as the Shire would be contravening the *Local Government Act 1995*, if this Item was not presented to Council. The risk rating is considered to be Moderate (6), which is determined by a likelihood of Unlikely (2) and a consequence of Moderate (3). 1.20 Elected Member Training and Professional Development Policy

1. POLICY PURPOSE

Provide a framework for Elected Members to meet their statutory obligations for training and provide all Elected Members of the Shire of Merredin with the necessary professional development and training to support them in the discharge of their responsibilities, obligations and duties as an Elected Member.

2. POLICY SCOPE

This policy applies to all Elected Members.

3. LEGISLATIVE REQUIREMENTS

Local Government Act 1995 (the Act)

Part 5, Division 10 of the Act describes provisions related to the universal training of Councillors:

- Under Section 5.126 of the Act, each Councillor must complete training in accordance with the Regulations.
- Under Section 5.127 of the Act, the Chief Executive Officer must publish a report on the local government's website within one (1) month of the end of financial year detailing the training completed by Councillors.
- Under Section 5.128 of the Act, a local government must prepare and adopt a policy in relation to the continuing professional development of Councillors.

Local Government (Administration) Regulations 1996

4. POLICY STATEMENT

4.1 Mandatory Training

An Elected Member must complete the course Council Member Essentials training which consists of five modules, within a period of twelve months beginning on the day on which the Elected Member is elected. An Elected Member is exempt from the requirements if they have passed the following courses within a period of five years ending immediately before the day on which the Elected Member commences their term of office:

- Council Member Essentials;
 - 52756WA Diploma of Local Government (Council Member);
- Or
- The Elected Member passed the course LGASS00002 Council Member Skill Set before 1 July 2019 and within a period of five years ending immediately before the day on which the Elected Member commences their term of office.

The mandatory training is valid for five years so an Elected Member will only be

Formatted: Font: Italic

Formatted: Indent: Left: 0 cm

required to undertake the training at every second election. If an Elected Member completes the Diploma of Local Government and as part of that, completed the five modules of the Council Member Essentials, they meet the requirements of the Act. They are still required to undertake the Council Member Essentials training at every second election.

If an Elected Member is undertaking the Diploma of Local Government and they do not complete all five modules of the Council Member Essentials as part of that study, they will need to complete those units not covered in addition to the Diploma to meet the requirements of the Act. They are still required to undertake the Council Member Essentials training at every second election. Elected Members have a responsibility to complete training in accordance with legislation. Non-compliance is an offence under the Act and punishable by a fine not exceeding \$5,000. The Shire must prepare a report for each financial year on the mandatory training completed by Elected Members during the financial year. The report must be published on the Shire's website within one month after the end of the financial year to which the report relates.

4.2 Professional Development

In addition to mandatory training, Elected Members are encouraged to identify their individual continuing professional development needs to enhance their effectiveness and address skill gaps as required. When determining their professional development activities, the Elected Member should consider the current or future strategic direction and activities of the Shire and its priorities and the skills that will be needed to assist with decision making. Council supports the training and professional development activities of Elected Members to be able to attend;

- The annual WA Local Government Association Local Government Week Convention; and
- Up to three separate training events including training courses, seminars or workshops with accumulative total of up to three days per financial year. Elected Members are encouraged to share with Council learning and insights from training and conferences. For the purposes of this Policy, the following are not classed as training:
 - Advocacy and lobbying;
 - Invitations for the Shire to accept or present an award; and
 - Invitations to the Shire from partnership organisations.

WA Local Government Association Local Government Week Convention

Council supports the attendance of Elected Members and partners to the annual WA Local Government Association Local Government Week Convention. All costs for Elected Members and an accompanying person for accommodation, meals, Partners Program and Conference dinner will be met by Council.

Shire President Development

The role of Shire President is involved in advancing community cohesion and promoting civic awareness, as well as promoting partnerships with other stakeholders.

To enable the skill development of the Shire President in this role, Council supports

Formatted: Indent: Left: 1.62 cm, Outline numbered + Level: 3 + Numbering Style: Bullet + Aligned at: 1.32 cm + Indent at: 1.95 cm

additional training and professional development activities.

Advocacy and Lobbying

The Council recognises the importance of advocacy and lobbying to higher levels of government and other stakeholders to increase the Shire's funding eligibility and opportunities, and to highlight priority projects. The Shire President (and CEO) will represent the Shire in advocacy and lobbying activities. The Shire President may delegate another Elected Member to attend where appropriate.

Interstate events

The Council will consider attendance at interstate events where there are demonstrable benefits to the Shire.

A proposal should be lodged with the Chief Executive Officer who will submit a report to the Council for consideration.

Unless otherwise resolved by Council, a maximum of two Elected Members shall attend an interstate professional development event.

International events

In general the Shire does not support international travel. The Council will however consider proposals where there is demonstrable benefit to the Shire in so doing.

All proposals for overseas travel are to be considered at an open meeting of Council and a resolution made as to whether the travel is to take place.

Proposals are to include:

- Who is planned to take part in the travel;
- Proposed itinerary and expected duration;
- Objectives for undertaking the travel, including an explanation of what benefits will accrue from the exercise with an approximate budget; and
- Detailed costs, including a statement of any amount expected to be reimbursed by the participants.

After returning from the trip, a detailed report is to be provided to Council outlining the achievement of objectives and the benefits to the community that have occurred as a result of the travel.

4.3 Approved training providers

Mandatory Council Member Essentials training is required by the Local Government (Administration).

Regulations to be provided by:

- North Metropolitan TAFE
- South Metropolitan TAFE
- WA Local Government Association (WALGA)

Other training and professional development activities shall generally be limited to the following:

Formatted: Indent: Left: 0.75 cm

- WA Local Government Association (WALGA) conferences;
- Australian Local Government Association (ALGA) conferences;
- Australian Institute of Management;
- Australian Institute of Company Directors;
- Institute of Public Administration Australia;
- Special 'one off' conferences called for or sponsored by WALGA or ALGA on important issues;
- Accredited organisations offering training relevant to the role and responsibilities of Elected Members;
- Other local government specific training courses, workshops and forums, relating to topics on understanding the roles and responsibilities of Elected Members, meeting procedures, decision making etc;
- Professional Industry training and conferences that would be of benefit to Council; and
- Conferences or study tours that address the initiatives and projects that have been outlined in the Shire of Merredin Strategic Community Plan or Shire resolutions.

4.4 Approval for training and professional development

The CEO is to approve Elected Member training and professional development applications where:

- The application complies;
- An application is forwarded to the CEO for approval in a reasonable time to meet the registration deadline;
- Training and development is to be held within Australia;
- There are sufficient funds available in the Elected Member allocation to meet the costs of attendance; and
- Approval of attendance at an event does not impede a quorum at any scheduled Council or Committee meetings.

An absolute majority resolution is required to approve a Councillor request to attend training or professional development where:

- The application does not comply; and
- Sufficient funds are not available in the Shire's budget for this purpose.

4.5 Funding

The Shire will provide sufficient funds in the annual budget for Elected Members to comply with their mandatory training requirements as elected members.

Funding will include actual costs, including registration, accommodation, meals, travel and incidentals which have been incurred.

Additional funding covering discretionary training and development together with expenses for internal workshops, strategic planning days, whole of Council training and

Formatted: Indent: Left: 0.75 cm

development and internal training programs will be included in the Council training and professional development budget.

Where a request for professional development or training cannot be met within the budget allocation, the President and CEO may approve a reallocation of funds from an alternative area of the budget, subject to final approval of Council as part of the Budget Review process.

4.6 Allowable expenses

Private vehicle

The Shire will endeavour to provide a pool vehicle for travel to and from professional development events or training held outside of the Shire boundary. However if Elected Members, ~~who~~ use their private vehicle for conference travel, ~~they~~ will be reimbursed for vehicle costs in accordance with the *Local Government Officers (Western Australia) Interim Award 2021*.

Where a vehicle is used instead of air travel, reimbursement will be to a maximum amount equivalent to what it would have cost to travel by air.

Air travel

Where air travel is required, travel requests should be provided at least one month prior to the travel date to allow adequate time for bookings to be made. This will allow the Shire to take advantage of any available discounts for early purchase. The cost of air travel to and from destinations is to be by the shortest most practical route unless additional travel is contemplated before or after a conference.

All air travel is to be by Economy Class, unless otherwise provided for by Council resolution. For trips in excess of six hours, Premium Economy Class can be used if available for those travel legs. Any costs incurred to allocate a seat in Economy Class will be at the expense of the Shire. The cost of any upgrade to Business Class is to be paid for by the Elected Member. Elected Members must not receive any personal frequent flyer loyalty points for air travel booked and paid for by the Shire.

Accommodation

Accommodation will be booked, where practicable, at the associated venue or, if unavailable, at premises in close proximity to the venue. Accommodation charges, including breakfast, are not to exceed the allowance under the annual Commissioner of Taxation Determination for reasonable expense amounts Table 3 of for accommodation, unless specifically approved by Council.

Hire cars will only be paid for by the Shire if the CEO considers it the most effective means of travel when attending a conference or professional training. Standard taxi fares, or similar, or public transport for reasonable travel requirements, will be reimbursed upon return, on the production of receipts to verify the expense.

If an Elected Member decides to extend a stay outside the approved times for the event, or varies the travel arrangements for personal purposes, all additional costs are at the Elected Members expense. Elected Members must not receive any personal accommodation loyalty points for accommodation booked and paid for by the Shire.

Meals and incidentals

Elected Member costs for meals, refreshments and incidentals is not to exceed the [annual Commissioner of Taxation Determination for reasonable expense amounts](#) Table 2 Food and Drink and Incidentals.

Accompanying person expenses

Where an Elected Member is accompanied by another person, costs for or incurred by the accompanying person including, but not limited to travel, meals, registration and/or participation in any event program, are to be borne by the Elected Member and will not be paid for by the Shire.

4.7 Claiming expenses

Elected Members are advised that care needs to be taken in making application for claims for reimbursement of expenses and to differentiate between expenditure incurred in their private capacity and expenditure necessary to fulfil their role as an Elected Member.

Reimbursement of expenses is conditional upon adequate evidence of such expenditure in the form of invoices or receipts. All claims for reimbursement must be submitted to the Shire President on the expenses claim form within two weeks of completion of the training. Final claims relating to the financial year must be submitted by 31 July of that year. No back payment of claims relating to prior financial years will be permitted.

4.8 Travel insurance

Travel insurance for Shire related business trips including cover for expenses for overseas medical treatment, emergency medical evacuation, flight cancellations, lost baggage and personal effects will be paid for by the Shire. Elected Members must determine whether the benefits and endorsements of the above insurance cover is adequate. Elected Members may wish to obtain their own insurance cover, at their own cost, to ensure the benefits and endorsements are adequate for their individual needs.

4.9 Training register

In accordance with the Act the Shire will publish a report on the Shire's website within one month of the end of the financial year detailing the training completed by Elected Members. In order to complete the register, Elected Members shall, following completion of the training, provide evidence of completion of the training to the CEO. Elected Members will be asked to confirm their completion or attendance as applicable prior to the publication of the register.

The register will state:

- Elected Member name;
- Each training course or module completed;
- The cost of training and any associated travel and accommodation paid for by the Shire; and
- The training provider or conference name. For reporting purposes, the costs of training completed as a group will be apportioned to each Elected Member that was registered to attend.

5. DEFINITIONS

1.20 Elected Member Training and Professional Development Policy

1. POLICY PURPOSE

Provide a framework for Elected Members to meet their statutory obligations for training and provide all Elected Members of the Shire of Merredin with the necessary professional development and training to support them in the discharge of their responsibilities, obligations and duties as an Elected Member.

2. POLICY SCOPE

This policy applies to all Elected Members.

3. LEGISLATIVE REQUIREMENTS

Local Government Act 1995 (the Act)

Part 5, Division 10 of the Act describes provisions related to the universal training of Councillors:

- Under Section 5.126 of the Act, each Councillor must complete training in accordance with the Regulations.
- Under Section 5.127 of the Act, the Chief Executive Officer must publish a report on the local government's website within one (1) month of the end of financial year detailing the training completed by Councillors.
- Under Section 5.128 of the Act, a local government must prepare and adopt a policy in relation to the continuing professional development of Councillors.

Local Government (Administration) Regulations 1996

4. POLICY STATEMENT

4.1 Mandatory Training

An Elected Member must complete the course Council Member Essentials training which consists of five modules, within a period of twelve months beginning on the day on which the Elected Member is elected. An Elected Member is exempt from the requirements if they have passed the following courses within a period of five years ending immediately before the day on which the Elected Member commences their term of office:

- Council Member Essentials;
 - 52756WA Diploma of Local Government (Council Member);
- Or
- The Elected Member passed the course LGASS00002 Council Member Skill Set before 1 July 2019 and within a period of five years ending immediately before the day on which the Elected Member commences their term of office.

The mandatory training is valid for five years so an Elected Member will only be required to undertake the training at every second election. If an Elected Member completes the Diploma of Local Government and as part of that, completed the five modules of the Council Member Essentials, they meet the requirements of the Act.

They are still required to undertake the Council Member Essentials training at every second election.

If an Elected Member is undertaking the Diploma of Local Government and they do not complete all five modules of the Council Member Essentials as part of that study, they will need to complete those units not covered in addition to the Diploma to meet the requirements of the Act. They are still required to undertake the Council Member Essentials training at every second election. Elected Members have a responsibility to complete training in accordance with legislation. Non-compliance is an offence under the Act and punishable by a fine not exceeding \$5,000. The Shire must prepare a report for each financial year on the mandatory training completed by Elected Members during the financial year. The report must be published on the Shire's website within one month after the end of the financial year to which the report relates.

4.2 Professional Development

In addition to mandatory training, Elected Members are encouraged to identify their individual continuing professional development needs to enhance their effectiveness and address skill gaps as required. When determining their professional development activities, the Elected Member should consider the current or future strategic direction and activities of the Shire and its priorities and the skills that will be needed to assist with decision making. Council supports the training and professional development activities of Elected Members to be able to attend;

- The annual WA Local Government Association Local Government Week Convention; and
- Up to three separate training events including training courses, seminars or workshops with accumulative total of up to three days per financial year. Elected Members are encouraged to share with Council learning and insights from training and conferences. For the purposes of this Policy, the following are not classed as training:
 - Advocacy and lobbying;
 - Invitations for the Shire to accept or present an award; and
 - Invitations to the Shire from partnership organisations.

WA Local Government Association Local Government Week Convention

Council supports the attendance of Elected Members and partners to the annual WA Local Government Association Local Government Week Convention. All costs for Elected Members and an accompanying person for accommodation, meals, Partners Program and Conference dinner will be met by Council.

Shire President Development

The role of Shire President is involved in advancing community cohesion and promoting civic awareness, as well as promoting partnerships with other stakeholders.

To enable the skill development of the Shire President in this role, Council supports additional training and professional development activities.

Advocacy and Lobbying

The Council recognises the importance of advocacy and lobbying to higher levels of government and other stakeholders to increase the Shire's funding eligibility and opportunities, and to highlight priority projects. The Shire President (and CEO) will represent the Shire in advocacy and lobbying activities. The Shire President may delegate another Elected Member to attend where appropriate.

Interstate events

The Council will consider attendance at interstate events where there are demonstrable benefits to the Shire.

A proposal should be lodged with the Chief Executive Officer who will submit a report to the Council for consideration.

Unless otherwise resolved by Council, a maximum of two Elected Members shall attend an interstate professional development event.

International events

In general the Shire does not support international travel. The Council will however consider proposals where there is demonstrable benefit to the Shire in so doing.

All proposals for overseas travel are to be considered at an open meeting of Council and a resolution made as to whether the travel is to take place.

Proposals are to include:

- Who is planned to take part in the travel;
- Proposed itinerary and expected duration;
- Objectives for undertaking the travel, including an explanation of what benefits will accrue from the exercise with an approximate budget; and
- Detailed costs, including a statement of any amount expected to be reimbursed by the participants.

After returning from the trip, a detailed report is to be provided to Council outlining the achievement of objectives and the benefits to the community that have occurred as a result of the travel.

4.3 Approved training providers

Mandatory Council Member Essentials training is required by the Local Government (Administration).

Regulations to be proved by:

- North Metropolitan TAFE
- South Metropolitan TAFE
- WA Local Government Association (WALGA)

Other training and professional development activities shall generally be limited to the following:

- WA Local Government Association (WALGA) conferences;
- Australian Local Government Association (ALGA) conferences;

- Australian Institute of Management;
- Australian Institute of Company Directors;
- Institute of Public Administration Australia;
- Special 'one off' conferences called for or sponsored by WALGA or ALGA on important issues;
- Accredited organisations offering training relevant to the role and responsibilities of Elected Members;
- Other local government specific training courses, workshops and forums, relating to topics on understanding the roles and responsibilities of Elected Members, meeting procedures, decision making etc;
- Professional Industry training and conferences that would be of benefit to Council; and
- Conferences or study tours that address the initiatives and projects that have been outlined in the Shire of Merredin Strategic Community Plan or Shire resolutions.

4.4 Approval for training and professional development

The CEO is to approve Elected Member training and professional development applications where:

- The application complies;
- An application is forwarded to the CEO for approval in a reasonable time to meet the registration deadline;
- Training and development is to be held within Australia;
- There are sufficient funds available in the Elected Member allocation to meet the costs of attendance; and
- Approval of attendance at an event does not impede a quorum at any scheduled Council or Committee meetings.

An absolute majority resolution is required to approve a Councillor request to attend training or professional development where:

- The application does not comply; and
- Sufficient funds are not available in the Shire's budget for this purpose.

4.5 Funding

The Shire will provide sufficient funds in the annual budget for Elected Members to comply with their mandatory training requirements as elected members.

Funding will include actual costs, including registration, accommodation, meals, travel and incidentals which have been incurred.

Additional funding covering discretionary training and development together with expenses for internal workshops, strategic planning days, whole of Council training and development and internal training programs will be included in the Council training and professional development budget.

Where a request for professional development or training cannot be met within the budget allocation, the President and CEO may approve a reallocation of funds from an alternative area of the budget, subject to final approval of Council as part of the Budget Review process.

4.6 Allowable expenses

Private vehicle

The Shire will endeavour to provide a pool vehicle for travel to and from professional development events or training held outside of the Shire boundary. However if Elected Members use their private vehicle for conference travel, they will be reimbursed for vehicle costs in accordance with the [Local Government Officers \(Western Australia\) Award 2021](#).

Where a vehicle is used instead of air travel, reimbursement will be to a maximum amount equivalent to what it would have cost to travel by air.

Air travel

Where air travel is required, travel requests should be provided at least one month prior to the travel date to allow adequate time for bookings to be made. This will allow the Shire to take advantage of any available discounts for early purchase. The cost of air travel to and from destinations is to be by the shortest most practical route unless additional travel is contemplated before or after a conference.

All air travel is to be by Economy Class, unless otherwise provided for by Council resolution. For trips in excess of six hours, Premium Economy Class can be used if available for those travel legs. Any costs incurred to allocate a seat in Economy Class will be at the expense of the Shire. The cost of any upgrade to Business Class is to be paid for by the Elected Member. Elected Members must not receive any personal frequent flyer loyalty points for air travel booked and paid for by the Shire.

Accommodation

Accommodation will be booked, where practicable, at the associated venue or, if unavailable, at premises in close proximity to the venue. Accommodation charges, including breakfast, are not to exceed the allowance under the annual Commissioner of Taxation Determination for reasonable expense amounts Table 3 of for accommodation, unless specifically approved by Council.

Hire cars will only be paid for by the Shire if the CEO considers it the most effective means of travel when attending a conference or professional training. Standard taxi fares, or similar, or public transport for reasonable travel requirements, will be reimbursed upon return, on the production of receipts to verify the expense.

If an Elected Member decides to extend a stay outside the approved times for the event, or varies the travel arrangements for personal purposes, all additional costs are at the Elected Members expense. Elected Members must not receive any personal accommodation loyalty points for accommodation booked and paid for by the Shire.

Meals and incidentals

Elected Member costs for meals, refreshments and incidentals is not to exceed the [annual Commissioner of Taxation Determination for reasonable expense amounts](#)

Table 2 Food and Drink and Incidentals.

Accompanying person expenses

Where an Elected Member is accompanied by another person, costs for or incurred by the accompanying person including, but not limited to travel, meals, registration and/or participation in any event program, are to be borne by the Elected Member and will not be paid for by the Shire.

4.7 Claiming expenses

Elected Members are advised that care needs to be taken in making application for claims for reimbursement of expenses and to differentiate between expenditure incurred in their private capacity and expenditure necessary to fulfil their role as an Elected Member.

Reimbursement of expenses is conditional upon adequate evidence of such expenditure in the form of invoices or receipts. All claims for reimbursement must be submitted to the Shire President on the expenses claim form within two weeks of completion of the training. Final claims relating to the financial year must be submitted by 31 July of that year. No back payment of claims relating to prior financial years will be permitted.

4.8 Travel insurance

Travel insurance for Shire related business trips including cover for expenses for overseas medical treatment, emergency medical evacuation, flight cancellations, lost baggage and personal effects will be paid for by the Shire. Elected Members must determine whether the benefits and endorsements of the above insurance cover is adequate. Elected Members may wish to obtain their own insurance cover, at their own cost, to ensure the benefits and endorsements are adequate for their individual needs.

4.9 Training register

In accordance with the Act the Shire will publish a report on the Shire's website within one month of the end of the financial year detailing the training completed by Elected Members. In order to complete the register, Elected Members shall, following completion of the training, provide evidence of completion of the training to the CEO. Elected Members will be asked to confirm their completion or attendance as applicable prior to the publication of the register.

The register will state:

- Elected Member name;
- Each training course or module completed;
- The cost of training and any associated travel and accommodation paid for by the Shire; and
- The training provider or conference name. For reporting purposes, the costs of training completed as a group will be apportioned to each Elected Member that was registered to attend.
